## THE STATE'S SHORTAGE

\$325,000 For Two Years. Legislature at Fault.

Appropriations Made Without Considering Income. Lively Chase of Illicit Distillers. State Charter. Election County Superin tendents, Coal Scarce.

HALRIGH. November 20.-A charter was granted today to the Radical Remedy Company of Hickory, capital \$100,-000. The Charlotte Trouser Company was authorized to increase its capital Mathan Sargeant, and several junior stock from \$65,000 to \$100,000

There is only a few tons of coal in the way of supply for the Capitol and Suprame Court buildings. There is none where the Admiral will assume comfor the Agricultural building, so in the mand of the entire fleet, with four rearlatter the steam heat is not on.

Revenue officers had a lively experian illicit distillery, and found the moonfire of logs, playing cards. The twelve, and the ship will then be in readiness : dashed off into the darkness. The two take part in the coming maneuvers. officers pursued. One man ran into a deep hole in a creek and one deputy ran right on top of him. Bo h were over their heads in water. The deputy held to his man and brought him out. On the bank he found a negro hiding, one of value of the property, originated, it is the party, and collared him also. The other deputy had also captured a man. The still was destroyed but the moonablners were released.

The excess of appropriations for the two years ending November 80th on the State's imcome for that period is \$325,-000, Sate Treasurer Lacy says. His chief clerk, Mr Moody thinks the amount may be as low as \$315,000 The main cause of this is of course the great increase in appropriations. The legislature of 1961 made a great mistake as to the amount the taxes it levied would yle d. It really did not know what would be the income. That was the real trouble. The greatest fulling off in taxes is in the merchants purchase tax, the fal'ing off being \$13,0 to Of course there are no e taxes collected than there were two years ago, in the aggregate. The railway privilege tax, which is new, yields \$14 000, and the inheritance tax, a'so new, about \$4500. The bank tax falls off \$8000. This is because the former law imposed a \$25 tax on banks with \$10,000 or less capital, while the new law taxes such \$1 on the \$1000 of capital. The excess tax on corporations is a failure. It costs more to collect it than it amounts to. That tax ought to be abolished. It falls upon only domestic corporations and is really a hard-

DEWBY ORDERED TO SEA.

Gets His Official Notice To Take Charge Of Maneuvers.

Washington, Nov. 19 .- After a shore ervice of over three years Admiral George Dewey has been again assigned to sea duty in an official order today issued by the Secretary of the Navy. The Admiral is not only the oldest naval officer on active duty on shore or affeat, but is to command the most powerful fleet of warships assembled in peace time during the history of the navy. As announced last week the Admiral will have the President's yacht Mayflower for his flagship and a staff composed of high ranking officers, of which Rear-Admiral Henry C. Taylor will be chief. The other members of this staff are to be Captains William Swift and John E. Pillsbury. Commander

The Mayflower salls on December 1 and proceeds direct to Culebra Islands mand of the entire fleet, with four rearadmirals acting as his assistants in charge of squadrons. The flagship now ment last night. They went from here lies at the Washington Navy Yard, to a place near Pocomoke, Franklin where workmen are engaged in placing county. There they made a dash upon two modern 4-inch rapid-fire guns upon her and an addition to her armament of shiners and their friends, a dozen in all, small guns. The installation of these not at the still, but seated around a big guns will be completed in a few days

> Origin of "Watered Stock." The expression "watered stock, which describes so well the expansion of the stock of a company beyond the said, in connection with Daniel Drew, who was once the wealthlest and most unique manipulator in Wall street Drew had been a drover in his younge days, and it was said of him that before selling his cattle in the market he would first give them large quantitie of salt to make them thirsty and then provide them with all the water they could drink. In this way their weigh was greatly increased, and the pur chaser was buying "watered stock."-Leslie's Weekly.

Market Letter on Cotton.

By private wire, J. Hallatham & Co.

New York, November 10 .- Ma ch and May sold at \$ 20, with January \$.29. This represented an advance of about 40 points in January, or 2 dollars a bale. It is about what has been expected, and what as we said, yesterday, we looked for 84 cents for March before the bureau report. The advance has come even quicker than we had expected. From s basis of 82 for March and May everything will depend on receipts and the action of Southern spot markets. Unless there is a decided improvement in the South, it will be difficult to get the mar ket much over 84c. Too much cott in is have done all in their power to assist rices to a higher level. Germans Bat Horse Meat. Berlin, Nov. 19 .- Quotations here for fat 600 pound horses for alaughtering have fallen from \$87.50 and \$40 to \$95, and for fair to middling and lean from \$25 to \$18.75, in consequence of the exposure of the fact that large quantities of horse meat are sold as beef or used for making sausages.

Horse flesh has long been a regular article of food, but municipal ordinances in most German cities require that it shall be sold as such. The extraordinary high prices of meat, however, have caused extensive evasions of the law and a great increase in the sale of horse steaks and soup bones as beef.

While the German frontiers are close to the importation of live cattle the prohibition does not apply to old, brokendown horses, which are brought by ship loads from England and are fattened for butchering.
