## RALEIGH

**State Guard Equipped For All Seasons.**

**Kinston's New Infantry Company.**  
Special Term Court. Cool Wave. Candidate For Speakership. Child run in School Districts.

**RALEIGH, November 8.**—A new company of infantry will soon be mustered into the State Guard at Kinston. It has been organized and will be in the second regiment.

The entire State Guard is now equipped both for summer and winter service in the field. There is the service uniform of blue wool, with blankets, overcoats, etc., and there are khaki uniforms for all the forces in the arsenal here, ready for issue April 1. The strength is now about 5,000.

Governor Aycock orders a special term of the Superior Court of Franklin County, December 9th, Judge Allen to preside.

The Treasurer Lucy was not examined as a witness in the South Dakota bond suit case, but probably will be December 8, when the taking of evidence will be resumed here. It is now known that Mr. Gov. Russell had a pretty plain intimation during his term as Governor that there would be a suit involving these bonds. When the papers came this State will show some valuable evidence, very carefully and quietly collected.

The cool wave materialized this morning and the high wind during the night partially stripped many trees of leaves. The great oaks yet largely retain their greenness.

Governor Aycock and private Secretary Fearrell will join in the great annual rabbit hunt near Oxford. Last year over 800 rabbits were shot or caught and there were 60 dogs in the pack.

State Superintendent Joyner says all the counties will be represented at the State Conference of county superintendents here next week. From some counties the superintendents will not come, but in such cases the chairman of the board of education will represent them.

The State Superintendent of public instruction is securing information as to the public school districts which contain fewer than 65 children of school age. He finds that out of 68 districts in Bertie county 58 have less than 65, and out of 60 in Bladen 49 have under 65. In some cases there are as few as 8, 11 and 13 children in a district.

Edward S. Abell, member-elect of the lower house, from Johnston county, is here. He is a candidate for the speaker ship.

It was said today that the condition of one of the two children of the Governor who are sick is worse.

**RALEIGH, November 8.**—In the foot ball game here this afternoon, between the University of North Carolina and the A. and M. College neither side scored.

Innes Closes His Season.

Special to Journal.

**RALEIGH, November 8.**—Bandmaster Innes closed his season here, consulting all other engagements, and has gone to New York to be operated on for appendicitis.

His band gave a special concert in the railway station in his honor and at his request played "Dixie" as a compliment to Southern people.

**POWERFUL FOOD.**  
That Can Lift You Out of Bed.

The proper food to build up the system after an attack of illness, or any other ailment, is important to know about.

"Last year, I had a very bad cold," says a lady in Raleigh, N. C., "and it left me so weak I could scarcely turn in bed. I was nervous, the least noise annoyed me, and I could hardly eat anything."

A friend recommended Grape-Nuts food, thinking me to be in need of it, and I did it. I commenced gaining strength, and am now able to walk around out of doors, having gained over twenty pounds, and Grape-Nuts did it.

"My little brother used to be thin and pale. Although he seemed to eat enough food, what he did eat did him no good. He was put on Grape-Nuts regularly and is now strong and well and gaining fat in his back. I recommend Grape-Nuts to all who are weak and thin."

Market Letter on Cotton.

By private wire, J. E. Latham & Co.

NEW YORK, Nov. 8.—While a new low record was made with the 8.01 for March yesterday, everything looked better this a. m. and the market had a substantial recovery. There is every reason to look for a further advance on Monday and on such an advance one can sell the cotton, bought on breaks with a fair profit and prospect of getting it back cheaper. The tone is likely to be feverish for some days after the break, but an advance is in order. Besides it is not certain that prices should advance just yet. The movement next week will be more than last year, and it will operate against an advance. Weather now plays a less important part in the market as frosts cannot come till November 9th or 10th. Considering the early crop this means a longer growing season than we have had in years. Many thousands, many hundred bales have been added to the crop and this makes us look for eleven million bales as the more probable figures this year. We have looked for more bales than last year all along and this fine weather makes a large crop. Until the rush of cotton is on 8 cents would seem to be a fair figure and the market may run between 8 and 8 1/2 cents for some time. I will know something more of the size of the crop. For this reason selling on a reaction of 15 or 20 points would seem to be a good thing, but on a break to about yesterday's figure we would risk buying again.—A feature today was buying of May that put that above March. This could hardly be termed anything but a trick. The brokers supposed to operate for the bull pool came in and bought May to try and force shorts to cover, all the time January was being disposed of quietly. They could not buy any more March very well as all the short interest there is necessary to provide a place for the January. All this is hardly a good sign and we are not prepared to more than advise buying on every decline, to take profits on an advance. Everything will depend on receipts and the Liverpool demand. The break in the stock market doesn't encourage speculation in cotton.
