DISTILLERY ATTACKED

By Croatan Indians, One Killed, One Wounded.

Tobacco Farmers Not Getting Expenses For Crop, Dr. Cy Thompson, Wood Famine Threatened, Polk County Home Burned.

RALPH, Nov. 20.—Revenue officers report that last night two Croatan Indians went to the registered distillery of Mr. Sheets, six miles from Hamlet and on the North Carolina line, and attacked and shot at Manager Finger, of the distillery, that he returned the fire, killing one and wounding the other.

Revenue officers made a raid yesterday near Franklinton and captured and destroyed an illicit distillery. Several men who were working at the distillery fled, paying no attention to the orders of the officers to halt. The officers fired several shots in the air in an effort to stop the men, but the latter only ran the faster.

Secretary of State Grimes, who is so prominent in the State Tobacco Growers Association, says that as yet the farmers are not getting enough from the sales of their tobacco crop to pay the expenses of raising it.

Dr. Cyrus Thompson, ex-secretary of State, is here, and says he will, on the first of next year resume the practice of medicine. He will make his home at Jacksonville, Onslow county. He has been several years since he has practiced. He will devote much of the winter to study.

Wood is very scarce here; in fact scarcer than ever before. A large owner of timberlands says it is very difficult to get labor to cut wood, and that he has offered forty cents a cord, but in vain he added that if a severe snow storm were to come now, there would soon be a wood famine at this point.

It is learned from farmers that there is more pork this year than last. There has been but little cholera among hogs this year, while last year this disease caused the loss of many animals.

Chief Clerk Henry K. Brown of the Corporation Commission returned today from New Orleans, where he attended the annual session of the railway commissioners from the Southern States. Commissioner Samuel L. Rogers, who also attended the meeting has not yet returned.

It is learned that the county home of Polk county, at Columbus was burned Wednesday night and that several inmates were burned to death.

An effort will be made by some persons here to secure the release of T. L. Roth, who is in jail for selling obscene books, on the ground that he is of unsound mind. He has lived at various places in the State, at one time at Chatham. He there abandoned his wife, who on that ground secured a divorce from him.

Early next year the publication of the North Carolina Law Journal is to begin, under the auspices of the State Bar Association. Some of the ablest lawyers in the State will be interested in its publication.

Most of the Methodists are greatly pleased at the tender by Prof. Bassett of his resignation of his professorship at Trinity College. It appears to be the general belief that had he not resigned the trustees at their meeting Tuesday would have displaced him.

ONLY GUARANTEED CATARRH CURE
Hymenol Costs You Nothing if It Fails says
P. S. Duffy.

Among the many medicines upon the market that claim to cure catarrh, none but Hymenol has enough faith in its own merits to be willing to refund the money if it does not cure.

This remarkable remedy for catarrh kills the microbes and the germs of the disease and from its introduction has been sold under a positive guarantee to return the money to all dissatisfied purchasers.

P. S. Duffy has sold a great many Hymenol outfits in the last few years, and he stands ready today to refund the price to any one who has not been helped by Hymenol.

The complete Hymenol outfit costs \$1.00 and comprises an inhaler, a bottle of Hymenol and a dropper. The inhaler will last a lifetime, and additional bottles of Hymenol can be obtained for 50c.

Breathe Hymenol for a few minutes four times a day, and your catarrh will grow better from the first day's use and will be completely cured in a short time.

Do not try to cure catarrh with ordinary stomach medicines. Breathe the healing Hymenol which goes to every part of the six passages and respiratory organs killing the poisonous germs and preventing their growth.

It is the only treatment for catarrh where you can get your money back from a local dealer in case it does not help.

U. D. C.

Mrs. F. A. Olds President N. C. Division, Tells of Charleston Convention.

Raleigh, Nov. 20.—Mrs. Fred A. Olds, the president of the North Carolina Division, United Daughters of Confederacy, has returned from Charleston where she attended the general convention of that order. In the course of an interview regarding what the North Carolina delegation did there, Mrs. Olds said:

"In the General Convention U. D. C. held in Charleston, last week North Carolina cast 92 votes as a State Division. Had all the chapters in the State sent in their credentials naming a proxy, in case their delegates could not attend the vote would have been larger, but six chapters were reported 'Not Represented.' The principal things done by the North Carolina delegation were as follows:—It was the only State that reported a change in the State Constitution and By Laws,—the principal change being the insertion of the word 'White' in the eligibility clause. North Carolina championed the cause of the Child Dren of Confederacy and asked that they be given some representation in State and General Conventions, no matter how small, and it is hoped that the seed thus sown will yield some little harvest. We cannot leave these children, our work to be done solely factually unless we train them by personal observation to conduct these conventions and carry out the ideas and plans proposed and started by older heads.

Another stand that North Carolina took at Charleston was against the present Custodian of the Cross of Honor, Mrs. S. E. Galbraith. When in the election of our officers the vote was called for by roll of states, on the Custodian, North Carolina with no uncertain voice cast her vote '93 against Mrs. Galbraith.' In the nominations for the office of Custodian one of the delegates from Texas nominated Mrs. William M. Parsley of North Carolina. Mrs. Olds, the president of the N. C. Division, knowing that Texas was divided in its vote, and not being sure Mrs. Parsley would accept the work asked that her name be withdrawn. This was done, but North Carolina will be heard from in future conventions on this subject."

Mrs. Olds will in a few days give an account of the entire work of the convention. North Carolina again leads in the amount of her contributions for the Davis Monument fund; total \$3,888.

Dr. Hartman, President of The Hartman Sanitarium, devised the remedy, Peruna, over forty years ago, and the remedy as a catarrh cure has been growing in favor steadily all these years. It stands to-day before the nation as a thoroughly tested, accurately scientific

UNITED STATES SENATOR THURSTON,

The Brilliant Statesman from Nebraska, Makes an Important Public Utterance.

INTERIOR OF THE UNITED STATES SENATE CHAMBER.

Ex-Senator John M. Thurston, of Omaha, Nebraska, is one of the most prominent and influential men in the country. He made the speech nominating President McKinley at the St. Louis convention, and was made permanent Chairman of this convention. He was also made Chairman of the convention that renominated the late President McKinley at Philadelphia. He was appointed by President McKinley to be Chairman of the St. Louis Exposition Commission. This prominent gentleman recently wrote the following letter to The Peruna Medicine Co., of Columbus, Ohio:

Washington, D. C., April 6, 1901.

"I have used Peruna at various times during the past year or two with most satisfactory results.

"It entirely relieved me from an irritating cough—the result of excessive effort in the presidential campaign, and I am a firm believer in its efficacy for any such trouble."—John M. Thurston.

Catarrh has already become a national curse. Its ravages extend from ocean to ocean.

More than one-half the people are affected by it. It has become such a serious matter that it has passed the boundaries of the medical profession and become a national question. Senators are talking about it; Congressmen are discussing it.

They are not only considering the extent and chronic nature of the disease, but the possibility of finding a national remedy to meet this national calamity. The catarrh remedy, Peruna, seems to be the main expectation in this direction.

Dr. Hartman, President of The Hartman Sanitarium, devised the remedy, Peruna, over forty years ago, and the remedy as a catarrh cure has been growing in favor steadily all these years. It stands to-day before the nation as a thoroughly tested, accurately scientific
