PRESIDENT'S MESSAGE

Regulation of Trusts so Not to Disturb

Trade Conditions and Prosperity of Country. Publicity Cannot Harm Honest Corporations. Tariff Changes Through Reciprocity. Nothing Radical to Disturb Wages.

Special to Journal.

WASHINGTON, December 2.—President Roosevelt said in part in his annual message to Congress today.—The unbounded prosperity of this country is without parallel in any other country. No nation has ever occupied a higher plane of material well being than ours at the present time. While conditions have favored the growth of much that is good, they have also favored a growth that has developed much evil. Let us not in fixing our gaze on a lesser evil forget the greater good.

The industrial development must not be checked, but side by side with this progress goes the evil which must at least be regulated. We are not hostile, we are merely determined that these evils shall be handled so as to subserve the public good. Publicity can do no harm to honest corporations and we need not be over tender about sparing the dishonest corporations.

In regulating combinations of capital which may be injurious to the public, we must not interfere with the enterprises which have reduced the cost of everything.

In regard to the tariff one proposition advocated has been a reduction, or a means of dealing with the trust evil.

Many of the large corporations which should be included in any proper scheme of regulation of trusts would not be affected by this change, save as such change has interfered with the general prosperity of the community. Any change that may be anticipated must never be so radical as will jeopardize wages and the wage workers.

There is one way in which the real-justness sought, may be realized and that is by the reciprocity treaty. Whenever tariff conditions in countries included in that treaty are such that reciprocity may exist without injury to either, the reduction of the tariff in interchange of goods will be beneficial to all interests.

Mr E R Phillips of Arapahoe has moved to Mr Isaac Holtons at that place.

NEED TEETH.

Serious Failure of Body Comes from Lack of a Good Grinding Mill.

"A few years ago Mother had her teeth all taken out, hoping in that way to relieve her suffering, but failed, and it left her gums so sensitive that the wearing of false teeth or the proper mastication of food were equally impossible, so that in the Spring of 1901 she failed rapidly, mind and body both giving way and for many weeks life and reason were despaired of.

At one call of her physician he said she absolutely must take more nutriment, something easily digested, "try Grape-Nuts." I immediately obtained a package, prepared some with good, rich cream, and fed her from from a teaspoon. She began to take it regularly and tired the food so well she would ask when times if we had any ready for her. She began to improve at once.

EASY FOR DEMOCRATS.

No Text Books on Hand, State Charter. Talk Over Postmaster's Removal. Methodist Orphanage Fund.

RALEIGH, December 2.—It is said by observant Democrats that as the arrests of election officers by Republicans two years ago greatly aided the Democrats, just so will the cases against election officers which district attorney Holton is pressing in the Western district be an aid and make very plain sailing in 1904.

The State Superintendent of Public Instruction was today telegraphed by the Superintendent of Alexander county that the common schools had opened but that there were no text books on hand. The matter was at once laid upon Governor Aycock. The companies which have the contract for furnishing text books are required to keep them on hand.

The finance committee of the State board of agriculture met today. Tomorrow the board meets in semi-annual session.

Governor Aycock appoints J C Seagle of Lenoir, Caldwell county, a director of the State school for deaf-mutes at Morganton, to succeed V V Richardson of Columbus county, who died recently.

The Supreme Court today heard arguments from the 15th district. Among the attorneys present are James H Merriam, J M Gudger, Jr., (Congressman-elect), George C Shaford, Frank Carter and Thomas A Jones.

A charter is granted by the State to the Southern Development Company of Salisbury, with \$100,000 capital. It will buy and develop real estate.

The trustees of the State University will meet here Thursday. It is the annual meeting, at which the report to the Governor will be made.

There was a great deal of talk here today about the removal of assistant postmaster Philip H. Andrews of the Raleigh post office because he voted the Democratic ticket. The surprise was mainly that the Republicans should openly say that was the real reason.

The Red Men here will have a bazaar on a large scale.

There is going to be in the next few days a lively fight for the postmastership at Washington, N. C. There are three or four aspirants, one of whom thinks he has a big political pull.

There has thus far been raised for the Methodist Orphanage here \$3,000. Rev. J. B. Hurley, the agent, will make the report to the Methodist Conference at Wilmington. A great work is being done. In the spring the spacious main building will be ready for occupancy.
