Ollicial Paper of New Bern and Craven County.

TRAGEDIES OF STATE INTEREST

The hearings in the habeas corpus proceedings, in the Haywood case at Raleigh, and of the five men implicated in the Jones murder case at Wilson, are of State interest, and the newspapers are giving full and detailed accounts of

Both cases are similar in that the parties on trial at each place are prominent, locally, and each tragedy was startling and shocking to the community in which it was committed, and because of the prominence of the parties concerned in these Raleigh and Wilson tragedles, the entire State has been to some extent affected.

The very startling character of both these tragedles, together with the prominence of the persons and families connected with them, causes the entire proceedings of each to be watched with intense interest throughout the State.

The tragedies which already have taken place, are important only as they Anaconda Cop .. shall bear upon those persons causing them, that is, those on trial for the murders committed, are incidental, except to immediate relatives and friends, while the people of Both communities, and the people of the State outside of Raleigh and Wilson, are deeply concerned on the question of the law's dealings in the matter.

The highest crime has been committed Those committing the crime are in custody. The question of granting habeas corpus, which will practically give the prisoners their freedom, that is freedom from a prison's environment, is now the first issue.

tragedy which is to govern the determin may be committed in North Carolina.

The crime; and the equitable law penalty meted out to the offender, means security to society.- The law may be henent of the offender rying out of the statute law, which holds people in check, and makes the criminal distinctively criminal.

cannot but affect the entire State.

by local applications as they cannot reach the discussed portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tabe is inflamed you have a rumbling sound or imperfect hearing, and when it is entire-ly closed. Deafness is the result, and un-ess the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for-Catarrh, which is nothing but an in-flamed condition of the mucous ser-

Cottle Making.

Cuttles require deft handling. The bait, which consists of a rough chunk of fish fastered to a book or even tied to a string, is not dropped over the side to be swallowed, but to excite the gustatory organs of the cuttles and to be slowly pulled up until those moliusks have reached the surface is a value at tempt to embrace it with their ions lowly pulled up until those moliusing ayo reached the surface in a value at empt to embrace it with their long russ. Then in a moment a gast is lunged into the leathery mantle of the could be dirier and the creature is unsummationally flung into the boat. The rosale nature of the fishing is someomes punctuated by grotesque lactorists. For instance, the cuttle which cought our catch up to a baker's non-helped to support the idea that if then is an mainety number by making his entrance into the boat a present for emptying his hag of septs into a face of his captor, the liquid transming that gentleman's gibt speech to a more impoberant sputtering, and a counting down his white "jumper" what the daylight showed to be a cele to the country of the country of the server. That was a brance over the country of the

POWDER AND GUNS.

there is adminish evidence that in bright of gunpowder and artillery goe far back in the dim ages of the past. The Hindoo code, compiled long be fore the Christian era, prohibited the making of war with cannons and gun are any kind of firearms. Quintus Cur-lius informs us that Alexander the

Great met with are weapons in Asia, and Philostratus says that Alexander's conquests were arrested by the use of gunpowder. It is also written that those wise men who lived in the cities of the Ganges "everthrew their enemies with tempests and thunderbolta shot from the walls." Julius Africanus mentions shooting powder in the year mentions shooting powder in the yea 275. It was used in the siege of Cor stantinople in 968, by the Arabs in 690 at Thessalquica in 904, at the siege of Belgrade in 1073, by the Greeks in na val battle in 1008, by the Arabs agains the Iberians in 1117 and at Toulouse in

It appears to have been generall known throughout civilized Europe as early as 1300, and soon thereafter i made its way into England, where i was manufactured during the reign o Elizabeth, and we learn that a few irms were possessed by the English i 1310 and that they were used at the battle of Crecy in 1346.—Cassier's Mag

Joseph Chamberlain, the Englis statesman, was once indebted to nursery rhyme for a great oratoric hit. In one of his speeches he was criticising Lord Beaconsfield and Lord Salisbury on their return from Berlin where they had been carrying on nego tiations with Bismarck.

