SETTLEMENT PER SENATORIAL COURTESY.

The recent sensational attack upon Senator Beveridge of Indiana, by Senator Bailey, of Texas, while it is unlike the attack of Tillman upon McLaughlin, in that it did not take place in the hall of the Senate, is a disgraceful affair, and one which detracts from the dignity and character, which should surround the United States Senate and its Senators.

The fat as the chief argument in any dispute, is not regarded highly in these days, when presumed gentlemen differ upon private or public question.

If the fat is to become the final argument by which Senators are to settle their quarrels, why shall not the Senators employ men who are versed in the science of the "manly art," who may settle these "unwarranted attacks" of the mouth through the medium of a paid pair of hand-knuckles?

This would save the sacred persons, themselves, from all disagreeable marks, and also determine the question of physical "nobleness" through the second party, who could be paid as per the amount of punishment given his opponent.

But the Bailey-Beveridge incident is one which has injured both men, and also cast a reflection upon the Senate, of which they were members.

A Sprained Ankle Quickly Cured.—"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and was pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by F. B. Duff & Co.

A MATHEMATICAL PROBLEM.

Can You Solve It or Prove What It Cannot Be Solved?

At a lecture at the Royal Institution on the fascinating subject of "Magic Squares" Major F. A. MacMahon, F. R. S. revealed his solution of the existence of a curious problem which, despite its apparent simplicity, has never yet been solved. He contended that the attention of any one present who desired to exercise his ingenuity and patience.

The problem is as follows: There are thirty-six officers of six different ranks and drawn from six different regiments, and it is required to arrange them in a square of thirty-six compartments, so that in each row, as well as in each column there appears an officer of each rank and also an officer from each regiment.

Ruler's "Becherches Sur une Nouvelle Espece de Quarrés Magiques," which appeared in 1782, discusses this problem, but gives no solution, and the late Professor Cayley, writing more than a century afterward, confessed that it was beyond his powers.

Major MacMahon, who has added no touch to our knowledge of the theory of groups—a fascinating branch of mathematics—which has an important bearing on many branches of physical science—has not yet found a key to the mystery.

Whoever can solve this problem or prove that it cannot be solved will achieve immortality on the lips of mathematicians and perhaps open a door into a new realm of the scientific Wonderland which is called pure mathematics.—London Post.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Biscuits prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. F. S. Duff.

He Botted It Down.

A beginner in newspaper work in a southern town who occasionally "sent stuff" to one of the New York dailies picked up what seemed to him a "big story." Hurrying to the telegraph office he "quered" the telegraph editor: "Columb story on so and so. Shall I send?"

The reply was brief and prompt, but to the editor's unsatisfactory. "Send 600 words," was all it said. "Can't be told in less than 1,200," he wired back. Before long the reply came: "Story of creation of world told in 600. Try it."—New York Post.

Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, nausea, dizziness, headache, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at O. D. Bradham's drug store.

Naming the Hymns.

A story is told of a negro evangelist minister who held night services in a church formerly used by the Anglican church. In a hymnal which had been left he found an old familiar hymn suitable for his sermon, but the Roman number CXIX somewhat confused him, and he was embarrassed as to how to announce the hymn. As was the custom, he read the stanzas through, seeming still confused. He then read the first stanza, which did not seem to aid him in helping the congregation, now very much bewildered. Proving redoubtable, he straightened himself up and seemed to grasp the situation at a glance and in a commanding voice exclaimed, "Brethren, let us sing the 'Three-hundred-hymn.'"—New York Tribune.

YOU KNOW WHAT YOU ARE TAKING

When you take Grove's Tasteless Chilli Biscuits, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

Plaster Patches

Plaster patches were introduced in England in the reign of Edward VI. by a foreign lady who in this manner speedily cured a woman on her neck. They became such a craze and were ordered to such exaggerated lengths that they were finally lampooned out of sight. The man, as well as the woman, stuck themselves over with these beauty spots. No lady of fashion considered her toilet complete until she was equipped with her little box of patches cut in her favorite design. If one happened to come off in company, she hurriedly replaced it with a fresh one from the box.

Plaster Patches

Trout are cannibals, and it is a moot question whether in some waters large trout should not be systematically exterminated. Dartmouth fishermen are in favor of killing them. They say that fish in their streams of one pound to two pounds weight are hardly ever caught by ordinary means and live entirely on their own brethren. A two-pound trout is probably responsible for the death of several stones' weight of his own kind.—Nature Notes.

Vacation Days.

Vacation time taken and the children are lately being out of doors. There would be no healthful place for them. You can only go guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Head Balm for quickly stopping pain or removing danger of serious consequences. For cuts, sores and wounds "I used DeWitt's Witch Head Balm for sore, cuts and bruises," says J. B. Johnson, Dallas, Tex. "It is the best remedy on the market." See one for price and name on the box.

PLAYS AND PLAYERS.

Tom Terrill and Sam J. Ryan are to present a season.

Worcester, Mass., is to have a new theater for next season to cost \$100,000. Jefferson De Angelo will have a new vehicle for next season called "The Bluebird Isle."

David Wardell will next season use "Dinkelpiel," a German comedy by George Hobart.

Grace George takes a try at "Frog Frog" in Chicago and will probably play it on tour.

Harrison Gray Fiske will set as Mrs. Patrick Campbell's manager next season in this country.

Amelia Karie, who has been a member of the Rogers brothers chorus, will marry a wealthy western ranch owner in the fall.

Maurice Campbell has made a three year contract with Charles Chubb, who will during that period be Henrietta Crossman's leading man.

Neck and Neck.

