TWENTY CENTURY TRAVELING PROGRESS.

The inauguration a few days ago, by the New York Central and Pennsylvania railroad Companies, of fast trains hetween New York and Chicago, on a twenty hour schedule between those cities, shows what the business demands of the times are, and how the railroad service has grown so as to be able to meet the requirements of the day.

It is not beyond the memory of those of middle age, when the schedule bctween the above cities was 36 hours, and that was recarded as pretty fast time.

But with the new time schedule, the time has been reduced nearly one half, and yet there is no special sensation felt over this fast run of an average of fifty miles per hour for twenty hours.

Fast travel is no longer a novelty, it has passed into being a necessity, and regular trains must today travel at a speed which would have been considered prohibitive less than a quarter of a century ago.

The present fast passenger service be tween New York and Chicago, is not an experiment; but begins a regular service, which the public wants, and which the rallroad managers are able to give.

It is the splendid advancement in railroad progress in the United States, which enables the inauguration of a faster and better service along any great railroad system, as soon as the public needs call for it.

And this without any special or extra cost to the traveling public, and without any disturbance to previous existing railroad conditions, on the lines of road inaugurating the new secritic.

FLAG DAY OBSERVANCE

By Flag Presentation From John E Chap man, Jr. W. R. C. No. 30, of Bevericy, Mass. to Local G. A. R. Society, June 17th,

Plag Day was observed by the G. A. R. Post on Tuesday, June 17th. A very beautiful fing given by the John H. Ohapman, Jr. W. R. C. No. 30, of Beverley, Mass., was presented by the Res. W. A. Byrd. Hatore the presentation speech Miss Annus Boone read the following brief history of the origin of the flar which was timely instructive and

ogether to colebrate what is known as to the hall of the Montesumas.

That the black regiment planted or United States of America is the emblem of Liberty and Independence, and it is Spangled banner, Stars and Stripes, Old Bay and Santiago Harbor, sak you Aled that is stituated in our flag, calls to mind the blood shed on the battle field for our country. The white expresses truth, hope purity and peace, and the blue loyalty, sincerity and justice. The first flag that was raised in the United States was by Washington at Cambridge. January 2, 1776.

It took its first trip around the world September 80, 1787 and was about three years in girding the globe and was made under the direction of Gen. Washington between May 23 and June 7, 1777. It is plainly written in our history that our flag is about one hundred and twenty years old. Although our country is the youngest of the great nations of the world. But yet this flag is the oldest of them all. Never! Ob. Never! shall we forget our country's flag. We will ever hold it in remembrance as long as the earth bears its plants and the sea rolls its waves.

Then hall fairest flag of land and

ocean, Setting all the world in motion ! It's stars so bright, it's stripes fair:

No other can with it compar That sails the sea, that rules the air. Awakel Awakel Salute Old Glory !

Our flag has felt the tempest-rattle, Blown by all the winds of battle For you it's beauteous folds were torn. But now by loyal legions born Rivals the splendors of the morn:

Awakel Awakel Salute Old Glory O come ye patriots to the rally! Come from every hill and valley !

The Stars and Stripes for freedo stand-O come from your country land. And pledge your head and heart and

> Awake! Awake! Salute the flag.

Then Rev. W. A. Byrd was introdu by Post Gommander Capt. Isaac Powell Rev. Byrd said in part: "The composi tion of the colors of the flag was significant 'Red, typical of blood which founded the nation; White, emblem of purity, which characterized the life and moral of the fathers; Blue, meaning true, emblematical of the spirit of truth, true to liberty, true to the principles of sterling od and virtue and true to the laws City of Toledo, County and State afore of Almighty God." He said: "The flag said, and that said firm will pay ONB symbolized one people, one brotherhood HUNDRED DOLLARS REWARD for and one nationality, Americans. Cart History

The Black Death.

It is recorded that the "black death," which devastated many countries in the middle of the fourteenth century, was preceded by "stinking ruists," and earthquakes were frequent just before the outbreak, and volcanoes assumed unwonted activity. The air over the sea was infected as well as that over the land. It was a putrid typhus, styled "black death" because the bodies turned black with rapid putrefaction. In 1848-49 at least half the population of Engiand died, or 2,506,000 out of 5,000,000. Between 1847 and 1850 one-fourth of all the population of the world was carried of by this pestilenes. Not less than 25,000,000 perished in Europe ulone. The deaths in Yeules were 105,000, in Florence 60.
