valls here to- day concerning the situstion in the far east. The gravity of the ion is exemplified in the activity about the Japanese legation and the foreign office which is usually quiet duing this part of the holidays

A powerful squadron consisting of six ermored cruisers and Admiral Hamimurs are expected to leave Sasehe tonorrow for the port of Masamphe in Korea, Sasehe is a Japanese port twenty five miles north west of Nagasaki and the Japanese naval base of operations. The thoroughness of Japan's prepar-

ations is pronounced superior to that of Germany prior to the Franco-Prussian war, It is anticipated that in case of war Korea will be the scene of the earliest large operations. The invasion of China territory other than by Korea and across the Yule river, it is thought, will depend on the nature and extend of the Chinese efforts to expel the Russians from Menchuria.

Sacho will be the principal army base whither the emperor and his war councillors will go to direct operations.
