### LIGHTNING'S WORK

Will Cause Rebuilding Tower A. & M. College.

Cotton Opening Freely. Severe Electrical Storm. Swamp Land Sale. Deeds to State Swamp Lands. Conjurors to Cure Sickness.

RALEIGH, August 11.—The bolt of lightning which struck the lofty tower of the textile building at the Agricultural and Mechanical college here Saturday afternoon, has done such damage that about an eighth of the tower will have to be rebuilt. It is the second time this summer this tower has been struck. It is topped by a mass of galvanized iron which weighs 150 lbs. Fifty feet below is the metal roof of the building. There are no lightning rods. Of course the lightning gets to the roof and as the bricks are a poor conductor it tears them to pieces. The tower looks exactly as if it had undergone a bombardment. There are holes, nearly circular, 3 and 4 feet in diameter, entirely through the brick work. Many brick have fallen others are ready to fall.

Cotton is opening quite freely in this section. The copious rains of the past few days will check this and cause a new growth, which is desired.

There was a severe electric storm here last night. It came from the north. The clouds were very threatening and had they come from the southwest there would have been great fear of a cyclone. The rain fell in torrents. South of here a house struck by lightning, was seen in flames. The path of the storm was narrow, like that of all this year in the State. There is now plenty of rain in this section. It has helped old corn and is making young corn grow wonderfully.

A charter was granted today to the Fremont High School.

The corporation commission will hold a general business session Wednesday.

The State Board of Education today made a sale of 3,000 acres of its swamp lands in Alligator river, in Tyrrell county, to G. W. Roper.

The board has made copies of all deeds of sales and of all options on its swamp lands in the State. These go to the agent of the board, W. B. Rodman of Washington. No one knows, even approximately, it appears the quantity of this land yet unsold. Of course squatters are on a lot of it; timber thieves have cut the timber on a large area. There is now a systematic effort to get at the area and the status of all these lands.

It is found that some poor whites here who are sick, have rejected the services of regular physicians and are employing "conjurors." Some of the latter are whites and some negroes.

### Death of Capt. Batchelor.

Special to Journal.

RALEIGH, Aug. 11.—News was received here today of the death of Capt. Joseph B. Batchelor, Jr., retired, at Manila. The cause of his death was cholera.

He was retired from active duties in the army on account of disability due to arduous service in the Philippines. He was 42 years of age and was prominent in military circles being the author of at least two textbooks.

He leaves a wife and three children who are in New York and his father, Hon. Jos. B. Batchelor, Sr., is Raleigh's oldest lawyer.

### Assist The School.

Nothing can be started that will be of more good to any race than a movement that will train all of its people industrially. The New Bern Collegiate Industrial Institute has been started with this purpose in view, and it is the wish of all those who foster the work, that every citizen in New Bern give something to the cause. The first building is half completed, and we are very much in need of means to finish it, so that we may be able to open school in September. We will be very glad to have a talk with any person who feels himself interested enough to aid this enterprise in any way.

### SWANSBORO.

Powerful and Effective Revival Sermon. High Price for Terrapins.

Aug.—Mr. Robt. Dixon and sisters, Misses Concha and Ophelia, of Fowle, Jones county, were visitors here for a few days last week, Miss Concha is still with us for a few more days stopping at Mrs. D. J. Moore's.

Mrs. J. B. Farrior, daughter, Miss Julia, and son, Master James, of Wilmington, are our welcome visitors this week. They are the guests of Mrs. J. T. Bartley, and will remain several days.

About a dozen commercial drummers were in town last Monday, Tuesday and Wednesday asking our merchants to please buy, because there would be plenty of money soon as the cotton crops were amazing, also peas and potatoes, besides corn and sugarcane by the millions.

Mrs. R. L. Williams and children of Portsmouth, Va. are in our place visiting her parents, Mrs. J. A. Pittman and friends. They will remain for several weeks.

The new building for the saw mill plant is nearing completion fast, also new steam launch spoken of before.

The schooner Joseph, belonging to Capt. Ed Foster, is up on the ways here now, undergoing repairs, also schooner rigged sharpie, C. Hay, is up for repairs too. The C. Hay belongs to Messrs. J. A. Pittman & Co.

A \$200.00 brick kiln was built and burned here lately by the Swansboro Lumber Company, to be used mostly by the company for their building.

Diamond back terrapins are selling now for 90c. for 5 inch and \$1.35 each for 6 inch. The rich people North don't mind eating bullfrog legs at \$2.50 per lb. let a lone terrapins at a dollar each.

Rev. J. B. Olive assisted by Rev. John S. King of Wilmington, is holding a protracted meeting at Piney Grove church near Swansboro this week. Rev. King preached a sermon there yesterday that was far ahead of anything in the revival line we ever heard, when he closed and invited sinners to come to the altar, there were many, and hardly a dry eye in the large congregation. The meeting will continue all this week.

Next Sunday night, (2nd Sunday) Rev. Becton will preach here at his regular appointment D. V.

Mr. G. W. Smith at the Hammock farm has 175 acres each in field peas and corn besides 25 acres in cotton and peanuts. Mr. Smith is a good farmer, his crop is very fine, and looks as though the corn would average four barrels to the acre all through and cotton a 450 lb bale to the acre. He has 150 head of fine cattle for beef stock, and about 100 head of fine hogs.

Our primary election passed off very quietly, but some very crooked things transpired during the day and nights after, one or two drinking ones got in a row, among them, one who had only lately escaped from the roads by pardon from the Governor, better look out boys. Then some of the candidates didn't do as they wish to be done by, but politics is politics you know, all's fair in love and politics. The Convention at Jacksonville on the 5th inst., was very harmonious, more so than expected, all the officers nominated had a plurality of the votes cast in the primaries, a thing not done before in our county, and we think all are satisfied in that line, we hear of some independents which is quite natural or all would not be satisfied unless all were of the same mind and politics.

We have some good old people in our town, among them are Capt. N. S. Moore, 88 years, J. P. Odum 83, Jas Meadows 81, T. W. Meadows says he is 91 but we think he is mistaken, Mrs. Mary Willis 78, Capt. Jim Smith 73, Curtis Hay 73, W. Nash Dennis 65, E. W. Mattocks 69, G. W. Ward 67, M. Russell 65, Bryan Haisell 66 and so on. This must be a healthy place.

Lots of our men and boys left today for Punta Gorda, Fla., to engage in the fish business, among them were D. G. Ward, Jr., Capt. K. and Albert Bloodgood, Messrs Charles Webb, Edgar Morton, Steven Morton Jr., James Meadows, Dexter Phillips, Early Weeks, Zack Willis and many others, we scribble was on the list but backed out at the last moment, we think we will muster up enough courage to go when it turns a little cooler weather.

No marriages nor deaths lately, several want to be of the former from looks of things and we hope they will hitch up and make people quit talking about them courting for ever. G. W.
