PRACTICAL AND SENSIBLE POLITICS.

The cards of Messrs. Wm. B. Lane and Owen H. Gulon, published in these columns, solve the question of Craven County's next representative to the General Assembly, the withdrawal of Mr. Wolfenden a few days ago, having narrowed down the field to Messrs. Lane and Gulon.

The Democracy of Craven county, as represented by the friends of these two gentlemen, has done the practical and sensible thing in coming together, and naming a single candidate, instead of making the contest a factional one, with every probability of engendering political strife and bad feeling among local Democrats, thus hampering the action of the candidate who might be elected, when he reached the Assembly.

In centering upon Owen H. Gulon, as Democracy's choice, to represent Craven county, at the sessions of the next General State Assembly, the party can feel that its interests are in safe hands, while every citizen of this county can feel satisfied that in Mr. Gulon's hands, the material and every other interest of Craven will be well protected, and advanced whenever possible.

In this county and section it is unnecessary to state who Mr. Gulon is, or enumerate his fine qualifications which make him almost an ideal representative.

Ever practical, conservative in action, painstaking in everything, well versed in the law, of clear and careful discernment, coming from an eminent family, Mr. Gulon cannot fail to do honor to his constituents, his admirers and friends, and serve his County and State in every degree most satisfactorily in the next Assembly.

The selection of Mr. Gulon without any local strife, does credit to the local patriotism of Messrs. Lane and Wolfenden, as well as their many friends.

It indicates a healthy Democracy which can name a candidate, and this without bickering and political strife, before and at the primaries.

It is a procedure which once begun could be made an established one, to serve the county's best interests, instead as too often hitherto, arousing its worst political traits, to the injury of its material and social advancement.

BRAIN-FOOD NONSENSE.

Another ridiculous food has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulate the liver to health action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at F. S. Duffy. Get Green's Special Almanac.

Butterfly Day. The ancient custom of "butterfly day" is annually celebrated at Thaxted, England. This strange festival derives its title from the fact that the inhabitants of the place annually on that day don new clothing and vie with each other as to the gaudiness of their garments. Eating, speecmaking and so on enter largely into the proceedings.

Just Look At Her. Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. She looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result—all organs active, digestion good, no headaches, no chance for "blues." Try them yourself. Only 25c at C. D. Bradham's.

Setting Macaroni. An authority says that in boiling macaroni it is fatal to permit it to boil for a moment until done. Have plenty of salted water in the saucepan at the boiling point when the sticks are added, and when they are tender, throw in a glass of cold water to stop the cooking suddenly, and drain at once.

CASTORIA. In the East you can find this name on the wrapper of a box of Castoria.

The Dragon Fly's Eye. If you had as many lenses in each eye as the common dragon fly has, each of your organs of sight would be as big as a box car.

A Clock of Bread. Milan has a curiosity in a clock which is made entirely of bread. The maker is a native of India and devoted three years of his life to the construction of this curiosity. The clock is a good one and goes well.

All Were Saved. "For years I suffered such untold misery from Bronchitis," writes J. H. Johnson, of Brighton, Ga., "that often I was unable to work. Then, when every thing else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma, till it cured her, and all our perseverance goes to show it is the best Croup medicine in the world." A trial will convince you it's unrivaled for Asthma and Lung Disease. Guaranteed bottles 50c and \$1.00. Trial bottles free at C. D. Bradham's.

His Recantation. "I don't understand," said the grocery clerk, "why Mr. Public writes XXXX after his name. What do they mean?" "Mean a lot," replied Uncle Jim from the cracker barrel. "He's ex-justice and ex-politician!"—Cincinnati Commercial Tribune.

They All Do It Here. "There's a species of fish in Africa," said the returned explorer, "that frequently travels long distances over land." "Well," said the innkeeper, "we ship about all the species of fish in this country in the same way."—Baltimore American.

One Solution. "What is a politician?" asked the boy. "A politician," replied his father indignantly, "is a man who can make his promises without seeming to break his word."—Philadelphia Post.

TOWN TOPICS.

There is a very strong suspicion that New York still has some hostile abolitionists doing business at the old stand—Philadelphia Press.

They have a strenuous way of doing things in San Jose, Cal. When a mayor would quit, mayors after his successor has been elected and sworn in, hunky politicians simply seize him and throw him into the street. A Kind Word. Many a friendship, long, loyal and self-sacrificing, started at first on no thicker foundation than a kind word. Two men were not likely to be friends. Perhaps each of them regarded the other with something of distrust. They had possibly been set against each other by the circulation of gossip or they had been looked upon as rivals, and the success of one was regarded as incompatible with the success of the other, but a kind word, perhaps a mere report of a kind word, has been enough to be the commencement of an enduring friendship.

Guatemala Indians. In Guatemala the Indian population tries to double its chances for the efficacy of prayer by worshipping at a Christian altar with images of its heathen deities hidden behind it.

Anthracite Coal. It is estimated that, allowing a yearly output of 60,000,000 tons, the stock of anthracite in Pennsylvania will last eighty years.

Scatters all Records. Twice in hospital, F. A. Gullidge, Verona, Ala., paid a vast sum to doctors to cure a severe case of piles, causing 24 tumors. When all failed, Bucklen's Arnica Salve soon cured him. Subdues inflammation, conquers Aches, kills Pains. Best salve in the world. 25c at C. D. Bradham's drug store.

