Tuesday was the rainiest day we have had this year. It rained hard nearly the entire day.

Trade at this place is quite on the "boom." All the stores seem to be doing good business. "King cotton" is the cause of it all.

Building and general improvement is still the order of the day with us. Visitors are impressed with the newness of everything in our town, and are often heard to remark that, "Maysville must have been all built at once."

Our first M. E. Quarterly meeting was held here Sunday, and was the event of the dedication of the new church. The weather was very warm, but notwithstanding, there was a large crowd of visitors here from near and far. Rev. R. B. John preached us two able sermons Sunday a. m. and at night.

Many complaints of scarcity of farm labor are coming in.

It is expected that the September crop report will show a still further falling off in condition of the cotton and corn.

The fact that there are over 600 students already at the State University arouses much enthusiasm among the alumni. The attendance at all the colleges is remarkably large. The interest in education is extending all along the line, from the common schools upward. State superintendent Joyner expresses the greatest satisfaction at all this.

The Baptists here are greatly pleased at the acceptance by Rev. D. W. C. Tyree of the pastorate of the First church, made vacant by the death of Rev. A. A. Marshall.

Already there are several applications for the position of engineer to the State board of education made vacant by the death of Joseph H. McKee. No appointment will be made for some days.

It is now said by persons in a position to know that the deal by which the electric power plant at Millburne, six miles from here, on the Neuse river, and the Raleigh street railway and electric light plant, will be consummated. A great deal depends on this great deal. The New York people who came to see the property say they are pleased at the outlook for an investment.

The rainfall night before last here was 1.13 inches. It has enabled fall plowing to begin.

Peace institute here has begun its fall term. Addresses to the students were made by president G. T. Winston of the A. & M. College, ex-Judge T. B. Womack and Rev. G. F. Smith.

ARAPAHOE.

September 10.—The farmers of Arapahoe have begun to pick cotton, some on up land have picked over one and realized a good price.

Mr. W. R. Reel has been giving from \$1.75 to \$3.00 per 100. for good dry up land cotton, he gives 5c per pound. He started up his gin last Monday. The outlook for our farmers is very promising the corn crop is much above an average.

Last week was a trying time with our young people. Prof. R. C. Holton closed his school last Thursday at Arapahoe and Miss Lona Holton who has been teaching music school at Arapahoe also closed Thursday. There were many sad faces when the two teachers left our community and the children realized the fact that they must exchange from the school to the cotton patch for a while.

We had a marriage at Arapahoe last Wednesday evening. Mr. Benjamin Johnson and Miss Eva Paul were united in holy bonds of matrimony. Mr. Joseph Reel was the officiating officer. They are a prominent couple and we hope they much joy over the voyage of life. They will settle near Arapahoe.
