

THE JOURNAL.

Published every day in the year, except Monday, at 4 cents per copy.

Subscription Rates: One year, in advance, \$4.00; Six months, \$2.50; Three months, \$1.50; Single copies, 4 cents.

Advertising Rates: Per line per week, 10 cents; per month, 30 cents; per year, \$3.00.

Entered at the Post Office, New Bern, N. C., as second class matter.

Official Paper of New Bern and Curves County.

THE GENIUS OF LABOR

The faculty of concentration, the ability to perform one thing thoroughly and well, marks genius which is not apt to make a failure in life. The genius of labor is as much the love for the task undertaken, as it is the conscientious effort and thoroughness put into the work. Uncongenial work seldom develops the right effort in the person undertaking it, hence the necessity for seeking work which appeals to both the sympathy and ability of the individual. The unsuited work as often produces individual failure, as it lacks of power to perform the work, and success is impossible to attain. The genius of work is not found in the quick realization of fame, wealth or position, rather it comes through the methodical effort, the quiet and steady application of months and years, and is the legitimate result, the natural product leading to success, solid and substantial. Failure to recognize the necessity of thoroughness in whatever line of trade or business that is undertaken, is a personal weakness, which marks the lack of genius to attain real success. Education gives the first lead, the impetus towards a line which seeks good work and thoroughness in the work, opens the way to the knowledge of grasping a life work which shall be congenial, which will therefore appeal to the best efforts of the individual. Genius of labor does not belong to any profession, trade or pursuit. The humble mechanic may possess it, as well as the greatest inventor or financier. It is the ability to do the work at hand, thoroughly, completely, effectively, leaving nothing to be added. The possessor of such a genius for labor, commands attention in the world, is valuable as an employe, and is of value to his community. Combined with other attributes, such as a man or woman make his or her time for good, for achievements which may not be great, yet are far-reaching in their moral effect.

Cataract Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Cataract is a blood, or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quick medicine. It is prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Cataract. Send for testimonials free.

Why New Bern People Should Follow This Valuable Advice.

Because the price is so low. You can easily investigate it. Not necessary to experiment. With some careful study. First by the appearance of a child. Second by the appearance of a child. Third by the appearance of a child. Fourth by the appearance of a child. Fifth by the appearance of a child. Sixth by the appearance of a child. Seventh by the appearance of a child. Eighth by the appearance of a child. Ninth by the appearance of a child. Tenth by the appearance of a child.

Had a Rotten Night

"Two physicians had a long and warm fight with an ailment on my right eye," writes J. F. Hughes of De Paul, Ga. "and gave me up. Every body thought my eye had come. As a last resort I tried Dr. King's New Discovery for Rheumatism. The benefit I received was striking and I was on my feet in a few days. Now I'm entirely restored to health. I'll never let another eye trouble me. Write for a free copy of the book 'The Eye' and 'The Ear' by Dr. J. F. Hughes." - Boston Transcript.

Had a Rotten Night

"I was troubled with indigestion and depression so all they want if they will take Kodol Dyspepsia Cure. This remedy opens the stomach for the reception, digestion, absorption and assimilation of all of the wholesome food that may be eaten, and enables the digestive organ to transform the new food into the kind of blood that gives health and strength." - Boston Transcript.

PICKINGS FROM FICTION.

What is genius? It is the power to be a boy again at will. - *Journal and Opinion.*

There is one something about genius which is almost a universal truth. It is the power to be a boy again at will. - *Journal and Opinion.*

When a man has once treated a matter as a joke, he is for ever so lost a period, he can never look at that again with the same eye as before. - *Journal and Opinion.*

Optimism in life is a good working hypothesis if by optimism we mean the open eyed faith that forces exerted is never lost. Much that falls itself faith is only the blindness of self satisfaction. - *The Philosophy of Despair.*

Persecution of the Beautiful. An instance of the Italian child's quick, poignant perception of the beautiful occurred the other day in one of the settlement libraries. A tiny little maiden, with a world of dream thoughts in the depths of her dark eyes, stood by the librarian's desk waiting for Andrew Lang's "Grey Fairy Book." But when it was given to her she held it with a reverence for a moment forgotten in contemplation of the cover, a dainty design in grey and silver. All thought of the story vanished. The child stood there eyeing the book with a look that was a riddle. Her hands just touching the binding, she said something of a fragrant beauty. And then, very softly, as if to herself, she said: "I must not give it to the least boy. It's so pretty." - *Everybody's Magazine.*

Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.

"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a bottle and after taking three doses it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by all Druggists."

Cholera Infantum.

This disease has lost its terrors, since Chamberlain's Colic, Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaint in children has made it a favorite wherever its value has become known. For sale by all Druggists.

COLORED PEOPLE SPEAK FOR THEMSELVES.

