RALEIGH

Conference of State Schools Superintendents Today.

Applicants For Licensed Pharmacists. Incendiary Case. State Charter. More Room Needed at A. & M. College. Increase of Moonshining.

RALEIGH, November 11.—The State Board of Pharmacy, Messrs. Zoeller, Hancock and Simpson, met here today and examined 22 applicants for license.

County Superintendents arrived today in large numbers to attend their State Conference which will be held tomorrow in the hall of the house of commons. Among the first to arrive was Supt. S F. Venable of Asheville, whose establishment of rural graded schools in Buncombe has proved so great a success.

Insurance commissioner J. R. Young is at Windsor to press the case against Conley and two other men who are charged with burning Conley's store.

A charter was today granted to the Cherokee Tanning Co., of Andrews, Cherokee county, capital $100,000 to make dyes and tanning extracts out of wood, bark and leaves, also essential oils, wood alcohol, etc.

President Winston of the Agricultural and Mechanical College has a great many letters from persons who wish to enter that college, for whom there is no room. He says a great and immediate need is for ten large dormitories, each as large as Watauga hall, which accommodates 120.

Prof. Burkett of the Agricultural and Mechanical College is preparing a text book on elementary agriculture.

Revenue officers say there will be a considerable increase of moonshining from now until March, owing to the lower price of corn and the increased demand for whiskey.

The negro State Baptist Convention meets in annual session tomorrow at Smithfield, Rev. Dr. G. S. Brown and Rev. George Whitted presiding. Education and African missions will be chiefly considered.

Mr. N. B. Broughton of Raleigh, who is the Superintendent of the Baptist Tabernacle Sunday School, which is the largest in the State, will by special invitation address this convention tomorrow.

The next legislature may make the pure food law more forceful than it now is. The report of the great number of adultrations will naturally attract attention.

Young Woman Attempts Suicide.

Wilmington, N. C. Nov. 10.—Miss Lena Haar, a well known young woman and member of a prominent German family of this city, made an unsuccessful attempt at suicide early this morning. She obtained a razor and made two deep slashes with it across her breast over her heart. She was discovered by her mother lying in a pool of blood on the floor. She was very weak from the loss of blood. A physician was hastily summoned and sewed up the wounds, which are very serious, but not fatal. Miss Haar explains her act by saying she was despondent and did not care to live any longer, but further than that she would say no more. She is twenty-five years old and was happy to all appearances. Her brother Mr. G. Henry Haar, a prominent young business man of this city, is now in New York on his wedding tour.

SCHOOL TEACHERS LEARN
Just Like Other People.

Bad food and overwork wreck many a life, but the right food makes sure and complete happiness, for one must be happy if perfectly well.

"Grape-Nuts saved my life, and changed me from a nervous, sick, despondent woman to a healthy, strong and cheerful one," writes Mrs. Alice Riegel of Pontiac, Ills. "I had not been well for several years and I thought, as did many friends, that 'my days were numbered.' My ill health was caused from drinking coffee, eating improper food and overwork in the school room; I had become very weak, tired and nervous and nothing I ate agreed with me. Medicine made me more nervous and impaired my digestive organs.

It was with difficulty that a neighbor induced me to try Grape-Nuts and I liked it from the first with thick cream and sugar. I lived on it exclusively with Postum Food Coffee until my digestion was so much improved I could eat other foods. My friends soon noticed the improvement in my looks, and I am now healthy, strong and happy. I attribute the change in my health solely to the change of diet.

Husband and I both like Grape-Nuts and Postum. I think they are the most healthful and strengthening of all foods and drinks and suitable for the weak as well as for the strong.

MOLINEUX NOT GUILTY

Jury's Verdict Given in Thirty Minutes.

Special to Journal.

NEW YORK, Nov. 11.—In the celebrated Molineux case, which was given to the jury this afternoon, a verdict of not guilty was brought in after the jury being out thirty minutes.

Molineux nearly fainted when verdict was announced, and his father wept. Thousands congratulated Molineux.

Supreme Court Opinions.

Special to Journal.

RALEIGH, November 11.—The opinions handed down were as follows by the Supreme Court today:

Palmer vs. Electric Co., from Forsyth, new trial.

Bell vs. Wycoff, from Rockingham, affirmed.

Dorsett vs. Mfg. Co., from Davidson, affirmed.

Mott vs. Railroad, from Iredell, reversed.

Williams vs. B. & L. Ass'n. from Durham, error.

Parker vs. Brown, from Granville, affirmed.

Sinclair vs. Huntly, from Anson, affirmed.

Hosiery Co., vs. Railroad, from Wake, new trial.

Lamb vs. Elizabeth City, from Pasquotank, error.

State Solicitor vs. Glass, from Randolph, per curiam, affirmed.

Market Letter on Cotton.

By private wire, J. E Latham & Co.