Both had made speeches explaining their actions, and one of them in th course of his oratory used the word "if" so many times as to give M: Chamberlain a chance in his reply to make one of those popular allusion which are remembered longer than an

What the honorable gentleman ha ald," he remarked, "reminds me of rhyme I learned from my nurse: "If all the seas were bread and cheese
If all the rivers were ink,
If all the lakes were currant cakes,
What should we have to drink?"

Mr. T. G. Willis, assistant ke Brant Island light house is ashore this week. We are informed that he has been promoted and will go to Harbor la-land soon. Too he worthy young man, we wish him abundant encoses.

Mr. Leroy Harper who got hurt some time ago by falling from a cart, is improving we are glad to learn.

Miss Lula Muse went to New Bern to

day on the steamer Blanche. Mrs. J. L. Fentress of Maribel is visiting her sigters, Mrs. U. C. Holton and Mrs. A. J. Robbins today.

We are reliably informed that the mar riage bells will ring out about 4 o'clock this evening when Mr. Charles Swan of Maribel will take to himself a better half to adorn and beautify his already beautiful home. We wish them a long and happy life.

It begins to look like the P. O. & W. R. R. is completed, when Pamlico county voted bonds on June 28, 1902. We were promised a railroad to take this year's truck crop to market. Work was to begin in August or September and the work has been put off from time to time until it seems that the road will end where it began. It now looks like if Pamilico county ever gets a railroad i will come from Washington, and when Washington makes a move in this direct tion something will be done and don' forget it. Let her come.

RELIEF IN SIX HOURS.

Distressing Kidney and Bladder Disase relieved in alz hours by "New GREAT SOUTH AMERICAN KIDNEY CURE. It is a great surprise on account of its sceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water alnost immediately. If you want quick relief and cure this is the remedy. Sold by J D Bradham, Druggist, New Bern,

His Face Spoils Basor

"Did you see the man who just went out?" asked an uptown barber of a customer as a swarthy individual left the shop. "Yes? Well, he spotts a rasor every time I shave him, and he comes here twice a week regularly He is a stonecutter, and the grit and dust are so imbedded in the pores of his face that it is like drawing a razor over the side of a stone. I always use the best tools I have upon him, but they are not stone proof, and a dull razor is the result when his beard is

"He is a customer upon whom I los money, and I am glad to say that he is the only stonecutter who favors me with his patronage. I often wonder how it is that he doesn't wince when the razor strikes a section of stone that is imbedded in his face and bounds off, but it is probably because his skin is so hardened that he feels no ill effects."—Philadelphia Telegraph.

Some Difficult Tables. Some of the excavations at Nippu show that the Rebylonians had multiplication tables five times as long as those commonly used in schools. Mos little men and women, for instance do not have to go further than twelve times twelve, but the little Babylonian children, says Dr. Herman V. Hil-precht, who superintended the late excavations, had to go as far as sixty times sixty.

Numbered fragments of tablets bearing these "multiplication tables" have been found, some few of which go as far as 1,300 times 1,300. But these were evidently only for astronomical purposes. Those old astronomers seem to have felt hard pressed for time and when they were calculating the distances of the new stars they found. and their size, they did not want to take the time to multiply, and so just referred to these tables in stone.

Fish Without Sait. The fishermen of Ciudad Bolivar, on the Orinoco river, in South America eatch their fish in the queerest way in the world. They use no bait, but try to hook the fish by the body. A cylindrical weight is tied to a long line, Above this weight, for a length of six inches, strong fish hooks are attached. The line is thrown out in places where the current is swift and shouls of fish pass. pass. It is hatled in rapidly by a series of ferks and usually there is a fish on half the hooks.

This method of fishing is called robador—literally, "to rob."