Flour Should Be Kept Dry. Do you know that four should be kept in a cool, dry place? If possible, there should be some kind of a close receptacle for it, and too large a quantity sometimes spoils by being kept too long. It should also be remembered that mites which often get into flour are more destructive than mice.

To My Friends. It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so, and words cannot tell the good it has done for me. A neighbor told the doctor that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it. Give W. Fry, Vienna, Va., health and strength of mind and body, depend on the stomach, and personal activity of the digestive organs. Kodol, the great recuperative tonic, cures all stomach and bowel troubles, indigestion, dyspepsia, constipation, and any ailment connected with the stomach.

"LUCKY"

Is often the name given by careless and thoughtless people to those who are careful and thoughtful. "What a lucky woman," is said of one whose health and beauty proclaim her free from womanly diseases. The luck often consists in her having thoughtfully considered the merits of Dr. Pierce's Favorite Prescription and proved its ability to cure the disease peculiar to her sex.

"Favorite Prescription" is a reliable medicine for the cure of womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I had poor health for nine years," writes Mrs. Armistead Watkins of Acme, Kanawha Co., W. Va. "My female weakness was very irregular and would suffer untold misery. Our family doctor did not do me any good and I concluded to write to you. When I wrote I had no idea I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr. Pierce's medicine as directed and began to improve in strength. I was soon able to do the work for my family of six. I took eight bottles three of 'Favorite Prescription' and two of 'Golden Medical Discovery' and two of 'Pierce's'.

"How do you know?" "I heard papa say the names of all the seas an' lakes an' islands an' things is from the dead languages."

His Sight Threatened. "While picnicking last month my 11-year-old boy was poisoned by some weed or plant," says W. H. Dibble, of Stour City, Ia. "He rubbed the poison off his hands into his eyes and for a while we were afraid he would lose sight. Finally a neighbor recommended DeWitt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin diseases, cuts, burn, scalds, wounds, insect bites, DeWitt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of Counterfeits. F. S. Duffy.

It Needs a Tonic. There are times when your liver needs a tonic. Don't give purgatives that grip and weaken. DeWitt's Little Early Risers expel all poison from the system and set as tonic to the liver. W. Scott, 631 Highland ave., Milton, Ia. says: "I have carried DeWitt's Little Early Risers with me for several years and would not be without them." Small and easy to take purely vegetable. They never gripe or distress. F. S. Duffy.

Look Pleasant, Please. Photographer C. C. Harlan, of Eaton, O., can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. MAITLAND, Fla., October 10th, 1901. The Hancock Liquid Sulphur Co., Baltimore, Md.

Gentlemen:—I have had Eczema over thirty years, have tried many remedies prescribed by various physicians, but to nothing has the disease yielded so readily as to LIQUID SULPHUR. I think if used properly it is undoubtedly a specific for Eczema. I have prescribed it for others with most satisfactory results. I consider it the best remedy for cutaneous affections I have ever known, and regard it as the greatest medical discovery of the age.

Respectfully yours, W. A. HEARD, M. D. For sale at F. S. Duffy's.

CRAVEN'S REPRESENTATIVE.

Withdrawal of Wm. B. Lane in Favor of Owen H. Gulon. Their Public Cards.

Having been reliably informed that Mr. Owen H. Gulon has publicly declared that under no circumstances would he offer himself for the Legislature as the candidate of any particular interest, but that he would accept the nomination if it was tendered him by the whole party and run as the unbiased candidate of the Democratic party of Craven county, and that he would act in harmony with the county executive committee, I have, after mature consideration and consultation with those of my many friends who have been most active in urging me to offer myself for the suffrages of the good people of Craven county and their representative in the next General Assembly, concluded that a cessation of factional differences with their attendant heart burnings, mis-trusts and unkindly feelings, succeeded by harmonious and friendly action in all matters political would be of vastly more importance to every material interest of Craven county, and her people than the wishes and ambitions of any one man, and believing therefore, that the declaration of Mr. Gulon, as stated above are those of an honorable man, and that they will not only be faithfully observed but that they offer what seems to be an opportunity to heal the differences which for years have worked great detriment to the interests of our people, I hereby withdraw as a candidate in favor of Mr. Gulon, and tender him not only my own, but bespeak for him the loyal support of my good friends whose assurance of my successful candidacy I had not the slightest reason to doubt.

To my friends and especially to those whose advice I have not had the opportunity to obtain in arriving at the conclusion stated above, I return my sincere thanks and beg to assure them of my lasting appreciation of their kindness and consideration in proposing to honor me with their suffrages for a seat in the next General Assembly.

WM. B. LANE. August 13, 1902.

To the Democratic voters of Craven County.

Messrs. J. J. Wolfenden and William B. Lane having withdrawn as candidates for members of the House of Representatives from Craven county, and having been requested by many Democrats to become a candidate for the position I desire to announce that should I become the choice of the Democratic Party at the primaries soon to be held, I will accept the position as the candidate of the party, and when elected shall endeavor to represent my county faithfully, impartially and for the best interest of the entire people.

I have read the card of withdrawal of Mr. Lane and highly appreciate his patriotism, and cordially endorse his sentiments and also am grateful for his kind words in reference to myself. I hope my course in the House of Representatives will justify the same.

Owen H. Gulon.

Rheumatism

The liniment bottles and hand strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acid, irritating matter that settles in the joints, muscles and nerves, and liniments and acids or nothing else applied externally can dilodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier, and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.
