SERIOUS NAVIGATION CONDITION

Commerce and Business Interests in Dan ger. Action Demanded.

The Journal has noted the low water conditions which have prevailed at points in the Neuse river and in Croatan Sound, which have greatly interferred ith the shipping interests of this

These conditions appear to be growing worse, and it is necessary that the merchants and business men of New Bern take some positive action at once. if they do not want to see a material fall ing off in their trade.

One instance of this low water condition is seen in the case of the barge Wm Donaldson, Capt John T Clark, and this

this port with a cargo of fertilizers, and it took her eight full days, when thtime should be three and one half days. eight, instead of nine feet, as it was feared that the low water in the sounds and Neuse river would interfere with ber trip,and her cargo was reduced from

The barge's progress was first int-rrupted off Crostsu light, then followed other shoal places in Oroatan Sound and n Neuse river.

On the return trip north the Donald son will load lumber here, but the same trouble, about taking a full corgo will in terfere with Capt Clark taking what his Sale boat is capable of carrying, and what under regular conditions, that is with the sound and river channels in navigable condition, properly dredged to depth for boats in the regular trade, which the

freight loss for the round trip is a conenterable i em, besides the loss in time, and the consequent interruptions which are certain to arise in securing tage to tow, when so many delays are sure to

If this interrupted and delayed par-age to the vessels, larges and steam boats is to become a regular and contin-ced thing, it means loss to not only those who run these boats, but a serious loss to the necchants here, and some im-Confer in Secretas, Guas, Pintola, Cas. mediate action should be baken before Talbons, Loaded Bunias, Phonographs, Tomel men seek other points for their

Happy New Year

We annothed with pleasure that we have opened a New Hardware Store, in a New Building, with an extent seed county delays.

Freight.

There is a dredger at work below, but at a point which is of no vital importance when compared to what ought to be done in dredging and keeping open the main river and county changes between this port and Eleabeth City.

It can hardly be doubted but that the government's attention can be called to those low water places and they can be worked out and navigation to this port can resume its course without the present sections and county delays.

Judge of the Natal Supreme Court, Sends the Following narkable Testimonial

The World Is Cuticura's Field, **Used Wherever Civilization** Has Penetrated.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the scalp, face, ears and neck and on one limb. I was for several months under professional treatments, but the remedies prescribed were of no avail, and I was gradually were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured and I lost nearly all my hair. At last, my wife prevailed upon me to try the Cuticura Remedies and I gave them a thorough trial with the most satisfactory results. The disease soon began to disappear and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible Women to report if any case should come under report if any case should come under their notice when a poor person is so afflicted, so that your remedles may be
