### THE NEWS IN A NUTSHELL.

Outfit Jett, the alleged murderer of lawyer Marcus in Kentucky, was found guilty at his second trial Tuesday and it is said will be sentenced to be hanged.

Cardinal Gibbons has returned to his home in Baltimore after a summer's sojourn in Europe. He was in Rome during the sickness and death of Pope Leo and participated in the election of Pope Leo.

The hearing of the case of former Lieutenant-Governor James H. Tillman of North Carolina for the murder of Ed. For Governor has been postponed until next Monday. This is the third hearing granted Tillman. Over a thousand citizens are in Lexington awaiting to hear the trial.

The latest dispatches concerning the Turco-Bulgaria affair is of the same old stereotyped import, that it is war or peace in forty-eight hours. The fact seems to be that the two nations are afraid of each other, and there will be perhaps no fight at all.

A stranger, undoubtedly a crank, was found in the vicinity of Oyster Bay, President Roosevelt's summer home, Tuesday, acting suspiciously. He was detained and searched by the secret service men but nothing was found of a dangerous nature. He was sent out of town. He was a Scandinavian and spoke English very poorly.

The Panama Canal treaty is practically dead. The failure of the Colombian government to approve it Tuesday was the last blow. Now it's the Nicaraguan route or no canal. Senator Morgan of Alabama, declares it is best for this country that the Panama scheme was rejected.

### Delay Explained.

Raleigh, Sept. 23.—The delay in the issue of magazine rifles to the National Guards is due to the fact that the quartermaster general who has charge of the payments to troops from government funds desires to complete that work before making the issue.

### Climate and Crop Report For August.

Raleigh, Sept. 23.—The climate and crop report issued by G. F. Van Herrman for North Carolina, for the month of August, was issued today. It says the chief feature was the brief but intense hot period from the 26th to the 29th during which the maximum was over 100 degrees at several stations. The only other feature was the great excess of rainfall at many eastern stations, notably Wilmington. The hot wave was of short duration, as compared with similar ones in August 1896 and 1900, when temperatures above 90 degrees occurred for 15 and 25 days in succession, and yet crops were not badly injured. The mean temperature for the month, 76.7 degrees, is slightly over half a degree above the normal for the past 23 years, and the average rainfall 5.26 inches, is a little over half an inch below the normal. At Henderson on the 18 there was a remarkable rainfall of 8.10 inches in two hours. The number of rainy days for the month was large. The highest monthly mean temperature was 81.4 degrees at Southport, and the lowest 65 at Lenoir. The highest absolute temperature was 108, on the 23rd at Selma, the lowest 45 degrees at Lenoir. The greatest excess of rainfall occurred at Wilmington, being 5.88 inches above normal. The greatest State average rainfall recorded for August was 15.15 inches, 1901, while the least was 2.31 inches in 1896.

### Midwinter Meeting Press Association.

Raleigh September 23.—President Varner of the State press association will meet with its executive committee at Charlotte tomorrow to select the place for the next meeting, which is to be known as the midwinter meeting, this being an innovation as heretofore the meetings have only been held in the summer. Invitations are in hand from Washington D. C., Baltimore, Charlotte, Greensboro and Jackson Springs. Mr. Varner thinks the meeting will be held at Washington or Baltimore.

### Convicts Captured.

Raleigh September 23.—The finding of the two convicts Melvin and Rice hidden in a loft at the penitentiary gave great pleasure to the officials. Some very daring escapes have been made from the prison and some equally daring attempts have failed. It is thought that these men had attempted to dig a sort of tunnel under part of the administration building in order to get into the front part of the penitentiary grounds. This discovery was made several days ago, while searching for these men.

### THURMAN ITEMS.

Sept. 23.—The storm during the past week did but little damage in this section. The wind blew a gale for quite a time, but the rain season was fine.

Cotton continues to show rust and shedding. That planted after truck will be at least one-third short of what was expected three weeks ago. Early planted cotton is rusted very badly and opening fast. The lint is short and not turning out as many pounds to the hundred as it has for the past two seasons.

Ray and fodder saving is keeping the farmers busy.

Miss Sadie Connor left Tuesday to visit friends and relatives at Harlowe and Bladen.

Mr. N. Taylor of North Harlowe who was visiting Mrs. J. W. Connor, returned to his home Saturday.

Mr. Walter Smith spent Sunday at Opeake visiting his best girl. He was accompanied by Mr. Lee Hardison, who went on a "prospecting" trip. He says he was quite successful and thinks he will go again.

Messrs. Geo. L. Connor and Clyde L. Hardison delegates from Riverside Sunday School to District Sunday School Conference at Dover, left this morning in a special conference.
