NORTH CAROLINA'S RELATIVE BANK.

Asheville Citizen.

In 1890 North Carolina ranked sixteenth in population among the States and Territories of the Union, and in 1900 she ranked fifteenth.

In gross value of agricultural products her rank in 1890 was 23d and in 1900, 20th. In value of manufactured products she advanced from 31st to 28th. In net value of manufactured products this State ranked 27th in 1900. This has doubtless been reduced by one and perhaps two since.

In manufacture of cotton North Carolina ranks third, in oil, cotton seed and cake, tenth; in furniture, twelfth; in fertilizers twelfth, and in lumber and timber, fourteenth.

In agriculture she ranks 26th in amount of wheat raised; 20th in corn; 8th in cotton; 2nd in tobacco, and 1st in sweet potatoes.

In 1900 North Carolina raised $47 in value of agricultural products to each person of her population, against $31 in 1890.

Her manufacturing products in 1900 were $50 per capita, against $25 in 1890 or double for each person of her population in ten years.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Indicating a Genius.

Our ancestors were more indulgent and respectful to the eccentricities of men of genius than is the present generation. Byron was accepted and patiently tolerated when he chose to sit in moody silence throughout a dinner party given in his honor, scowling contemptuously at the delicious food before him, while he sipped vinegar and munched a cracker.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

A Soft Pack.

A soft pack is the most effective method known for alleviating inflammation and getting rid of irritation in rheumatic gout. To afford relief every night a piece of flannel should be applied. This flannel should be saturated in brine and then wrapped around the affected joint or joints. The flannel should then be covered with a rubber or oil silk bandage. Both should be kept on all night.

Ether and Either.

When the friends of the rival claimants of the discovery of anæsthesia were proposing monuments for each other Oliver Wendell Holmes suggested that all should unite in erecting a single memorial, with a central group symbolizing painless surgery, a statue of Jackson on one side, a statue of Morton on the other and the inscription beneath, "To Either."

Odd Chinese Custom.

In China a jar placed on the roof of a house with the bottom end toward the street indicates that the daughter of the house is not yet of age to marry. As soon as she has developed into a marriageable maiden the jar is turned with its mouth toward the street. When the young lady gets married the jar is removed altogether.

A Cure For Dyspepsia.

Even Dyspepsia in its worst form and the miserable ones all the time. Did not enjoy eating until after I used Kodol Dyspepsia Cure which has completely cured me.—Mrs W W Hayes, Hilliard, Fla. Its effects like those of strength, permanent, headache, constipation, bad taste, sour stomach, indigestion, dyspepsia and all stomach troubles are quickly cured by the use of Kodol. Kodol represents the natural juices of digestion combined with the greatest known tonic and digestive properties. It cleanses, purifies and sweetens the stomach. Sold by F S Duffy.

A. B. Baxter's Cotton Letter.

New York, Oct. 16.

Higher Liverpool cables led to extensive short covering and rapid advances at both the call and after. At our opening Liverpool was 8 to 11 higher than last night or fully twice as high as was expected. It was probable the English market was influenced by low temperatures South, and prospects of frost. Todays map showed cold weather and it is wet in Southwestern sections. There was frost in Kansas and killing frost at Amarille, Texas. Port receipts light also. Offerings were mostly in the nature of profit taking. Spinners active buyers. Receipts today 47,000 against 53,000 last year.

A Thousand Churches

In the United States have used the Longman & Martinez Pure Paints during the past ten months.

Every Church will be given a liberal quantity whenever they paint.

Don't pay $1.50 a gallon for linseed oil, which you do when you buy it in a sealed can with a paint label on it.

8 & 6—14, therefore when you want fourteen gallons of paint, buy only eight gallons of L. & M. and mix six gallons of pure linseed oil with it.

It will make fourteen gallons of paint.

It's done easily.

It makes the paint cost you only about $1.20 a gallon.

You probably won't need more than ten or twelve gallons of it, because the L. & M. Paint covers so much more surface than other paints.

Sales have been tens of millions of gallons; nearly two million houses painted under guarantee to repaint if not satisfactory.

A Feeling of Security.

"I'm so surprised to hear your wife likes the house so much; it's so small."

"Yes, but there are lots of closets in it."

"True, but they're extremely small too."

"That's just it. My wife is satisfied that not one of them is big enough to hold a burglar."—Exchange.

Used the Whole Book.

"That count," said Miss Baltimore, "will never do for me. He is too wasteful and prodigate in his habits."

