COLTON'S CORSET

Look at my lady's Invisible Lacing

Q. Man how easy it pulls

SPECIAL.

We are pleased to announce that we have secured the Sole Agency for New Bern, N. C., for the Popular "Invisible Lacing" Corset, and we invite every lady who desires perfection of style combined with solid comfort to call on us and examine the goods. From the outside some of the special points of advantage may be noted.

The back has a perfectly flat surface both inside and out. No Lacing to show through the lightest fabric of a lady's dress. No lacing inside to hurt, annoy or weigh the wearer. No cycles to rust or corrode thus preventing the soiling of undergarments and ruin of fine linens.

We ask you to verify our statements by wearing one yourself.

J. J. BAXTER.

### A NEW BRICK STORE

The Swinell Property on Pollock Street to be Substituted by a Brick Structure.

A new brick building will soon adorn Pollock Street. The frame building next to Mr. J. G. Dunn's store, which is the property of Mr. W. D. Swinell, of Swan Quarter is being torn down and will give place to a handsome two-story brick structure.

The dimensions will be 45 x 100 feet.

The store will be occupied by the Barfoot Bros., who will enlarge their stock and use the entire building.

### VOICE OF THE PEOPLE.

#### A Plea For An Old Custom.

Editor of New Bern Journal.

Dear Sir:—It has been the custom of the Daughters of the Confederacy to give an annual dinner to the Confederate veterans on the Fourth of July. This day has been set apart by the people of this city and surrounding country to come together in this city and enjoy the reunion of what may be left of these gallant old soldiers.

I regret very much to see an effort, is being made on the part of some of the Magistrates of Craven County to take advantage of this holiday, and the one set apart by the ladies of this city to entertain the old soldiers and convert it into a Magistrate's meeting for the purpose of electing a County Commissioner to fill a vacancy on the Board.

Magistrate.

### The Kingdom of the Tobacco Trust

Everybody's Magazine.

The year's consumption of tobacco in the United States alone includes seven billions of cigars, ten billions of cigarettes and two hundred and eighty millions of pounds of manufactured tobacco. The one item of smoking and chewing tobacco, exclusive of cigars, cigarettes and snuff, registers an annual value of more than \$200,000,000. In addition, England smokes six billions, Japan three billions, and China one and one-half billions of cigarettes every year. This outside of cigars putting them up forty-five millions of pounds of tobacco and puts about \$4,000,000 into the bank account of the American grower, giving the grand balance to the Trust.

### Christian Scientists at Boston.

June 28th, 1908, was an ideal day and will ever be remembered most joyously by the vast number of Christian Scientists from all over the world, gathered here for the Annual Communion service of the Mother church.

Every thing has been done for the visiting Scientists. The great mechanics building, with its auditorium and assembly halls covering several acres of space, has been converted into a general reception room from 9 a. m. to 9 p. m., where thousands meet in good fellowship and love exchanging friendly greetings. Here is every convenience—information bureaus, etc., so that in a short while the vast throng, for there are more than fourteen thousand persons here, are making new friends. One from Australia is shaking hands with a Scientist from the South. From Manitoba, England, and many foreign countries notable Scientists are here, as well as from every State in the Union. Earl and Countess Dunmore of London with their two daughters, Lady Victoria and Lady Mildred Murray are here having, with many others, crossed the sea for this special occasion. It was most impressive to see the more than 5,000 people seated at each of the three services. Most simple was the service. The subject of the Lesson sermon was selected by Mrs. Eddy, "Loving One Another," and the quotations as read gave all present most uplifting spiritual help in contemplating the future when all the brotherhood of man shall have learned that Love alone is the government that can withstand evil.

The hall was beautifully decorated in flags of every country and red, white and blue tinsel, and altogether a happier scene was never seen than within the hall. One looker was heard to say that he never saw such a vast number of intelligent people of all classes together, and it seemed that all had come here to see how happy they could be.

The most impressive moment of all is when the great crowd at invitation of the First Reader kneels in silent communion.

