JAPAN INTERFERES IN COREA

Because of Disorders. Troops Reported Landed. Russian Troops To Move Peace Abandoned.

Special to Journal.

Seoul, Jan. 23—Disorders in Corea by appointment of the new cabinet has caused great excitement and given Japan an excuse to interfere.

It is said twelve thousand Japanese troops have landed at Masanpho.

It is expected that the Russian troops at the Yalu river will march to Seoul immediately.

A Tokio paper says all hope of peace is now gone.

THE NEWS IN A NUTSHELL.

Grand Duke of Russia, broke the Bank of Monte Carlo playing roulette, winning over $50,000.

Dispatches from St. Petersburg state that the czar and government officials are strongly in favor of a settlement of the difficulties with Japan owing to discovery by Viceroy Alexeff that only provisions for two hundred thousand for six months are at Port Arthur instead of two years.

A tornado destroyed five houses north of Birmingham and many persons are reported injured.

An inventory of the personal loss, taken by President McIver, of the students burned out in the fire aggregates $17,000

Robbers held up the Sunset Limited, northbound, on the Southern Pacific near San Luis Obispo and stole the safe from the express car, securing booty estimated as high as $80,000.

The Iroquois Club, to which many leading Chicago Democrats belong, is preparing to launch a presidential boom for General Nelson A Miles.

B A Erlock, who claimed that mythic influences were at work on him, bidding him till the president has been arrested in New York.

The recent warm rains have caused the ice gorges in the western rivers to move and great damage is being done.

TURN ON THE MOON.

Or Something Just as Good to Show the Night Wanderer Where He's at.

The citizens of New Bern will be glad to have the Water and Light Commission make an announcement in some way or other just when the street lamps are going to be out, or rather, when they are going to burn. It has been a source of much annoyance on several late occasions to have the streets dark with only the friendly beacon from some house to show the pedestrian whether he was walking in the middle of the street or on the sidewalk.

Last night the lamps were burning brightly and of that there is no complaint. The night before they were turned on at a late hour—the city being in darkness until nine o'clock or later. A few nights previous they did not shine at all; and so it goes. It is not so bad, of course, that we have lost all dependence in them whatever but the service is getting rottener and rottener and rottener and there is no telling where it will end.

If worst comes to worst the people may have to buy lanterns and keep them in readiness against the time when the lamps shine not.

Another complaint is heard on this account. The lamps in many parts of the city are dark when they are shining in other parts. The trimmer has neglected his duty and the people suffer. It often happens that this is the case in the worst places torn that is, where crime is most apt to be committed.

The Journal has hesitated calling attention to this fact believing that the fault would be only temporary; but there has been so many complaints that we feel justified in writing this article.

Home Mission Items.

The first Japanese church in America of the M E Church South, was organized November 22, in Alameda, California. This is one of the fruits of the seed the Woman's Home Mission Society has been sowing in that field. Mr. Yamaguyama a native minister of Japan will be the pastor and we trust that a strong church will soon grow up and greatly extend God's kingdom among the Japanese of this coast.

Is It Any Harm?

Do not be saying "Can I do this, and can I do that?" or "Is it any harm?" Christianity is not a no-harm religion, it gives a means some good.

When you have a question, do not stop and ask "Is it any harm?" but ask "Is it any good?" Keep away from the danger line. The devil has practiced on this old world for over six thousand years now, and he is pretty skillful at his trade. His years have put him out of service in the theological schools of the world, but he is still skillful at getting rottener and rottener and rottener and there is no telling where it will end.

If worst comes to worst the people may have to buy lanterns and keep them in readiness against the time when the lamps shine not.

Another complaint is heard on this account. The lamps in many parts of the city are dark when they are shining in other parts. The trimmer has neglected his duty and the people suffer. It often happens that this is the case in the worst places torn that is, where crime is most apt to be committed.

STATE NORMAL TO CLOSE

Will Take Recess For Three Weeks. Students to Leave Monday. Plans For Future.

Special to Journal.

Greensboro, Jan 24—After two days deliberation of Board of Directors, Faculty and members of the State Administration, it has been decided that it is wisest for State Normal College to take recess of three weeks, in order to give time for converting students building into dormitory building, to be used as such for remainder of college year.

Even after students building shall have been converted into dormitory it will not be practicable to care for all students who occupied the burned dormitory.

Appointments of those who can be provided for will be made in a few days. Students will leave for their homes Monday morning.

Board of directors has authorized executive committee to confer with the architects and secure plans and estimates of cost for the erection of one or more dormitory buildings, with a total capacity for accommodating five hundred boarders, and to be completed in time for Fall session.
