#### AN EDUCATIONAL BUSINESS PROPOSITION.

The New Bern Military Institute and ina Business College, is an educa men organized in this city, and already rs a liberal patronage, nearly one andred students enrolled, a proof that such a school was needed in this comnunity, and also that it is an educational tion worthy of patronage.

Every educational institution proving tenif worthy, is entitled to, and should have the liberal support of every citizen of this community. In this class is inded the above Institute and Business

The proprietors of this new school ame to New Bern and inaugurated their sol without solicitation. They belaved that this community and section ded such a school as they would on, and their judgment has been amly vindicated by the patronage already

But now that their school has gone beyond the experimental stage, and its continuation means still greater success, the contiemen who have made the venture want to not only stay here, but also want to secure such quarters as their ool warrants for its future develop-

Accepting the proposition that edusational institutions demand the fullest local support, the proprietors of the Military Institute now here, ought to re colve every attention in their quest for a permanency, here, and liberal offers

ranted them in their afforts. The value of this institution is to be counted in several ways. It fills a much ded want, educationally. It attracts patronage from outside, which is of advantage to this city. It is an advertisement for New Bern, that this city is a desirable residence for families, where their children may receive, an education of any kind they may seek, literary, languages, sciences, military or business

A hearty and diberal one operation should be given the proprietors of this new school, and every opportunity for its extension and growth be afforded them. It is a proposition demanding a sheet and plus it together in a secure and artistic manner.) Quick! e industries concerned must be equal with new tools and new machin ped with new tools and new machinery. Before a railroad system can be prepared to transport a greatly increased traffic it must have new rails, new bridges, new stations, new cars and new locomotives. In these days of the steel and iron office building a "boom" in the building trade cannot go far without increasing enormously the demand for structural iron. Even in the agricultural industry it may be said that expansion and prosperity involve necessarily largely increased demand for farm machinery. Since the use of such additional equipment must precede any increase in the business of these other trades it naturally follows, first, that demand in the iron market irst, that demand in the iron market will be feit aggressively even before the other industries have abown full meanure of activity, and, second, that if such other industries foresee a period of slack demand and idle mills the first thing they will do will be to reduce their orders from the fron and steel mills,-Alexander D. Noyes in Forum.

Singular Birthmark of a Family. Mrs. Belle Harvey of Bower's Mill is one of a family of four living in that place, each of whom has a curious birthmark. The family consists o three sisters and a baby two years old. Each has black hair, with a large lock of pure white hair, beginning over the forehead and running backward. The lesh under this bair is also white, and the white mark runs down upon the forehead. The entire mark is said to ok like an ostrich plume laid over the head of the bearer. The three sisters are twenty-three, twenty-one and nine een years old. The mark is said to be itary in their family. - Kansas City Journal.

Lady Grey's Dull Evening. Thomas Creevey, who lived in the early part of the nineteenth century, has presented some queer pictures of English court life. During the reign of King William IV. Creevey wrote:
"The Greys had just come from Windsor castie. Lady Grey, in her own distressed manner, said abe was really more dead than alive. She said all the boring she had ever endured before was literally nothing compared with her misery of the two preceding nights. She hoped ahe never should see a mabegany table again, she was so tired with the one that the queen and the king, the Duchess of Gloucester, Princess Angusts, Mine, Lieven and herself had ast around for hours, the queen knitting or netting a pursa, the king sleeping and occasionally waking for the purpose of saying. Exactly so, ma'em, and then sleeping again. The queen was cold as los to Lady Grey till the moment she came away, when she could afford to be a little civil at of King William IV. Creevey wrote be could afford to be a little civil a getting quit of her."

Perfect Confidence. Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs M. L. Basford, of Poolesville. Md., in speaking of her erperlence in the use of that remedy says: 'I have a world of confidence in Chambertains Cough Remedy for I have used It with perfect success. Grape Fruit. While the taste for grape fruit is possibly an acquired one, it holds, and the wholesome fruit is considered in dispensable for breakfast in hundreds of homes. There is a good hygienic reason for this increase in grape fruit's popularity. Its peculiar acid renders it an almost sovereign remedy for malarial and billous troubles, while as a "bracer" it is quite the equal of quinine and vastly more agreeable. Physicians recommend it most highly for grip convalescents, and some assert that the habitual consumer of grape fruit can even consider himself immune from the prevalent malady:-Exchange.

#### When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This s best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucous and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remely will cure a severe cold in less time than any other treatment and it leaves the system in a matural and healthy condition. It counteracts any terdency toward pneu monta.
