during his life.

Daily has he been pointed out as stingy and selfish, unapproachable and out of sympathy with his fellow man, always misunderstood, and even when the man's benefactions are made public, he is alone in his grave, and deaf to the scant words of praise which may come from those benefitting in his death. He has benefitted mankind not in his living, but in his death. He has missed the real joy in life, that of giving and feeling the zest which went with the ac-

tion, in the bestowal of some true and worthy gift.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Oure is taken internally, [and sote directly on the blood and mucous surfaces Hall's Catarrh Ours is not a quack medicine. It was preacribed by one of the best physicians in this country for years and is a regular prescription. It is com-posed of the best tonics known, com-bined with the best blood purifiers, act-ing directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonder ful results in ouring Catarrh. Send for onials free.

Churches as Places of Refuge In War Our ancesto a transacted a good deal of business of one kind or another in and about their churches. To begin with, the churches of old England in

turbulent times were regarded as places of safe custody for public and pervate property. In the horder land of England and Scotland the idea was strried out still more completely, and bunches, or at least their towers, be nime regular fortresses and not inrequently were objects of offense and defense. We may note in rural England that in the case of ancient church es the towers are often not merely disproportionate in size to the rest of the burch, but are carefully and strongly

built, evidently with an object. Even in peaceful Surrey and Susse Even in peaceful Surrey and Sussex the belfries are veritable strong rooms with barred windows and massive doors and often contain a massive treasure chest. Hither, at the first alarm, money and valuables were hur-ried, for beyond the security of thick walls and bars and bolts there was an mgls of sanctity which in a supersti-tious age protected the building from the most ruthless of foes. The fortress-like construction of many of the bor-der land churches is an interseting study of antiquarians,-London Stand-ard,

Pleasant to Take.

The facet quality of gravulated lost sugar is used in the manufacture of Obsenbertain's Gough Remedy, and the roots used in its preparation give it a flavor atmillar to take.
