Cuticura Seap, Cintment and Pills When All Rise Fails

COMPLETE TREATMENT, \$1.00.

The agonizing itching and burning of the skin, as in eccema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter and salt rheum, all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Scap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness the power to afford immediate relief, the certainty of speedy and permanen cure, the absolute safety and great economy, have made them the standard

skin cures and humour remedles of the civilized world. Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften surface of crusts and scales and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Cint-ment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, in the severer forms, take Cuticura Resolvent Pills, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disferring and humiliating skin, scale disfiguring and humiliating skin, scalp and blood humours, with loss of hair, when all else fails.

Market Letter on Cotton.

By Private Wire to J. E. Latham & Co.

New York, March, 12 .- At one time oday the bottom seemed to have dropped out of the market. In every way prices crumbled in a more sensational way than on the previous break. Taking the break from about 9,90 to 970 on this decline, and we believe less cotton was sold on the previous decline. In early public instructions where he did such dealing May ran from 9.79 to 9.86 and then the break started. Before traders betterment of rural public schools, will knew what was going on, May was 9.68 After a 10 point reaction, the afternoon brought out more pressure and low prices were reached. It will require a lot of buying to get cotton back to pre turn prices up, and people here may, buy on a further break to hold, but each day means nearer spring and the load will increase. We don't want to buy cotton to take the place. He will also be the and believe in selling August on a'l rallies at present. The south will plant the Southern education board during the for the biggest crop over seen, and this atters summer work, with which he is will be a fear argument. We would rather take chances on the short side on every advance toward 94c for the financial situation is not favorable for buyers at any such prices as we are having now Later in the season it may turn out that the crop is moderate and this will mean fous counties so that the money may be higher prices, but we can't but help think that cotton, especially August hould be sold on all bulges.