NEW YORK, Nov. 11.—Another day of liquidation on part of those who were in control of the market 60 and 80 points higher, and another day of low records only cause of congratulations was the break in January. This is encouraging another day or two of this sort of thing and we will have something like a rational market. Of course it is rather discouraging for those who buy, but we believe they shall be rewarded—As long as January comes out in great blocks there is very little in the way that can be expected, and the January people continue to accumulate cotton in face of of this—But there will be less cotton pressed for sale from the South. Exporters and spinners will buy more on a break of this kind, and the situation should prove more favorable to the market. It must not be forgotten; size of crop uncertain, and then there is nothing to warrant lower prices than last year at this time. In fact the statistical position is more favorable than has been regarded by bears after the market has been thoroughly liquidated This factor will begin to receive more attention. There is less cotton in Liverpool than for 2 years, we are still in the dark about January to come on the market, but believe in buying on breaks and sell on any advance for short profits,

I Know One Sure Remedy
for an obstinate cold. Its name is Pyny-Balsam.

At Davis'.

Fresh Diphtheria Antitoxin and Vaccine Virus at Davis' Prescription Pharmacy.

Pig Feet, Fresh Tripe and Boneless Hocks at the Oaks Market,

TELEGRAPHIC BREVITIES.

The yield of corn this year is declared to greater than for ten years.

The Molineux murder trial is being argued. The greatest interest is being taken in the case.

Because of his "pernicious activity" in politics J. H. Bingham, Collector of Internal Revenue for the district of Alabama has been ousted from office. The specific charge brought against him is his efforts to keep the negro out of Republican politics in his state

The construction of the new bridge across the East river at New York was hindered by a fire which cost $500,000. The highest part of the 336 feet above above the water was destroyed. Three workmen were injured by being precipitated to the water

Arrangements are being made for a joint debate between the students of Princeton University and University of North Carolina.

Henry E. Youtsey who is serving a life sentence in the Kentucky penitentiary for the murder of Gov. Goebel has confessed. Nothing has been made public concerning it.

The 33th annual session of the American Bankers' Association is being held in New Orleans.

MASON DISCHARGED

As Not Guilty of Murder of Clara Morton.

Special to Journal.

BOSTON, Nov. 11.—At the hearing of Alan Mason for the murder of Clara Morton, this morning the prisoner, Mason, was discharged as not being the murderer.

More Men Needed for the Navy.

WASHINGTON, Nov. 10.—The most crying need of the navy, according to the annual report of Admiral Taylor, chief of the bureau of navigation, is more officers to man our warships. He declares that the preparations now going on for the mobilization of the fleet in winter manoeuvres, have brought the Department face to face with the critical condition as to be dangerous to the officiency of the fleet. He submits a table showing that the present needs of the naval service requires 1,600 officers while the number on the navy list is only 1,023, or 577 short. He figures that the vessels now authorized by Congress but not completed will require 498 additional officers.

The Wonderful Toad Bone.

All early writers attribute wonderful qualities to toads and frogs and the various parts of their bodies. Pliny believed, for instance, that if a toad was brought into the midst of a mob or other large and unruly concourse of people "silence would instantly prevail." A small bone found in the right side of toads "of the proper age" was also believed to have powers over the various elements. "By throwing this bone into a vessel of boiling water," says Pliny, "it will immediately cool it, the water refusing to boil again until the bone has been removed. To find this bone, expose the dead toad on an ant hill. When the facts have eaten her all away except the bones, take each bone separately and drop it into boiling water. Thus may the wondrous toad bone be discovered."

Strange Craft.

A traveler says: "The strangest craft I have ever seen were the balsas of Lake Titicaca in Bolivia and Peru. These balsas are made of an aquatic plant growing in the waters of the lake. The principle on which they are constructed by the Aymaras Indians proves their ingenuity. A bale of hay naturally floats in the water, and according to the quantity of dried grass used in constructing the boat do they control the displacement or carrying capacity. These boats are likewise fitted with a mast and sail, and in some instances carry from eight to ten persons. The Indians travel long distances over this vast inland lake, the surface of which is on a level with the summit of the Jungfrau of the Swiss Alps."

Shakespeare's Blunders.

The anachronisms and errors of Shakespeare are too well known to require repetition. He speaks of cannon in the reign of King John a century and a half before their invention; he refers to printing in the reign of Henry II., of clocks in the time of Cæsar; makes Hector quote Aristotle and Coriolanus refer to Cato. He introduces a billiard table into the house to Cleopatra, makes Delphos an island and gives a seacoast to Bohemia.

Cutting the Counselor Short.

"Do you give me credit for wisdom?" asked the judge.

"Certainly," replied the lawyer who had just started on a long winded and wearying argument.

"Well, just remember," said the judge, "that a word to the wise is sufficient."—Chicago Post.

Sure to Follow.

"Hello, central!" called the man at the phone. "Give me the gas office."

"Yes, sir," replied the operator, "but I must warn you in advance that we cannot tolerate any bad language over the wire."—Spare Moments.

She Hadn't Time.

Olivia—Didn't you ever have a proposal, Viola?

Viola (gloomily)—Yes; a man once asked me to marry him, but I forgot myself and told him I hadn't time.—Detroit Free Press.