"Why, what has he done now?" asked her friend.

"Done! Why, he had the nerve to write his full name, titles and addresses in my autograph album."—Baltimore News.

Her Ambition.

"Won't it be splendid when we can talk to the people of Mars?" exclaimed Mr. Meekton's wife.

Mr. Meekton roused himself from his semidoze and exclaimed:

"What's the matter, Henrietta? You haven't got all through with the people of this earth, have you?"—Washington Star.

His Choice.

"What kind of breakfast food do you prefer?" asked the landlady of the new boarder.

"Flannel cakes and pure maple syrup, buttered toast, ham and eggs and coffee," replied the young man, who had his appetite with him.—Detroit Free Press.

A Love Letter.

Would not interest you if you're looking for a guaranteed Salve for Sores, Burns or piles. Otto Dodd, of Pender, Mo., writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best salve on earth." 25c at C D Bradham's Drug Store.

Mrs. Emmons, saved from an operation for Ovaritis, tells how she was cured by Lydia E. Pinkham's Vegetable Compound.

"I am so pleased with the results I obtained from **Lydia E. Pinkham's Vegetable Compound** that I feel it a duty and a privilege to write you about it.

"I suffered for over five years with **ovarian troubles**, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—**and saved me from an operation**—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true grateful feeling that is in my heart, and I want to tell every sick and suffering sister, Don't daily with medicines you know nothing about, but take **Lydia E. Pinkham's Vegetable Compound**, and take my word for it, you will be a different woman in a short time."—MRS. LAURA EMMONS, Walkerville, Ont.

—$5000 forfeit if original of above letter proving genuineness cannot be produced.

Don't hesitate to write to Mrs. Pinkham if there is anything about your case which you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address is Lynn, Mass.

Threadneedle Street.

Threadneedle street is a corruption of Thridenal street, meaning the third street from "Chepesyde" to the great thoroughfare from London bridge to "Bushop Gate" (consisting of New Fyshe streate and Bushop Gate streate, Anglo-Saxon, thridda, third). Another etymology is Thrig-needle (three needle street), from the three needles which the Needle Makers' company bore in their arms. It begins at the Mansion House, and therefore the Bank of England stands in it. The directors of the Bank of England were called "the old lady in Threadneedle street" by William Cobbett because, like Mrs. Partington, they tried with their broom to keep back the Atlantic waves of national progress. After giving the foregoing, Brewer notes the following extract from Dickens' "Dr. Marigold:" "A silver curi paper that I myself took off the shining locks of the ever beautiful old lady of Threadneedle street" (a bank note).

SCRAPS OF SCIENCE.

An electric pickpocket alarm has been invented by a man in Manchester, England.

The experiments of Muller prove that if microbes be placed in a gun barrel the wound made by a bullet fired from it would be infected by the microbes.

Commercial phosphorus is satisfactorily made by mixing the finely powdered phosphate material with carbon and sand in the electric furnace and then, when heated, distilling the phosphorus from the mass and collecting it under water.

Such common substances as sugar, glucose and chalk having been found to absorb sunlight all day and to give it off in rays during the night, the discovery of some means for rendering these rays useful in illuminating houses at night with little expense seems a possibility of the near future.

The thorium atom, universally believed since its discovery by Berselius three-quarters of a century ago to be a single and indivisible particle of matter, now appears as the progenitor of five new substances, even more elemental than itself, evolved by successive and spontaneous changes within its substance.

The scientific reason for the popping of corn has been investigated by Professor Kraemer of Philadelphia, who finds that the endosperm is more or less translucent and horny and its cells contain closely arranged polygonal starch grains having a central rarefied area. The degree of the expansion of these cells depends upon the relative amount of water and air in the grain.

Love Is the Mainspring.

Political economists have told us that self interest is the mainspring of industry. It is not true. Love is the mainspring of industry. It is love for the home and the wife and the children that keeps all the busy wheels of industry revolving; that calls the factory hands early to the mill, that nerves the arm of the blacksmith working at his forge, that inspires the farmer at his plow and the merchant at his desk, that gives courage to the soldier and patience to the teacher.

Erskine was asked how he dared, as an unknown barrister, face a hostile court and insist on his right to be heard. "I felt my children," he replied, "tugging at my robe and saying, 'Here is your chance, father, to get us bread.'" It is this vision of the children dependent on us that inspires us all in the battle of life.—Rev. Lyman Abbott in Atlantic.