Two most interesting points in the service were a dispatch from the church to Mrs. Eddy and a letter from her to the entire church inviting them to be at Pleasant View, her home in Concord, N. H., on Monday at 1.30 p. m. where she would greet them. This was an entire surprise but an invitation which will no doubt be unanimously accepted.

Below is given the order of the services. The Responsive reading being from I Cor. 13, (revised version).

Golden Text, John 13, 34, 35. "A new commandment I give unto you, that we love one another, as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples, if ye have love one to another."

Order of Services.

1. Hymn 168. "O'er Walling Harp-strings of the Mind," written by Rev. Mary Baker Eddy.
2. Scripture Reading by the First Reader.
3. Silent Prayer—The Lord's Prayer, with its Spiritual Interpretation.
4. Hymn 165.
5. Reading Notices and Announcement of the Number of Candidates Admitted to the Church.
6. Collection.
7. Reading the Church Tenets.
8. Solo, Communion Hymn. Written by Rev. Mary Baker Eddy.
9. Lesson Sermon.
10. Communion.
11. Communion Doxology.
12. Reading the Scientific Statement of Being, the Correlative Scripture Passages, Benediction.

MARY HATCH HARRISON.

### Think Before You Drink.

Suppose, just as you were about to lift a glass of your favorite beverage to your lips, somebody should exclaim: "Stop!"

Wouldn't seem very presumptuous, wouldn't it?

It wouldn't be, though, if it were a note of warning concerning your health.

Now, these five minutes begin in a vague sort of a way, don't they? Nevertheless, as you will discover, they mean a very serious talk with you upon a very important subject. And yet it's upon a matter, to which, in all probability, you have never given a thought.

Every household buffet and wine closet holds various beverages of a carbonated or fermented nature—ginger ale, mineral waters, beer, soda and the like—something which has to be corked.

To begin with, let's take the old-fashioned, pressed-in cork, with its wired retainer. How a man labors, perspires, frets and fumes, trying to draw it with the corkscrew! And with what success?

If he has muscle "to burn," and the cork doesn't break, he finally gets it out. Perhaps, in the struggle, the bottle head or neck is broken and his hand is severely cut.

Suppose, though, that a lady—some weaker member of the family—tries to draw the cork by the same process. She simply cannot do it at all!

Then there are other styles of stoppers; some with permanently affixed arrangements to the neck of the bottle, the intent of which is to prevent the stopper from being lost and to enable its repeated use.

The repeated use of stoppers is attracting widespread, serious consideration, for hygienic reasons.

Two minutes are gone.

Let's employ the other three minutes (talking of the stopper of all stoppers. It is never used but once! It cannot be used but once! It is absolutely hermetical! It will not blow off!

Nothing comes into contact with the beverage but sterilized cork!

Hundreds of pounds of pressure afflict it to the bottle!

The hand of a child can remove it!

Isn't it easy? Look at it! Doesn't its simplicity make you smile? How quickly we become converted to what is manifestly for our good!

It is the Crown Cork!

It renders impossible, between the time the bottle leaves your bottler and it arrives on your table, simply because if the Crown is once removed, nothing and nobody can ever refit it again to any bottle.

You remove it!

That's the end of it!

It's the only stopper which does its work without a fault and is used but once!

Every bottler in America knows the merits of the Crown, and those who really value their trade use it exclusively.

There's another point of some consequence.

It's this:

If your bottler uses the Crown, (as he most assuredly should, instead of muscled corks, or any stoppers that are used over and over), it won't mean any additional cost to you.

Every element of good and right living is addressed by the used-once purpose of the Crown, which, in the matter of stoppers, is the underlying principle of absolute hygiene.

You will, very properly, concede that the one who uses a beverage has rights respecting how the bottles shall be stoppered; and you know full well how to exercise those rights. Always bear in mind, too, that any bottle not having the Crown on it, cannot be as pure, or properly adapted to contain your beverage, as it should be.

The moral is, always insist on having Crowns on your bottled beverages.

Five minutes are up!

Thank you, very much!

Crown Bottling Works use the Crown Cork exclusively on all their delicious soft drinks and their high grade beer. Lee J. Taylor, Proprietor. Phone 105.
