ARAPAHOE.
July 23--We are having fine farm weather in our community at present. We continue to have light showers, which is very nice, after such heavy rain falls as we had not long since. The most of our farmers are about through with their farm work and are now having some leisure time to rest from their summer work.

SHORT STORIES.
Within eight months we have received enough emigrants from Europe to repopulate Ireland.
A new word has been coined for application to a slight testing optician. He is to be called an "optologist."
A large moon was seen recently straggling around irregularly in the neighborhood of the school buildings at Presque Isle, Me.
In Omaha the other day a girl combing her hair gave her head a toss and dislocated her neck. It required the combined strength of four men to pull the vertebrae into place again.
On the 21st of this year we shall spend \$100,000,000, on the navy \$85,000,000. The civil establishment will cost \$12,000,000. To the Indians we shall give \$12,000,000. The interest on the public debt will be \$27,000,000.
It is proposed to buy the field on which Alexander Hamilton was slain in his duel with Aaron Burr and convert it into a public park. A monument is to be erected on the spot, but it is neglected and unvisited.
The death rate in Cuba before the war averaged about forty-two to a thousand, taking a period of several years. It is now but twenty-one. This means a decreased loss of life from illness as well as saving of life.
