On Storage and Demurrage By Corporation Commission.

Petrified Phenomenon Co. Funeral of C. B, Root. Humane Soclety Organized. Selicitor Pearsall's Beath. Splendid College Showing.

RALEIGH, May 8 - The Corporation Commission today made its rules on storage and demurrage and they are prob ably the most important and far reaching ever promulgated by that body. The rule allows railroad companies to charge \$1. per day on all car loads not unloaded in 48 hours and one cent per 100 pounds a day on less than a car load. The rule also requires the railroad companies to place loaded cars in 48 hours after their arrival otherwise the shippers are to be paid \$1. a day in excess of that time. It provides further that when shippers make application for cars for the purpose of shipping the railroads shall furnish the same within four days, otherwise the penalty of \$1. per day for the time la excess of four days shall be charged against the railroad and paid to the ship per. The commission had adopted these rules after hearing both sides but the railroads are sure to file exceptions for these regulations were strongly opposed

by all the railroad officials of the State The Pristine Petrified Phenomeno Company of Askeville was incorporated today with \$5,000 capital and the object is to "place on exhibition the petrified body of a man discovered and found in the county of Henderson, Ballston Creek and such other fossils, curlosities and articles" the incorporators desire.
