DEVELOPMENTS AWAITED AT GREENSBORO.

The Democratic State Convention which is to meet at Greensboro on Wednesday of this week, is a convention whose proceedings are awaited with intense interest by the people of the entire State, regardless of politics.

The chief work for the convention the adoption of a party platform; the manner of precedeure in the maining of the next United States Senator; the election of an executive committee; the nomi nation of Chief Justice, Associate Justices, State Superintendent of Public Instruction, Corporation Commissioner; and the nomination of ten Superior Court Judges, these are all important matters, but even more than these, is awaited the Democratic spirit, which is to infuse and enthuse the convention into party action.

For it must not be forgotten that there is a changed condition in the political situation, that the Demogratic policy removing the negro as a political force is now operative, and the appeal to men's intelligence not passions, as promised by Democratic leaders, is to take precedence over the political alarms, once so potential and influential to rally Democratic voters and white

Truly the action of the convention under the new Democratic conditions, will be awaited with intense interest.

Those within the party believe that Democratic promises under the amend ment will be fulfilled, while those on the other side will not, until the convention by its public action and proclamation gives to the people, its policy, which will prove its good faith to the people for placing it in power and in charge of the Stafe's material and all other inter-

BRAIN-FOOD NONSENSE.

Another ridiculous food has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nour ish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutri-ment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Plower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to health action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at F. S. Aheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles n the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with limiments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are affected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S.
