THE PENALTY OF PROMI-NENCE.

The so-called blessing of free speech and a free press, in this country, carries with it the certain censure of every prominent person.

No person, no matter what his eminent ability or distinguished worth in private or public life, can escape the insvitable criticisms which finds something of evil or questionable in its surroundings, of some act, private or public, or in some speech or conversa-

Public rewards of any special character, and a pension for life from the government cannot be held as any great reward for the services, which some Americans have given during their lives to their country, such rewards are not given to those who have been preminent in the country's service.

It is not the American policy to make the latter portion of the lives of its great citizens brilliant through office and public rewards

Presidents drop into obscurity, going about as plain citizens, earning a moder ate living.

Great generals and admirals go into private life, their only recognition being the quarterly pension or salery check, which is sent them from the govern-

The Senator or Congressman, no matter how eminent his servicies may have been, finds that once out of office, he must shift and hustle for himself, and take his chances with the great crowd, eager for a living.

In commercial life, the banker or merchant once out of the active trade. Is not regarded in the circles where once his word was supreme.

There is no favored class into which men and women once prominent can retire and still be prominent.

The attempt may be made by this or that one, once an authority in some public pursuit, to attract attention, but censure is the penalty usually of such a attempts, with consequences of stirring up harsh critisms.

The penalty of prominence in this country, is that it offers no protection from censure, but really invites it.

To do nothing, to say nothing, is a refuge in obscurity, the opposite from prominence. But who wants to pay such a price for the immunity it gives from private or public censure, which inveritably follows the person who is promi-

CURRENT COMMENT.

It is not the automobile, but the foolwho runs it, that the public objects to Engined may be willing to turn the next little difficulty over to The Hague court of arbitration.—Pittaburg Gasette.

What we want to know is whether Professor Moore's new cooling ma-chine works the same way as a weath-er prediction.—Philadelphia Ledger. Professor Alexander Graham Bell's airship experiments ought to be some-thing practical if not altogether prac-ticable. The inventor of the telephone is no pipe dreamer.—Boston Herald. It seems that the people of Australia are thinking much more about their own affairs than about those that con-

cern the empire at large. While this is perfectly natural, it is suggestive of future independence for Australia rather than of imperial federation.—

Saved From an Awful Fate.

"Everybody said I had consumption, writes Mrs. A. M. Shields, of Chambers burg, Pa. "I was so low after six month of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was com-pletely c ured." What "Port Your Helm" Means. In this country the helm is put to the port side of the ship (or left hand side looking forward) at the order, "Port your helm!" The rudder of course goes to starboard, and the ship's head moves to starboard. This is the rule of most nations, but in Sweden the reverse is

A Sprained Ankle Quickly Cured.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by F. S. Duffy & Co.

A short time ago a well known writ er of London, remembering that he had never read the noncanonical books, went out in search of a copy and in one bookshop after another drew blank. At last he went to his own particular newspaper shop, which also dealt in Ribles and light literature "Have you the Apocrypha?" he asked For a moment the young woman behind the counter was puzzled; then, beightsning, she said, "Is it a weekly or a monthly?"

Why Two Ears Are Necessary. Sound travels by waves radiating from a central point of disturbance, just as waves radiate when a stone is dropped into still water. So far as the hearing of each individual is concerned these waves move in a direct line from the cause of the sound to his ear, the impact being the greatest in the ear nearest to the source. This being the case, a person who has totally lost the sense of hearing in one ear, although be may imagine that the defect is of little consequence, cannot locate the direction of a sound to save his life, ever when the center of disturbance is quite near him.

Meking Her Stamps.

We find the following anecdotes in Naples paper: "At the postoffice yesterday, amid the large crowd gathered around the window, was a young English lady, handsome, well dressed and accompanied by her maid. The young ady had just purchased some stamps and was about to affix them to a number of letters which she held in her hand. Delicately tearing off a stamp, she said to her maid. 'Pull (sic) out your tongue.' And the maid, with Eng-lish impassivity, thrust forth her tongue, while the mistress passed over it a postage stamp, which she subse quently stuck on a letter. She went through the entire package of letters. and for each one the obedient waiting maid thrust out her tongue for th mistress to moisten the stamp. Curious manners these English people

Poisoning the System.

It is through the bowels that the body is cleaned of impurities. Constipation keeps these poisons in the system, caus ing headache, dulness and melancholi at first, then unsightly eruptions and finally serious lilness unless a remedy is applied. These little pills do no act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress F

The Canon and the Lawyer, The point of the following story lies in the important part which the "three penny bit" plays in church collections in England. Canon Blank was having a friendly game of pool at the squire's, and one of his opponents was Wigsby, the barrister. The canon lost a "life" and took from his pocket a threepenny plece to pay for it, which he placed on the edge of the table.

the edge of the table.

"Oh," said Wigsby, "I see, canon, you have hid your finger in the plate!" The canon drew himself up to his full height, a good six feet, and, looking the man of the law full in the face, said, "I'm surprised that you, Mr. Wigsby, in the presence of this respectable company, have the audacity to recognize your own pairry contribution!"

THE CHRISTIAN SCIENTISTS

416 to 531 a gain of 105. It may i the membership of the branch churche is made up of those who have come from churches of other denominations. In two years the number of associations which hold Christian Science Services regularly is fifty-nine, making the num ber now 184. At this meeting Mr. Edward Kimball

of Chicago, made the motion thus re ferred to by the Boston Journal: "Assembled in the largest business meeting ever held in Boston, perhaps the larges ever held in the United States, the mem bers of the First Church of Christ, Scien tist, Boston, the Mother Charch of the denomination, voted yesterday afternoon to raise any part of two million dollars that might be needed to build in this city a church edifice capable of scating between four and five thousand persons. This astonishing motion was passed both with unanimity and assurince. It was not even talked over, beyond two brief explanations why the sullding was needed. Learning that a olg church was required, the money to provide it was pledged with the readisess and dispatch of an ordinary mortal passing out a nickel for carfare

Wednesday night, the last on the serrices, was a testimonial evening. It was marvelous to see this immense audience larger than ever, all ready to tell of their joy in being healed of sin and sickness through the gospel of God's dear love, and the evident freedom from all not harmonious was a lesson truly in its practical demonstration.

For the first time since the Mother

Church was dedicated a change was made in the Readers. Judge Hanna first reader with Mrs. Gragg as second gave place to Prof. Herman Hering of Baltinore with Mrs. Williams of Chelsea, Mass, Judge Hanna having been put on the Lecture Board the field is rejoicing in the privilege the world will have in hearing so able an exponent of their teachings. The Boston Herald thus peaks of the newly elected First Reader. Herman S. Hering is a son of the late Dr. Constantine Hering of Philadelphia, the founder of Homeopathy in America and was for five years associate in electrical engineering at Johns Hopkins University in Baltimore. He gave up his profession three years ago to devote himself to Christian Science work. He is a graduate of the Massachusetts Metaphysical College and has been Publication Committee of the State of Mayland, and brings broad culture, youth and consecration to this service. One thing which interested the looker on was the nightly testimony meetings of the Christian Scientists at the large hotels where they were. The banquet halls and large parlors were scenes of joyous greeting and every one was ready to give and to hear these testimonies from all quarters of the globe. A real rejoicing in the goodness of God as revealed in Christian Science. All rejoicing in freedom from oppression. direase and care and anxious to mark the smallest victory over details of daily living, business complications, sin, sickness, poverty all told in praise of Him who alone giveth good, were heard with a new hope that all the children of men