I distrust both the intellect and the morality of those people to whom dis-order is of no consequence—who can live at case in an Augean stable. What surrounds us reflects more or less that which is within us. The mind is like one of those dark lanterns which in spite of everything still throw some light around. If our tastes did not reveal our character they would be no longer tastes but instincts.—Emile September 1988.

cokes. Grope were beginning to suffer considerably for the want of rain. We have two new cases of typhoid over in our community. Mr. Cophas fover in our community. Mr. Cepha Teler, and Mr. Braast Toler Dr. Dixer

Pigg and His Pig. An old Kentucky indictment has been brought to our attention which alleged that defendant "did unlawfully willfully and mallelously kill and de stroy one pig, the personal property o George Pigg, without the consent said Pigg, the said pig being of value to the aforesaid George Pigg. The pig thus killed was the mate to some oth pigs that were owned by said George Pigg, which left George Pigg a pig less than he (said Pigg) had of pigs and thus ruthlessly tore said pig from the society of George Pigg's other pigs against the peace and dignity of the commonwealth of Kentucky." - Case and Comment.

The Wastes of the Body.

Every seven days the blood, muscle and bones of a man of average size lose two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fall to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stom ach and digostive organs to digest and sastmilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protect th health and strength of the mind and body. Kodol cures Indige-tion! Dyspep sis and all stomach troubles. ideal spring tonic. Sold by F 8 Duffy.

The Time For Recreation. In this insistent age, when life every ere is at high pressure, there is great need of emphasizing the impor tance—yes, the absolute necessity—of

What is work worth, especially brain faculties, the energy of the brain cells

being exhausted? One ambitious of becoming a writer for example, thinks he is saving time by forcing his brain beyond natural limits. He believes that what he does over hours is clear gain and that well ing a chapter or an article after his day's work in an office, a factory or store is to his advantage. But soone or later he will realize his mistake. Nature will not be cheated.

A man may profitably occupy hi evenings in study or in some other oc cupation than that by which he earns his daily bread, but he cannot do a full day's work of any kind and then wise ly attempt to do creative work in the vening. A fresh brain is absolutely sessential to the production of origins hought. Even a recognized author who forces too much work upon his tirain will soon see that his writings are not as much in demand as they have been and that his reputation is waning.-O. S. Marsden in Success.

There are many stories told of the tact and kindliness of Mistress Dolly Madison when she was the first lady of the land. Her ready wit saved from confusion many a visitor to the White House who was not accustomed to the ways of polite society.

One of the most amusing of the sto-

One of the most amusing of the stories is, the tale of a country lad at a White House reception who was surprised in the midst of his enjoyment of a cup of course by the approach of his houses. In his confusion the poor boy dropped his asucer and thrust the cup into his pocket.

Mistress Doily, who, although her eyes were keen and searching, never saw anything that it was not intended she should see, chatted away with her quest se pleasantly of the weather, the crowd, and finally, of the young man's noticer, whom she had known or heard of, that he recovered from his embarassment and was seen at ease and ready to accept the fresh cup of coffee which his heartess ordered, despite a certain curious and unexplained holgs in his pocket.

A Little Early Riser

Letters from Vomen

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stemach disorder.

If the food you cat falls to give strength to your body, if is because the juices accreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the ligation. The system is deprived of the count of nourishment required to keep up to strength, and the result is that one or ate organs gradually grows work, and then weaker, until finally it is diseased. Here a great mistake is made. That of tresting the diseased organ. The best dootors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, the and fiber throughout every organ of the en tire body, and by Nature's law of health, t strength and vigor is soon restored to ea a.

Kodol cures indigestion, dyspepsia and all

tomach disorders.

I have taken Kodol for nearly two mouths after each meal and it is the only reme that gave relief from the terrible pains endured. After a time I would take it is once a day, and now, while I keep a but handy, I seldom need it, as it has consider Mrs. J. W. Coolsaugh, Milo Center, N
