on another."

Doubtless every man has felt at some time that he would like to be a land holder. That he would like to have a little piece of this earth—of this great country that he could call his own. This is a worthy sentiment, but to select his piece of land in the heart of a populous community where the mere pressure of population is there to increase the value of his holding, perhaps many fold—this is sentiment combined with hustness.

combined with business.

It unquestionably strengthens a man's character to own property—increases his responsibility. If he can tie himself up, and is obliged to make regular payments he is sure to save. The trouble is he allows the chance to pass. He is going to begin next month. Rich men talk of the importance of a man's first Thousand Dollars. Why not his first Hundred or his first Ten? The sawing of your first \$10 may be your first step to independence. THE TIME TO DO IT IS NOW.

Market Letter on Cotton:

By Private Wire to J. E. Latham & Co. New York, April 90.—There was at

least a temporary change in the outlook today. The pool furnished little support and everyone furnished cotton. This caused a sharp break. July and and stop loss orders reached. Receipts at interior towns are about double last year and at Galveston and New Orleans, twice last year's, figures. This brought out cotton and caused increased opposi tion to the market. A great many look for a decline as weather gets better and sent increases. For this reason we would sell August on any bulge, but rould take profits on decline. We don't now that the May effair is ended and antil this is settled the market should only be sold on good advances.

ley's Birth.

RALEIGH, April 20.—Several importan ses were heard by the corporation ssion today. One was in regar demurrage changes on cars which allways hold an unreasonable length of time. The Pharr bill, made a law by the last legislature, gives the commission the right to decide as to the time limit for storage, demurrage and placing cars, by requiring the railways to furnish cars promptly or else pay demurrage charges Charlotte men appeared in this case these being S. S. McNindy, W. R. Wearn W. J. Martin and Heriot Clarkson.

Another case heard was as to the rate of freight on brick, a lower classification May weakest, while August and October ruled steady all things considered. This is to be expected. If prices are to depline it will be May and July most, August less, and October least of all. There was heavy selling with bears hammering and stop loss orders resched. Receipts these transfer charges on joint shipments. This matter applies to the whole

There was also hearing before co. poration commission today on matter of ocal switching and transfer charges The commission recently reduced the rate fixing it at \$2 for transfer, and \$1.50 for switching. The railways today asked that the old rates of \$4 and \$1 50 be restore 1.

Attorney General Gilmer says h opes the U.S. Supreme court will file its decision this term in the South Daota bond sull case, but hardly thinks if likely it will do so.

The State Superintendent of Public Instruction says that in Alleghany coun ty a number of the public school teach ers taught for a week or ten days without making any charge, in order to keep the schools open four months He warmly commends their public spirit.

The fertilizer sales this spring are aliost the same as those last Spring though there has been, strange to say, a falling off during the past fortnight. The Supreme Court will this week ear 12th district appeals

A charter was today granted the High Point Fire Department. This is uite a unique charter. The cold and rainy weather continues

West of here it is asserted much fruit is lost certificate No. 62, of Series No. 19,
