MUNICIPAL HEALTH SEEKING.

The study of the time in making healthy towns and cities, demands not only the prevention against disease breeding germs, which means the constant removal of all filth...

The cure in such a case is the well ordered city hospital, an institution which every law of health, decency and economy demands shall be established...

The city hospital is too often held to be a luxury, when in fact it is as great a necessity in every municipality...

Municipal economy, when the health of its citizens is at stake, is to have the best improved methods to keep the city clean, and the fully equipped hospital where every threatening case of disease can receive prompt and thorough attention.

The local application of this hospital theory, which is that it is needed, finds verification at least every week in the year.

It is the tidy and clean city, backed up by its well ordered hospital, which will be found the economical city, for in these two, prevention against disease through cleanliness, and the cure, through the city hospital, makes the cost insignificant, when the safety of the municipality is considered.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube...

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

OVER THE OCEAN.

Cholera is officially declared to have disappeared from Egypt. Twelve thousand people were arrested in Glasgow last year for using obscene language.

Japanese reformers who are interested in improving the lot of women regard it as a good omen that their crown prince has only one wife.

In fifteen years the naval expenditures of Great Britain have increased 161 per cent. They now equal those of France, Russia and Germany combined.

The climate of Cairo, Egypt, has been so changed by canals, new streets and overwatering that invalids are obliged to go to Thebes. The Nile dam has also had its influence.

Several old English naval men have just obtained "prize money" which fell due to them when they were boys and had been lying at the British admiralty for over fifty years.

To kill, acid, clean and have a full grown pig in seven minutes and five seconds, which has been accomplished by a King's Lynn (England) butcher, is asserted to be a record.

The street beggars in Barcelona have entered into a solemn covenant to withdraw from circulation all the two centime pieces which they receive from the charitable people, so as to compel their benefactors to give them the coin next in value—viz., 5 centimes.

When today's market has eliminated a large short interest, a careful perusal of our columns reveal the fact that cotton not to short the Fall months have been the rule, with every prospect of higher prices for October ultimately. The advance has carried the price to a point which every business instinct would lead a man to take profits. An enormous crop will be needed the coming season and prices in the early Fall are not likely to be under 9c, still a further advance would pretty well clean out the tight weights, and then the normal hedging by southern interests would find a weak position in these options. The day was an excited one throughout with more attention being paid to the Fall months.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up.

Classed by an Emperor. Emperor Frederick William of Prussia, sometimes dignified his rejection of what he considered an absurd petition by drawing on the margin an ass' head and ears. One day a baron of ancient patent having complained of another baron taking precedence of him, the king wrote on the petition: "More fully. Whether a man sits above me or below me, my birth remains the same."

Only One Way. "In these days," he sighed, "it is difficult to convince a girl of your sincere admiration."

Her Theory. "Do you believe men's souls go into animals after death?" he asked. "Well, I sometimes think perhaps they do," she answered. "There are some dogs who wouldn't be as mean as they are if they were not for an influence of some kind inside of them."—Chicago Tribune.

Quick Arrest. J. A. Gullidge of Verbena, Ala., was twice in the hospital from a severe case of piles causing 34 tumors. A Sure Thing. It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. G. B. VanMetre of Shepherdsboro, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It is infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It is guaranteed by C. D. Bradham, druggist. The National Debt. The United States has one of the smallest national debts in the world. It is equal to only \$12 per capita. The per capita debt of England is \$74, of France \$150 and of Australia \$203. Australia has the largest per capita debt in the world. The United States debt was largest in 1863, when the \$73 per capita. The still war debt was rapidly paid, and in 1869 it had fallen to \$700,000,000. It was increased to \$1,046,000,000 by the Spanish war, but has fallen again to about \$300,000,000. In 1865 the average interest paid by the government was 7.3 per cent. Now half the debt bears only 2 per cent interest, and the United States is the only nation in the world that has been able to sell a 2 per cent bond at par. In 1905 the interest on the national debt was \$180,000,000 a year, or about \$4.20 per capita, and now the interest per capita is only \$1.60 a year.—New York Commercial.

The X-Rays. Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. WOMAN AND FASHION

A Handsome Blouse. Bolero blouse of silk cloth, with fronts turned back to form reverses or plaits, attached on the edges and ornamented with buttons. On each side of the front is a box plait, starting at the yoke, which is trimmed at the bottom with lace.

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound, faithfully according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have been very truly, Mrs. M. F. Fairbanks, 318 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried travelling saleswomen in the West.)—\$4.00 per bottle if original glass container is returned.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhoea, displacement, etc., remember, there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.