Gained Forty Pounds in Thirty Days.

For several months our youngest brother had been troubled with indigestion. He tried several remedies but got no benefit from them. We purchased some of Chamberlain's Stomach and Liver Tablets and he commenced taking them. Inside of thirty days he had gained forty pounds in flesh. He is now fully recovered. We have a good trade on the Tablets.—Holley Bros. Merchants, Long Branch, Mo. For sale by All Druggists.

THE MILKY SEA.

A Curious Sight Occasionally Witnessed in Tropical Waters.

Of the many sights witnessed in the oceans of the globe one of the most curious and most weird is that described by sailors as "the milky sea," ships being surrounded for several hours by water that appears to be a snowy whiteness. The spectacle is restricted to the darkness of night and rare occasions, and, while it is limited mainly to the warmer waters of the tropical belt, it appears to be more common in the Indian ocean than in the Atlantic and Pacific. From the white water the light is so strong that ordinary newspaper print can be read on board ship, but the scene all round is of an awe inspiring description. The horizon is blotted out, sea and sky seem to become one in a sort of universal luminous fog, which, like a London fog, robs the observer of the sense of distance and direction, the deck being lit up with a ghastly, shadowless light. Once off the west coast of South America a bucket of the white water emptied back into the sea resembled molten lead. This curious sight has interested scientific investigators, but while it is no doubt related to the many phosphorescent displays common at sea there is no sufficient explanation forthcoming of this particular manifestation or of the singular atmospheric effects resulting from it.

Charles V. at Table.

Emperor Charles V. of Austria, by far the most powerful ruler of his day, was thus described as he appeared at table by Roger Ascham, secretary to the English ambassador, in 1550: "I stood hard by the emperor's table. He had four courses; he had sod beef—very good, roast mutton, baked hare; these be no service in England. The emperor hath a good face, a constant look; he fec well of a capon; I have had a better from mine hostess Barnes many times in my chamber. He and Ferdinando, king of the Romans, ate together very handsomely, carving themselves where they list, without any curiosity. The emperor drank the best that ever I saw; he had his head in the glass five times as long as any of us and never drank less than a good quart at once of Rhenish wine." It was notorious that the emperor ate and drank immoderately, and as a natural result he suffered terribly from gout from the time he was thirty years old.

Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an anti-septic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all Druggists.

The Arabic Language.

There is no language more poetical than the Arabic language, where snow is called "hair of the mountain" and the rainbow is "bride of the rain." Red mullet is "the sultan of fishes," maidenhair fern is translated by "little cane of the well." Ordinary Arabic words show an extraordinary gift of description. The word for secretly means literally "under the matting" and never is expressed thus: "When the charcoal takes root and the salt buds." Uncontrolled ascendency of imagination marks the Arab and endows his nature with a fascination all its own. An outdoor life is his heritage, and the things of nature are a part of himself. Spring he calls "grass;" summer is "gleaning;" autumn is "fruit;" winter is "rainy."

SO DIFFERENT.

Home indorsement counts.
It disarms the skeptic, is beyond dispute.
This is the backing that stands behind every box of Doan's Kidney Pills Here is a case of it:

Charles F Burget, a car painter at the A. & N C R R shops, residing at 67 Bern street, says: "I have found great relief by using Doan's Kidney Pills. My back has been hurting me for a long time, often so bad that I could not work. The kidney secretions were very dark and cloudy. Since using Doan's Kidney Pills the secretions have regained their natural color and I do not suffer from the pains in my back at all. I can advise all who are similarly troubled to what I was to go to Bradham's Pharmacy, procure Doan's Kidney Pills and give them a trial.—They will not be disappointed in the results."

Most Probably an American.

A woman went into a chemist's in London recently and asked for some article which is generally to be procured at a shop of this kind.

The man of mixtures, replying to the customer's inquiry, said: "Madam, I do not possess what you require. I am a chemist, pure and simple."

"I don't know anything about your purity; there's no doubt about your simplicity," retorted the disappointed woman as she retired from the counter.

Complimentary.

Irate Daddy (suddenly coming upon a highly emotional love scene in a cosy corner)—What! Kissing my daughter! Is this the way you reward my confidence and respect for you in admitting you to my home?

Young Man (calmly)—It strikes me that I am paying you the highest compliment possible.—Baltimore American.

Easily Doubled.

Goodart—Here's a brand new five dollar bill, old man. I'll lend you that.