You know when rich, red blood is coursing through the veins, for it shows in the brightness of the eye, the beauty and clearness of the complexion, the smooth skin, and robust, healthy constitution. It is good blood that imparts strength and energy to the body, and it is good blood that imparts health and vigor. Good blood is the foundation of good health, and to be physically and mentally sound it must be pure and unadulterated. People with good blood possess strong, steady nerves and are blessed with good appetites and digestion, and enjoy sound, refreshing sleep. If we could always maintain the purity of the blood then we might enjoy perpetual health, but it becomes infected, and poisoned and most of the ills that afflict humanity and undermine the constitution are caused by an impoverished or polluted condition of the blood.

When the blood is diseased the skin loses its healthy appearance, and the complexion, its freshness and beauty, and becomes red and rough and full of pimples and blotches. Itching, scaly eruptions, blackheads, boils and rashes break out upon the body when the blood is too poor or too thin and acid, and is not supplying proper nourishment to the system. Debility, poor appetite, bad digestion, restless sleep and nervousness more often come from sluggish, impure blood than any other cause. To build up the blood, restore its lost properties and make it rich and nutritious again is the only rational treatment, and the proper way to get rid of skin troubles. There is no remedy like S. S. S. to accomplish this and it does it promptly and thoroughly.

S. S. S. softens and cures from the blood all poison and humors, and restores to a normal, healthy condition, and invigorates and tones up the general health. When rich, red blood is again flowing through your veins all skin eruptions disappear, the appetite improves, the complexion clears and you get rid of those miserable depressing feelings and nervousness, and enjoy once more the blessings of good health. S. S. S. is nature's remedy for all blood and skin diseases. It contains no minerals whatever, but is guaranteed purely vegetable. Write for free book. No charge for medical advice or other information desired.

THE S. S. S. CO., ATLANTA, GA.

The "Just Alike."

Few people perhaps notice that all omnibus wheels are painted yellow, says the London Chronicle, so that any wheel may be worn with any bus color. Every carriage in the world is of precisely the same diameter, whatever the size of the auditorium, so that the rider knows the angle at which he must lean in San Francisco is the angle of safety in St. Petersburg. Even the ladder is "standardized." Every bodman in England knows what he has to step when toiling up the builder's ladder, though he may not know it is seven inches. The sailor who runs up the ratlines has twelve inches as a step, and that makes a run possible, and the fireman's ladder is crossed with exact equivalence to the ratline.

Potent Pill Pleasure.

The pills that are potent in their action and pleasant in effect are De Witt's Little Early Risers. W. S. Phillips of Albany, Ga., says: "During a bilious attack I took one. Small as it was, it did me more good than calomel, blue mass or any other pills I ever took, and at the same time it effected me pleasantly. Little Early Risers are certainly a deal pill." Sold by F. S. Duffy.

Anticipating Him.

"Jenkins, I believe you have some of the elements of success about you." "Not a dollar, old man. Honor bright. You'd be welcome to it if I had." - *Stray Stories.*

When our charts fail to hit the mark.

We generally have a feeling that it is because the mark is too low. - *Puck.*

The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Buckle's Arnica Salve ever handy. It's the best salve on earth and will prevent facially, when Burns, Sores, Ulcers and Piles threaten. Only 50c, at O. D. Bradburn's drug store.

The Mistress Character.

The London Globe prints a "character" which gives an English servant leaving kindly to her mistress. "In answer to your letter, it's not a bad place; the Mrs. understands her duty, and is a good and obliging, but troubles about getting up early in the morning. There is plenty, and if you don't mind a place where only one other young lady is kept besides yourself, you might give her a month's trial. I like the more society, which is why I am leaving."

Mr. Mollie Allen, of South Fork, Ky.

Mr. Mollie Allen, of South Fork, Ky., says she has prevented attacks of cholera morbus by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy when she felt an attack coming on. Such attacks are usually caused by indigestion and these tablets are just what is needed to cleanse the stomach and ward off the approaching attack. Attacks of bilious colic may be prevented in the same way. For sale by all Druggists.

Exhibition on Machinery.

Lord Rosbery's speech always reminds me of the description given in Friber's Dictionary of a certain English statesman: "At first he would have an opinion, then he weakened it by self contradiction, then again an objection to the contradiction occurred to him, until at last nothing remained. He was a clever speaker, but not learned in his subject; he was a good man, but not a good lawyer; he was a good politician, but not a good statesman." - *London Truth.*

Scientific Treatment.

The scientific treatment of a prostrated patient had been discussed at all lengths many a year ago by some of our contemporary writers. I have been able to find no reference to it in any of our scientific journals, and it is a pity that such a scientific treatment should have been overlooked for so long a time. I have been able to find no reference to it in any of our scientific journals, and it is a pity that such a scientific treatment should have been overlooked for so long a time.
