### LEARN HOW To Feed Yourself Skillfully.

It is easy to use good food and get well and keep that way, but a person must go about it.  
A lady says, "I had a dreadful time of it before I learned how to feed myself properly. I suffered with stomach trouble for about ten years and finally got so bad that terrible pains would set in, followed by vomiting and sickness in the stomach and bowels.  
Sometimes I would lie up and would have to lie flat on my back. My stomach finally got so bad that it would throw up everything I ate and, of course, I lost weight and strength very rapidly. I became pale. Blood was out of order and I looked like a skeleton finally.  
One day straight out in the stomach and liver and I went right down to death's door. I got so bad that even warm water was thrown up of the stomach which would hold nothing but nothing until I began taking Grape-Nuts in small quantities.  
My father had been accustomed to Grape-Nuts and knew of the value of the food and began giving it to me. I immediately began to improve, and the stomach retained the food and digested it. I gradually grew well again, and now I can eat a hearty dinner of almost anything. I have gained thirty pounds in weight. My brain is clear, skin beautifully white, and my eyes as bright as crystal when I used to be yellow and with ink-better eyes. I am everything to Grape-Nuts. Please do not publish my name. Name given Postum Co., Battle Creek, Mich.