Interest in the speaking trumpet contest is daily growing exciting. Both sides have staunch friends and they have shown and will show their loyalty in a splendid manner. The votes as counted Friday night stand: Atlantic 776, Button 804. Making a total of Atlantic 718, Button 718.

Pull Together!

England alone has twice as many cotton spindles as there are in this country, but this will assuredly be changed in the long run, and the spinning of the American crop will be done at home. The crop, however, increases faster than the home spindles, and it will be years before we can drive out of this or that market the goods of foreign spinners. The task calls for the best efforts of New England as well as of southern manufacturers. American mills should pull together. The south is content to spin and to weave the coarse goods, and New England has a wide field in the making of the finer forms into which cotton is put nowadays.—Birmingham Age-Herald.

Anti-Chinese Canada.

The latest Canadian order in council is to forbid Japanese and Chinese cutting single bolts or logs from the crown lands. This means that hundreds of Japanese will be driven into the United States, as they were almost exclusively employed. The laws are also being passed against Chinese, and although they are arriving by hundreds on every ship and the Canadian government gets \$100 a head, the Chinese find that nearly all avenues are blocked in the way of making a living in Canada, so they walk into the United States getting the tax and Washington state getting the Chinese. The inadequate United States immigration staff cannot prevent the Chinese from crossing the line, while white men who smuggle them over are getting rich at \$100 a head.

Another Absorption.

"Miss Birdie," said the young financier, edging a little nearer. "I believe you and I would make a strong combination if we were to merge, as it were."

And they subsequently merged.—Chicago Tribune.

Augustus Daly's Wit.

An actor who knew Augustus Daly well told this story of the great theatrical manager's ready wit:

"We both chanced to be depositors in and victims of a bank which suspended payment. Like others, when the news of the disaster became known we hurried off to the bank to pick up what information we could, and coming down the steps from the offices into the street, Mr. Daly's foot caught in the mat, and with some difficulty, he managed to save himself from falling. I was entering the building, and seeing the mishap, I ran up, saying: "Oh, you have not hurt yourself." "Oh, no; thank you," he replied. "I only lost my balance."

You may as well expect to run a steam engine without water as to find an active energetic man with a torpid liver and you may know that his food or feels dull and languid after eating often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price 25 cents. Samples free at F. S. Duff & Co's drug store.

What You Need.

"You ought to have a change of scene," said the physician. "But, my dear sir," protested the patient, "I am a traveling man by profession."

"Well, that's the point. Stay home awhile and see something besides hotel rooms and depots."—Washington Star.

Cleaning.

Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pain and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. F. S. Duff.

The View Masculine.

"I tell you, sir," said the red eyed passenger with the bargain counter tie, "all women are born gamblers."

"That's right," observed the jewelry drummer. "I know of several who played hearts to catch diamonds."—Chicago News.

Saved From an Awful Fate.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at C. D. Bradham's.

A Remarkable Case.

A remarkable instance of the loss and recovery of speech is recorded in Glasgow, says a London paper: A paltry constable was arrested on a series of charges of theft from warehouses, and, as a result of the shock caused by his apprehension, he lost his power of speech. He was found not guilty of the charges laid against him, but, being dumb, was unable to resume his duties as a policeman, and a gratuity of \$68 was given him. After the lapse of several weeks his power of speech has returned to him.

BRAIN-FOOD NONSENSE.

Another ridiculous food has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutritive is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulate the liver to health action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at F. S. Duff. Get Green's Special Almanac.

Small Fish.

An Englishman walking through a certain part of Scotland with rod and reel came upon a tiny loch which he thought held out promise of good sport. Patiently he fished for three hours, moving steadily from spot to spot along the borders of the little pond, but no success came to him.

At last he accosted a boy who had stood for ten minutes watching him with mingled surprise and curiosity on his face. "My little lad," said the Englishman, "can you tell me whether there are any fish in this pond?" "If there be any, they must be very wee ones, sir," returned the boy, "for there was nae water here until it rained yesterday."

A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have used Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family for both ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by F. S. Duff & Co.

The Warhorse.

The horse in war is expensive, fragile and a fool. He is greedy, and his food is as bulky as himself. He requires an expert to keep him efficient under hard work and a manager to keep him alive under heavy fire. He must be watched and guarded more carefully than the lines of communication, both in action and in camp. He is a coward. The race of them that snorted "hal hal among the trumpets, the noise of the captain and the shouting" is dead, if it ever lived at all outside the inspired mind of the plague stricken poet. He is a traitor and will desert to the enemy at the first opportunity, probably with three days' rations in his saddlebags and a useful ride in the bucket.—Spectator.

Eye Strain Cause of Sore Eyes.

Inflamed eyes, styes, and headaches are symptoms which point conclusively to eye strain, and to cure yourself you must seek the cause, correct it and then your trouble will disappear. You can stimulate and help nature in curing the symptoms by various ways, but still the cause is there and liable at any moment to break out again. It seems like pouring water on the smoke to put out a fire, to pursue any other course than the proper adjusted glasses to correct the strain.

A normal eye is one which when it is exposed to the rays entering it, is brought to a focus on the retina, when they are not this way an extra amount of nerve force is demanded to make them form correctly, the result, an overflow of blood causing congestion, the blood of the retina from the headache, it is not hard to understand how a severe strain can cause general bleeding down of the whole nervous system.

AN OLD SORE

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual. If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly discouraging to find after months of diligent and faithful treatment, remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that theregs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work. The blood must be purified before the sore will fill up with healthy flesh and the skin regain its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore or ulcer and kept irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals. S. S. S. is the only blood purifier that is guaranteed entirely vegetable. It builds up the blood and tones up the general system as no other medicine does. If you have a sore of any kind, write us and get the advice of experienced and skilled physicians for which no charge is made. Book on Blood and Skin Diseases free.
