Official Paper of New Bern and Craven County.

THE OUESTION OF TEMPERANCE PROGRESS.

The passage of the Watts bill by the Legislature, the same to go into effect July 1st, 1908, is variously interpretated by the strong temperance people, those favoring temperance, but not radically, and the political temperance people.

The liquor dealers, are as usual, very quite on the subject.

Under the new law no whiskey can be manufactured or sold in North Carolina except in incorporated towns, In towns and cities where whiskey is made and sold, elections can be called by a petition signed by one-third the qualified voters, the issue to be prohibition or dispensaries, such elections to be held not oftener than every two years. In the event of a city or town voting for a dispensary, the new law provides for the conduct of such dispensary.

It is hardly surprising that strong advocates of temperance see little actual progress in the Watts measure.

The less radical temperance people believe that some good is accomplished, while the political temperance people say it is a step forward for the cause of temperance.

If there is any real advancement in the matter of temperance, as provided for under the Watts measure, it must be accomplished by the voters favoring temperance, going to the poll in their own towns and effecting it by their

Whatever the evil there is in liquor selling is a matter to be judged, and acted upon accordingly, by each community. If a local abuse, then it may be checked and controlled by the local sentiment and power of those citizens, favoring the right, and no community exists where the sentiment for right does not prevail over that for evil.

It is only that the right may be less positive and self-assertive, and lacking in these, the evil may temporarily pre-

Del.& Hudson... 178 As the Watts bill brings the liquor A. L..... business into incorporated towns, it is U. S.Leather ... 182 left with the voters in these towns to de cide for or against the saloon.

There is more Catarrh in this section of the country than all other disease put together, and until the last few years was supposed to be incurable. For a great many years dectors pronounced it a local disease and prescribed local reme dies, and by constantly falling to cure with local treatment, pronounced it in-curable. Science has proven catarrh to be a constitutional disease and therefore constitutional treatment. Hall's Catarrii Cure, manufactured by F. J. ensy & Co., Toledo, Ohio, is the only attitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system They offer one hundred dollars for any case it falls to cure, Bend for circulars

## A Weak Stomach

causes a weaklbody and invites disease Kodol Dyspepsia Cure cures and strengthens the stomach, and wards off and overcomes disease. J B Taylor, a prominent merchant of Chriesman, Tex., says: "I could not-eat because of a weak somach, I lost all strength and run down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures affected by the use of Kodol, I con fitted me, and after taking four bottles I am fully restored to my usual strength weight and health." F S Duffy.

A teacupful of lima beans, green o dried; a cup of tomatoes, three sliced carrots; pepper to taste. Boll an hour and a half, then add a pint of sweet milk, scalding hot. Berve at once, adding salt just before sending to the table.

F. S. Duffy.

## GEORGE ELIOT.

A Story of the Author and the Manu George Eliot was conspicuous as person who was kindly and sympathet ic in a high degree. She was "ever ready to be amused and interested in all that concerned her friends." She had also a keen sense of humor and sometimes made her friends laugh as well as laughed with them. She was solicitous about her manuscripts and wood had occasion to send her the man uscript of "Daniel Deronda." She would not have it intrusted to the mail and Mr. Blackwood said he would send it by his footman the next day.

"Oh, don't," the author said. "He might stop at a public house and forget

Mr. Blackwood explained that this footman was a perfectly sober man or high character and went on to praise the man's virtues, but this did not reassure her at all. "If he is the sort of chivalrous Bayard that you describe, she said, "he is just the kind that would stop and help at a fire!"

This was a contingency that Mr. Blackwood could not bear to consider He promised that some member of his family would bring the manuscript, and next day, in fact, Mr. Blackwood drove

How Lightning Kills. The cause of death by lightning i the sudden absorption of the electric current. When a thundercloud which is highly charged with positive electricity hangs over any certain place. the earth beneath it becomes abnormally charged with the negative electrie current, and a man, animal or other object standing or lying directly be eath also partakes of the last men tioned influence. If, while the man nimal or other object is in this condi tion, a discharge takes place from the cloud above, the restoration of the cloud above, the restoration of the equilibrium will be sudden and violent, or, in language that we can all under-stand, the negative current from the earth will rush up to join the positive gloud current, and in passing through the object which separates the two currents, if it be an animate thing, will do so with such force as to almo invariably produce instant death,

According to the above, which seems a tenable hypothesis, to say the least a person is really "struck" by the ground current and not by the forked fury from above at all.

