Official Paper of New Bern and Craven County.

#### ARE NOT WAGE BARNERS OVER DOING IT.

With strikes of various kinds through out the country, caused by the demand for an increase of wages, and in many lines of trade wage concessions granted by employers, the question, from a labor point of view, is, how much more can be granted wage carners in an advanced pay with a decrease of hours of labor.

Manufacturers and contractors in most instances are agreed that wages are at their maximum today, and that no further increase can be given, and the manufacturer and contractor be able to do business.

It is not that the manufacturer and contractor have only the increase of wages to add in estimating new work, but there is an added cost of production to be figured in.

The greatly increased out put in every line of trade, causes what can be claimed as an unusual demand for labor.

The wage earner has and is sharing in this demand for his labor. Work, with greatly increased pay, has been the wage carner's share in the prosperous conditions prevailing.

But the question now is, if the manufacturer and contractor feel that the maximum wage limit is reached, will not the wage earner over do it, if an attempt | People Gas ..... 974 to secure further increased wages is | C. & O ......... 374 made, with the ultimatum, if the advance is refused, that strikes will be the consequence.

The wage earner is self interested, in securing a maximum of wage for his services, for a minimum of time.

But while anxious to secure these advantages, there is a possibility of over reaching, with the result of making Va. C Chemical, 54; wage earners competitors among them- Canadian Pacific 1924 they now are.

There is a maximum of success in every thing, and the fraction above it Republic Steel .. 141 often brings failure. The wage earner can alone bring trouble to himself.

Will he do it?

STATE OF OHIO, CITY OF TOLEDO }

U S. Leather, pf .. FRANK J. CHERRY makes oath that h is senior partner of the firm of F. J CHENEY & Co., doing business in the City of Toledo, County and State afore said, and that said firm will pay the sun of ONE HUNDRED DOLLARS for each and every case of CATABRE that canno be cured by the use of HALL's CATARRY CURE.

neaks to young women about ingers of the Menstrual Period dangers of the Meastrual Period

—how they can avoid pain,
suffering and remove the cause.

"I suffered for six years with dysmenorrhes (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds and feet wetting.

"If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydis-E. Pinkham's Vegetable Compound, that was the only medicine which halped me any. Within three weeks after I started to take it, I noticed a masked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment and was cured a month later. I am like another person since I am in perfect health."—Miss Agras Millers, 35 Potomac Ave., Chiesgo, Ill.—55000 forfet! If original of about latter monthing genulaneau bannet he produced.

The monthly stokness reflects the condition of woman's health. Fifty: thousand letters from women prove that Lydis E. Pinkham's Vegetable Compound regulates menstruation, and makes those periods painless.

of 800,000 bales over 200,000 bales owned

of 300,000 bales over 200,000 bales owned by W P Brown of New Orleans and those interested with him in what is believed to be an attempt to corner the market and dictate prices. There has been times when individuals have contributed largely to marking up or down of prices in various parts of country but never has there been a condition as at the present time. For several months in 1898 Mr Leiter controlled the price of wheat in Europe and United States in the 80's. Old Hutch did the same in the wheat market but never in history has one been able to own so large a portion of the supply of cotton as to render the trade powerless in his. hands. In the first place consumption has been on an enormous scale and crop not large enough to form substantial surplus after needs of trades have been met. Then too business of late years has been profit. able and fearing a dearth of supplies at season buying by spinners against futures been larger than usual. This has left visible supply very small. In addition to this new crops have been late and more cotton be required from all old crop to carry spinners through till new crop is picked. Reported one half million spindles go out in Fall river next week and each day now some mill closes | Sears the owing to high prices. Under the cir- Biguitus cumstances we do not care to undertake but the cautious kinds of trades in this market. Prices have been advanced to a point where trading up to and lacluding October is dangerous. The crop is improving and yet with a corner on old crop months and condition of plant still local we can't advise short selling, and would not buy only on substantial breaks and then only for a quick turn.

Bid High on Cotton.

O W Lee & Co.

New Orleans, June 26 .- W P Brown bid 14.25 on cotton today and says that he would bid 15 but bets he wouldn't get

Bone flowers appear to change their scents at different times. The common jasmine flowers when first opened have a delicate, fresh perfume which, after a time, becomes grosser and attracts bluebottle files. Flower of the orchid Odontogiossum bebraicum have a cinnamon fragrance and a haw-thorn scent at different periods of their

## AN IMPORTANT ARREST.

Officer Bryan Made One of Especial Importance in New Bern.

Disease is insideous in its streek, no bease more insideous than kidney dis-ase. Refers you know it is there, it has age. Before you know it is there, it has aken possession of your hack and is making your life miserable—as unwallone tenant of your frame. It must be reasted in time. A New Bern patrolean will tell you how he did it.

A L Bryan, officer in the police depart near, readding at 110 Ment Promi strend again "My both was so had that when I got down on the bed I could accurate the contraction of the policy of the contraction of the policy of the policy

There are many more of these can on balls, each worth a small fortune ying hid or buried in the recomes o his jungle, and their story is a curiou me. At the end of the sixteenth con ury Akbar, the greatest emperor Him instan over saw, was at the height of his giory. At the head of his condustan over saw, was at the height of his giory. At the head of his conquering army, he summoned Ahmelmager to surrender. The city and its rich treasure were then under the rule of the Princess Cande. Knowing that resistance could be but short, and in hitter rage against the oppressor, she caused all the treasure of gold and silver to be melted down. She cast the metal into cannon halls and sme the metal into cannon balls and engraved upon each maledictions against the conqueror. These were fired into the jungle and when Akbar entered the city, instead of the rich board be

had hoped to win, he found a treasury absolutely empty.

That this is not the only occasion upon which cannon balls of gold have been cast is proved by the fact that in the treasury of the shah of Persid. there may be seen in the same room where stands the famous peaced where stands the famous peaced brone two small globular proj of gold. They were estimated by a recent visitor to weigh about thirty-on pounds each and are roughly made. Their origin or purpose is, however, totally forgotten. It is only known that they are very old.—Chicago Chron-

Do You Enjoy What You Bat?

If you don't your food does not do ou much good. Kodol Dyspepsis Cure s the remedy that every one should take when there is any thing wrong with the stomach. There is no way to maintain the health and strength of mind anybody except by nourishment. There is no way to neurish except through the stomach The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headsche, constipation, bad breath, sour risings, fitting, indigestion, dyspepsia and all stomach troubles are quickly cured by the use of Kodol Dyspepsia Cure, Bold by F. S. Duffy.

Shipping Cinnamon.

Cinnamon is so extraordinarily sensitive that great care has to be taken with regard to its surroundings on board ship, as a bale of very fine cinnamon will lose much of its delicate aroma if packed among bales of coarser bark. Various expedients have been tried to remedy this. The Portuguese and Dutch isolated the bales by packing them in cocoanut fiber or in cattle hides, but it is found that the only real safeguard is to pack bags of pepper between the bales.—"Two Happy Years In Ceylon."
