SENATOR ONLY TALK

Great Speeches Nominating Candidates. Complaint of Railroad Discrimination. Cadets at Fire.

Raleigh, Jan. 10.—Of course a very large proportion of the general public has said and believed from the beginning of the Senators contest that Overman would be the winner. This number is now increased, after his large vote and gains last night. Most people when asked today who would win said "Overman." One old editor said "Overman or Carr," but almost certainly Overman.

A number of workers for the various candidates went home today, to remain until Monday, but a lot of fresh ones arrived.

Some one said not long ago he feared good oratory was ending in North Carolina, but those who heard the really admirable speeches at the Democratic caucus last night are sure that there are plenty of good orators. The speech of W. A. Self, of Hickory, for Craig was perhaps the finest of all, but there were not one poor.

Col. Carl A. Woodruff of the Artillery corps, U. S. army, is here to attend the wedding on the 10th instant, of his sister-in-law, Miss Marion Haywood, to Maj. Mason, U. S. A. Col. Woodruff is in command of Fort Slocumb, N. Y. He is a very prominent Mason and Knight Templar and has a great many warm friends in North Carolina.

The corporation commission sends in to the Inter-State Commerce commission the complaint of Jennings of Greensboro against the Southern railway, of discrimination in favor of Lynchburg and against Greensboro in shipments of bananas from Charleston.

The cadet battalion of the Agricultural and Mechanical College did fine work last evening at the fire which burned the infirmary at St. Mary's female college. A match thrown from the infirmary into the sun dry leaves outside started the fire. The college is outside the city limits, but the fire department went to the scene and had to lay 1800 feet of hose, up hill, so that the pressure was light at the nozzle though the pumping station had on direct pressure, 82 pounds.

Joseph B. Batchelor, Esq., Raleigh's oldest lawyer and ex-attorney general, is critically ill at his home here.

E. P. Carr, of Durham, a graduate of the University of North Carolina, is appointed to a position in the United States Soil survey.

The Democratic caucus agreed at one o'clock Saturday morning to take recess until Monday night. Three ballots were taken, Overman led every ballot. First ballot, Alexander 8, Carr 17, Craig 29, Hoke 9, Overman 43, Watson 37. Second ballot, Overman 45, Watson 38, Craig 32, Carr 14, Alexander 8, Hoke 7. Third ballot, Overman 50, Watson 38, Craig 28, Carr 15, Alexander 8, Hoke 5.

Valued Southern Trade Journal. The Tradesman, Chattanooga, Tenn., issues this month its 24th Annual Special Edition, a work of more than ordinary value and interest, in its splendid review of Southern trade conditions and the South's great progress during 1902.

The Tradesman's reviews of Textiles, Cotton, Iron, Steel, Sugar, and Manufacturing interests in the South, is of special interest and value as showing the progress and development taking place in the South.

Most Important Aid to Education. An important point often overlooked by parents in bringing up children is the use of proper food as an aid to education.

Children make wonderful progress when sufficiently fed. A little woman in East Brentwood, N. H., says of her girlhood days, "I was never very rugged and cold liches and hearty evening meals and improper food soon began to work serious havoc. Then came a period of self-boarding while away at college and it is now easy to see where, in the haste to acquire knowledge the true knowledge of proper and nourishing food was neglected. The result, as may be imagined, was indigestion, dyspepsia and constipation. Then followed a weary time of dieting and, one after another, physicians were consulted, till hope of permanent cure was abandoned. Then, two years after leaving school, I entered a new home as a bride and having grown wiser through experience, I resolved to use food in accordance with hygienic principles. This was also necessary as I could not eat anything at all rich.

We commenced to use Grape-Nuts and soon became convinced that it was the most nutritious food we could obtain. I noticed an immediate improvement in my health, my indigestion became less marked and eventually left me for good.

It is now two years that we have eaten Grape-Nuts regularly, and I was never as well in my life as now. I have gained weight, my digestion is perfect, without causing the slightest distress, the richest kind of food as well as anyone, the dyspepsia is entirely gone and constipation never troubles me.

This may not interest others, but it is of great interest to us, for it is our firm belief that my present good health is due solely to the constant use of Grape-Nuts and we feel that we have good reason to be thankful to the maker of such a perfect and delicious food."