Moritz Gottlieb Saphir, a journalis nd one of the wittlest men of the Jew ish race in Germany, once criticised King Ludwig's verses so sharply that he was ordered, says Household Words, to quit Munich within twenty-four

The court chamberlain waited upon the journalist with the king's com-mand and, having delivered it, consid-crataly saked:

"Do you think that you can get away

in that time?"

"Yes, I think so," Saphir said, "but if my own leps can't take me quick enough I'll berrow some of the superfinous feet in his majesty's last volume of teree."

The Japaners Stable,
We can learn from the Japanese a
thing or two about stabiling bosses. In
Japan horses are backed into their

Coul to Japan.

The value of the east min d in Japan is almost equal to that of all other influencis comit/reel. It varies from the hardest anthracite to peat, but the quality is usually before to that of American coal. Modern machinery and methods have been introduced in the operation of many mines.

The wonderful power of Lydis E. Finkham's Vegetable Compound over the diseases of woman-kind is not because it is a stimulant,—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the whole uterine system, positively CURING disease and restoring health and vigor.

Marvelons cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound and are fair enough to give credit where it is due.

One of Many : Women Cured by Lydia E. Pinkham's Vegetable Compound, Without Submitting to an Operation, Writes !-

"Dear Mrs. Pinkham:—I was a great sufferer for three years, had some of the leading physicians, and they all said nothing but an operation would cure me, but to that I would not submit.

"I picked up a paper and saw your advertisement and made up my mind to try your medicine. I had falling and inflammation of the womb and a flow of whites all the time, pains across small of back, severe headache, did not know what it was to be without a pain or an ache until I used your medicine. After three months use of it, I felt like a new woman. I still sound the praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. Wu, A. Cowan, 1804 Bainbridge St., Philadelphia, Pa.

A Graduate Nurse, Convinced by Cures, Endorses Lydia E. Pinkham's Vegetable Compound. She Writes:-

"Draw Mrs. Pinkham: — Ministering to the sick I have had numerous chances to compare Lydia E. Pinkham's Vegetable Compound with other medicines in cases of diseases of women, and the number of cures recorded where your medicine was used convinced me that it is the safest and surest medicine for a sick woman. Doctors certainly must know the value of Lydia E. Pinkham's Vegetable Compound. I am convinced that you deserve the splendid record you have made. — Yours very truly, Mrs. Cathanna Jacason, 769 Beaublen St., Detroit, Mich." (Graduate Nurse and President Detroit Emergency Association.)

Many Physicians Admit that no Medicine Known to the Profession Equals Lydia E. Pinkham's Compound for the Cure of Woman's Ills. and We are Permitted to Publish the Following:

"Dram Mrs. Pinkham:—It gives me great pleasure to state that I have found Lydin E. Pinkham's Vegetable Compound very efficacious, and have often prescribed it for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some two years ago, and my youngest daughter is using it for female weakness, and as a tonic, and is slowly but surely gaining strength and health.

"I freely advocate it as a most reliable specific in all disorders which women are subject to, and give it honest endorsement.—Yours very truly, Sakan C. Brignam, M.D., & Brigham Park, Fitchburg, Mass."

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Finkham's Vegetable Compound in severe cases of female fils, as they know by experience that it can be relied upon to effect a cure.

Women who are proubled with painful or irregular menstruction, backache, bloating (or flatulence), leuterritors, failting, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, distincts, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable. Compound, and then write to hirs. Finkham, Lynn, Mass., for further free advice. No living person has laid such a yest and successful experience in treating female life. She has guided thousands to
