REACTIONARY INSTRUCTION.

Ohio State Journal. Dr George W. Deem, of Hilliards, made a good point in his recent address before the Franklin county teachers' institute...

Children are not fools. When they are told that every man who once tastes liquor goes through life a broken down cripple in mind and body, they know that it is false...

One of the text-books on hygiene states that one drop of nicotine placed on a dog's tongue causes the instant death of the dog, and that every time a man smokes a cigar he takes into his system three large drops of nicotine.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

'Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy,' says Mr. John Hamilton, of Eagle Pass, Texas. 'I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved, and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind.' For sale by all Druggists.

COVE.

Sept. 18.—Crops are generally short around our place, especially cotton. About half a crop is looked for in wheat and tobacco is too low to pay the expense of grading and hauling to market therefore the farmers do not seem so lively as they did last year.

We learn that the tobacco market was better yesterday.

The first seed cotton we have seen in market came in this morning and sold between 3 and 4 cents per pound.

Messrs White Bros. will start their gin this afternoon. Some of our farmers are anxiously waiting for it so they can get their cotton off while prices are up.

The gin has been delayed a few days on account of the non arrival of some of the machinery.

Three new buildings have been started in our little town recently and good prospects for more soon. If those that have the capital would only invest it our place would be double in size in less than two years.

Quite a number of visitors in town this week, too many to give all their names.

Mr Kenneth Harris went to New Bern today to see the game of ball between New Bern and Bayboro.

Mr Burket of Dover will soon open up a grocery store on Railroad street which makes seven in all.

CYNICISMS.

If you propose to do as you please why ask advice? A train can't wait so long that somebody won't get left.

It doesn't like much to convince a man that a woman is in love with him.

Half the people you see running are not trying to catch up, but imagine themselves pursued.

When you get on style, there is always some one in the world to refer to it as 'your attempt.'

Think a man once, and it is enough, but think a woman seventeen times and smile gratefully for six years afterward.

There are some people whose use in the world it would be so hard to define as the use of the pieces of paring drawn around meat on the table.—Atchafan Globe.

Some people talk as if they thought everything that dropped from their lips was a 'hot seat.'—Atchafan Globe.

Let us Rally.

Manager J. O. Green has given us some fine attractions to only moderate sized audience. We cannot expect marvellous dramatic offerings unless our citizens support him in his efforts. In presenting 'The Imprudent Young Couple' he does so only by means of a big guarantee to the company, and unless a large audience is accorded this attraction it would not be reasonable to expect more of such a high grade.

DANGER IN THE HIGH DIVE.

Swimmers are frequently injured as they dive from a high diving board.

When you dive from a high diving board, you are liable to get a bad cold, or worse, if you do not take care.

The best thing I know of to bring one quickly to the surface in high diving is to have a piece of cork fastened under each arm.

Cork weighing four ounces each is sufficient, strapping one to each arm, get 250 yards in weight. There are many devices by which the cork can be kept secure under the armpits.

These with weak hearts, the expert diver, cannot be too strongly advised against high diving. The springing the cork through space, the lungs and the rushing and clearing of the water are altogether too exciting for weak hearts, and especially so in cold weather.—Philadelphia Ledger.

A Miner's Last Wish.

A Greek died in the small town of Oronoco, having always lived on the same of his compatriots. Before dying he made his wife swear that she would bury him in the dirt, old creature, which he wore every day. The Greek woman had to ask the Greek. Carried to help her to provide the funeral. A good hearted Greek went to see her to her affliction pointing to the body, said he we give her a better coat to bury the dead. Then she told him of the Greek's last wish. The Greek, who was a very rich man, said that she should certainly not part with the body before the had well examined the coat for there must be some particular reason for the request. The widow unfolded the lining of the overcoat and found \$5,000 in bank notes which the miser wished to take into the grave with him.

Home Duties

The real heroines of every day are in our homes. Frequently, however, it is a mistaken and useless heroism. Women seem to listen to every call of duty except the supreme one that calls them to guard their health.

FREE MEDICAL ADVICE TO WOMEN. If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter.

For proof read the symptoms, suffering and cure recited in the following letters:

'DEAR MRS. PINKHAM:—I wish to express to you the great benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. My trouble was female weakness in its worst form and I was in a very bad condition. I could not perform my household duties, my back ached, I was extremely nervous, and I could not eat or sleep, and the bearing-down pains were terrible. My husband spent hundreds of dollars to get me well, and all the medicine that the doctors prescribed failed to do me any good; I resorted to an operation which the physician said was necessary to restore me to health, but I suffered more after it than I did before; I had hemorrhages of the womb that nothing could seem to stop.</
