A Millionaire's Advice to Young Men.

A well known millionaire, with a national reputation for conservatism, said in conversation the other day:—"If I were a young man anxious for independence, I would invest my savings in a small piece of good real estate. When I had it paid for I would put the deed a way and forget I had it. Then I would begin paying

On another."

Doubtless every man has felt at some time that he would like to be a land holder. That he would like to have a little piece of this earth—of this great country that he could call his own. This is a worthy sentiment, but to select his piece of land in the heart of a p-pulous community where the mere pressure of population is there to increase the value of his holding, perhaps many fold—this is sentiment combined with heartests.

ombined with business.

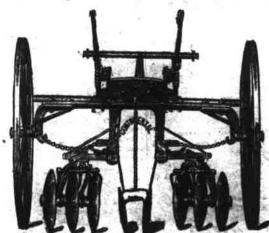

It unquestionably strengthens a man's character to own property—increases h it unquestionably strengthens a man's character to own property—increases his responsibility. If he can tie himself up, and is obliged to make regular payments he is sure to save. The trouble is he allows the chance to pass. He is going to begin next month. Rich men talk of the importance of a man's first Thousand Dollars. Why not his first Handred or his first Ten? The saving of your first \$10 may be your first step to independence. THE TIME TO DO IT IS NOW.

Report of Grand Jury April Term New Bern, Craven County, North Caro lina, April 10th, 1903.

To His Honor, G. S. Ferguson, Judge residing:-We, The Grand Jury for this term, respectfully beg to submit to the Court the following report of the services performed by us. We have endeavored to faithfully follow instructions. Our serve as jurors at the May term of Civil duties have been executed to the best of our knowledge and ability.

Out of 57 bill indictments we find 3 true bills, 11 not true bills, 8 continued Lancaster, W. C. Brewer, G. A. Whit- over for lack of witnesses. We made 1

presentments. We visited the county jall and inspec ted building and yard, found premises clean and in order. We find 2 window in south end of building entirely closed by solid fron shutters, we would advise In place of same use fron grating so as daily a new line of to allow free circulation of air in sum mer and sunlight in the winter. The old wooden floor in building should be replaced by a new one as the present one is in a bad condition. We also find that a crack in division wall between main jall and outer rooms is unsafe and should be repaired. We would suggest the addition of 4 new fron cages as they are needed for the safe keeping of prison

In the office of Register of Deeds we found every thing in order. We would ecommend that the register be allowed to have an old volume of Records, Book No. 6 transcribed, as it is very old and the paper is rotten and discolored. A new copy would be the means of preserving the records.

We found the Clerk's office in order and well kept.

We inspected the office of Sheriff an found everything in order. Neuse river bridge was examined and

it was found that 10 or 12 new planks are needed in floor of bridge, to replace those that are badly worn or rotten, on of which is so rotten as to be unsafe, the rest of bridge is in good condition.

We found on inspection of Trent river bridge that the south end of draw gate is not safe, as it cannot be locked. Found examine our stock. No value \$4 38, all for \$2 49. 29 rotten or badly worn planks in floor of bridge which we advise replacing with new ones. Railing in bad condi tion in some places, the platform leading

dangerous condition. The county Home was visited and upon examination was found to be in first-class condition, clean and well-kept the keeper doing all in her power for the comfort of the inmates, all of whom say find they are badly crowded, four and the diseased inmates have to occupy the same room with those in health. Au 8 room building should be provided at nce to meet the needs of the Home and to replace the 2 buildings recently destroyed by fire, we would also suggest that a force pump and hose be added for use in case of fire. We find Court House building an

grounds well kept and in first-class order. F. G. MITCHELL, Foreman Grand Jury.
