### TELEGRAPHIC BREVITIES.

Mgr. Gottl of the Roman Catholic College of Cardinals has been chosen to succeed the late cardinal Dedeochowski.

A shell has been tested and approved by the war department which is the most dangerous piece of ordnance yet devised. It is said that it will shatter anything it touches however large or strong.

The lower house of Cuban Congress has adopted a resolution declaring that the settlement made by United States with the Catholic Church respecting church property in Cuba need not be considered as binding upon the Cuban Government nor upon the church.

A pleasant social affair occurred at a prominent private house in England at which the chief feature was the friendly meeting of two exiles in warfare, General Kitchener Commander in chief of the English army, and Lucas Meyer, a Boer General.

Electrical Workers at the White House in Washington City have gone on a strike to enforce the rules of the union.

A Requiem High Mass was said Tuesday at St. Mary's church, London, for John W. Mackay.

Hon. T. F. Klutz was nominated for congress by acclamation Wednesday at the Eighth District Congressional convention which met at Wilkesboro, Wednesday.

The British steamer Prince Alexander and an Indian steamer collided in the straits of Malacca. The English boat sank and 40 lives were lost.

Hon. John H. Small was nominated democratic candidate for representative to congress from the First District at Plymouth Wednesday. He has served two terms in congress and was renominated by acclamation.

A terrific fight occurred between the striking coal miners and the police at Rhensandoh, Pa. The strikers are desperate and are ready to commit almost any act of lawlessness. The sheriff has a strong force of deputies to help him and way have to call on the State militia for help.

One Henry Tudar, laboring under religious excitement at a salvation army meeting in Philadelphia, Sunday night, and confessed to a number of high crimes committed by himself in Kentucky. The police took a hand in the matter and Tudar was locked up. Inquiries sent to Lexington Ky elicited the reply that Tudar was not wanted there in connection with any crime, and was not even known to have committed any.

### SCHOOL MONIES

To be Regulated According to Need of Districts.

Great Pressure on State Treasury. Failure to Keep Agreement. Child Factory Labor. Free Libraries Rural Public Schools.

RALEIGH, July 31.—State treasurer Lacy says the pressure on the treasury, which has so far this year been very great, will be relieved in September. He says that sheriff back taxes have been paid in more closely than heretofore and that only three or four sheriffs now owe such taxes, the balance in each case being small.

The supreme court's decision in the case from Greenville, that school fund money should be apportioned per capita, among whites and blacks, is not an opinion but merely a dictum by the chief justice. The constitution does not say that the school fund shall be apportioned per capita. The school officials will go ahead and apportion the taxes according to the needs. It will readily be seen that this is the only just way. The negro schools can be of course well maintained at much less cost than those of the whites. The plan of using the funds as needed is not only just but constitutional as well.

Weather-observer Von Herrmann of this city is authorized by the weather bureau to visit and confer with all the voluntary observers in this State. They make their reports to him.

During the past 4 months only one bankruptcy case has been filed in the Federal court clerk's office here.

There was signed in the winter of 1900 1901 an agreement by most of the cotton mills in this State that they would, in case no legislation was effected in regard to the regulations of factory labor by children, regulate this labor properly. This solemn covenant, duly signed and sealed, is placed in the legislative journals. There have been rumors that some of the signers failed to keep their pledge. Today your correspondent asked State Commissioner Varner if this rumor was true. He replied: "I regret to say that a number of the mills which signed that agreement have not lived up to it." The state of affairs may have an important bearing in the legislature next winter.

There are up to date 333 free libraries for rural public schools, to each of which the State has given \$10, the district \$10, the county \$10. There are besides these 37 such libraries in Durham for each of which Julian S. Carr paid the full cost \$30. The total amount expended for such libraries is then \$11,460.

The State today authorized the Whiteville Lumber Company to increase its capital stock to \$150,000.

All the farmers and the people here agree in saying that never before was there such a year for watermelons and cantaloupes, both for quantity and quality. Never were these fruits so cheap.

Rev. Dr. A. A. Marshall, pastor of the 1st Baptist church, is yet living. His vitality is remarkable.

The present street car company expects the new company to take over all its properties, including bonds, etc. The deal is now under way. The city yesterday gave an entirely new 10 year charter to the company. The system here is the poorest in the State and is assessed at only \$40,000.

The day was a beautiful one, and the crowd immense; people were there from far and near, all had a general good time. The Politician was also there. All went well until a horse hitched to a cart took fright, and dashed through the big crowd scattering them fore and aft. No real damage was done, but one of our big fat bachelors was quietly seated in a buggy making love to a young lady, when the affair was very unceremoniously ended by the runaway horse and cart dashing over them and upsetting the couple and the cart.