Boroughs—Oh, say; can't you double it?

Goodart—Sure. Here goes! I double it—so!—now I double it again—thus. In this shape, you see, it fits snugly in my pocketbook. So long!—Exchange.

If people do not naturally appreciate you, do not insist that they shall. It only makes matters worse.—Atchison Globe.

A Perfect Painless Pill

is the one that will cleanse the system, set the liver to action, remove the bile, clear the complexion, cure headache and leave a good taste in the mouth. The famous little pills for doing such work pleasantly and effectually are DeWitt's Little Early Risers. Bob Moore of Lafayette, Ind., says: "All other pills I have used gripe and sicken, while DeWitt's Little Early Risers are simply perfect." Sold by F S Duffy.

British Emergency Ration.

Every soldier in the British army carries in his haversack what is known as the "emergency ration." This consists of a small tin cylinder, similar to a pocket spirit flask, divided into two compartments. One of these is filled with four ounces of cocoa paste, and the other contains a similar quantity of concentrated beef (pemmican). As its title implies, the ration is not to be used except in the case of direst necessity, and if consumed in small quantities it will maintain strength for thirty-six hours.

Many Mothers of a Like Opinion.

Mrs Pilmer, of Cordova, Iowa, says: "One of my children was subject to croup of a severe type, and the giving of Chamberlain's Cough Remedy promptly always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children." For sale by All Druggists.

SOME EXERCISE A HABIT.

Healthy stimulation is an absolute need; without it the body will rust and fail in fats. The baby that never creeps about or kicks or exercises at all either wastes into a tiny midget of bones and wrinkles or else takes on pounds of unhealthy fat and becomes dull look, aloof, breathed and without vitality.

The brain that never calls upon it self for work must become dull and stupid, and it is the same way with the digestive organs of the body. They are filled with blood vessels that should be up and doing. The blood has several purposes, and one is to carry away much of the waste fluids of the body. The lungs are a sort of refinery, and the blood is a distilling agent. If the blood becomes thick and unhealthy and sluggish the body does not keep its youthful state. Eyes grow dull, lips lose their redness; the complexion is sallow and unlovely.

It is an easy and simple matter to make exercise a habit, just like the habit of putting out the lights at night and wondering if burglars will show up before morning.

A most excellent exercise is to take long, slow full breaths whenever you have a chance—when you are waiting for a car, when you are walking, when you are going to sleep, when you have just awakened.

Such habits are valuable, most valuable, but because they don't cost anything and are a little trouble for a woman fancy there is nothing in such practices. Nonsense! Look at the athletic men that train. They are the healthiest, strongest, finest looking creatures in existence.

Go thou and do likewise on a little scale.—Chicago Record-Herald.

Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by all Druggists.

Green Pineapple Juice.

The juice of the green pineapple is accredited in Java, the Philippines and throughout the far east generally with being a blood poison of a most deadly nature. Health mentions it as the substance with which the Malays poison their excuses and daggers and as the "finger nail" poison formerly in use among aboriginal Nicaraguan women almost universally. These women cultivated a nail on each hand to a long, sharp point, and the least scratch from one of these was certain death.

Putting a Point.

A story used to be told at Cairo of the method Owen Jones, one of his lodgers in Egypt, the great architect, was dosed in the upper room of Verandah at Sheppeard's hotel when the inevitable snake charmer came to him and produced from his bag a lively specimen of the hooded cobra. Jones, nothing daunted, stepped and produced the worst from the pocket of the coat he was wearing at the time, and showed to the bystander that the man would probably think twice before trying to palm off upon any one else a harmless snake as a cobra—by the aid of a cigarette.

Confessions of a Priest.

Rev. Jno S Cox, of Wilkesville, Ohio, writes: "For 12 years I suffered with a severe case of dyspepsia. I consulted a number of physicians and took their medicines, but got no relief. I finally began the use of Kodol Dyspepsia Cure and was entirely cured by one bottle. I have since recommended it to many of my friends and parishioners and they all speak highly of it." Not Very Far Wrong.

In one of the public schools on one occasion, while an examination was in progress in one of the eighth grade classes, the teacher inquired of one of the sweet girl pupils:

"What form of government have we in the District of Columbia?"

The pupil hesitated an instant. Recalling that the district commissioners had been busy making addresses at the several commencements then in progress, she explained in true schoolgirl style:

"In the District of Columbia we have an oratorical form of government."—Philadelphia Press.
