Official Paper of New Bern and Craven County.

RUSSIA MUST LIVE DIFFERENTLY HEREAFTER.

Every report from the far east, whether it be from a Russian or Japanese source, shows most convincingly that Russia was and is wholly unprepared for this war with Japan.

The difference between the two nations in size of area and population, gave the war aspect a most one-sided appearance before hostilities commenced. And in addition was the portentous attitude of Russia, with her assumption of bluff and terror inspiring attempts to bulldoze Japan and the rest of the world.

The two-facedness of Russia is now seen by all the world. The establishment of The Hague, which should prove the tribunal to settle every dispute between nations, and so prevent wars. At the same time, violation of the treaties with nations, taking possession of territory not her own. Ill treatment of the Jews, injustice towards all who refused to accept the Russian dictum.

Russia today is exposed and known to the world as fraudulent in her claims for peace, as by the Hague tribunal, and a bully as shown by her assumption of rights in Manchuria, and the occupation of territory belonging to others.

Russia's false pretenses and bluffs have secured for her so much, that it seemed on everlasting gains, one which would always win, and with each fresh accession of wrongfully acquired territory, the Empire became more imposing and brought alarm to outside nations which seemed satisfied, if only Russia would not touch them.

But a champion in Japan has proven the shallowness of Russia's power, that it is not so great as it has pretended to be, and the world gets a clear insight to the real Russia, and from this time Russia cannot violate treaties, trample on human rights and steal territory. For the civilized nations will make her live up to international laws, or become an outcast nation.

SEATS OF OHIO, CITY OF TOLEDO, AS LEGAL COUNTY.

Frank J. Cheney makes oath that he is a resident of the City of Toledo, Ohio, and State of Ohio, and that he will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Chamberlain's Catarrh Remedy.

W. J. CHENEY & CO., Toledo, O. Sold by all Druggists, etc. Take Hall's Family Pills for constipation.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient, and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of Chamberlain's Family Pills.

Relief in One Minute.

Mysterious Circumstances.

One year and a half ago I received a letter from a man who had been in the hospital for a long time. He was very weak and had lost all his strength.

The Return Unexpected.

"Yes," she said with sarcastic bitterness. "I believe it is true that a man is known before marriage by the company he keeps."

The Criminal Escaped.

Jack—You've heard about the escaping criminal who stepped on a slot machine and got a wedge? Mack—Yes; that's old. Jack—Well, even the blood-thirsts couldn't get his cent.—Yale Record.

Nearly Forgets His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Beckler's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. Sold at C. D. Bradham's Drug Store.

His Other Check.

"When an enemy smites me," said the pious looking hypocrite. "I always turn the other cheek." "Why," asked the man who knew him, "do you want your enemy to go around with both hands disabled?"—Chicago Record-Herald.

When You Feel Blue and That Everything Goes Wrong, Take a Dose of Chamberlain's Stomach and Liver Tablets.

The Restaurant Free List.

A Bostonian was in Washington the other day and in asking how he found it as compared with other cities he replied: "Washington is the one town I have visited where bread and butter goes for free list in the cafes. I don't know whether they charge for water or not, as I never drink water away from home, but they come pretty near charging a man for breathing in the national capital. Talking about things on the free list, New York is the only city I know of where a potato is furnished at a cafe without price. In San Francisco they throw in a plate of pickles for good measure. I am not surprised in Philadelphia, but I suppose a man ought to get several things free there. In my own dear town you can get all the brown bread you can eat if you will buy the beans."—New York Commercial Advertiser.

Engineering in Montana.

Henry J. McDonald, ex-City Engineer of Atlanta, now in charge of Government engineering in Montana, says that he contemplated a terrible rough which he thought could not be done, but was saved by Taylor's Chamberlain Remedy of Great Britain and Ireland.

North River Cranks

The unpleasant winter has been so often discussed, it leaves no room for further comment, but with the ending of February let us hope for brighter, warmer days.

Through snows and frosts we have had our indigestible winter. Mrs. Lillian Foreman, who teaches the public school at Gott's Chapel. Too much praise can not be given. Mrs. Foreman for the advancement of her pupils show under her instruction, both in their regular course as well as in music, which is given outside of school hours.

We could not get a teacher for the school at Long Pine in season, consequently the money will be used to erect a much needed school building. The present one would do discredit to the district ages much less the twentieth century.

We are pleased to note some improvements. Several neat dwellings within the last few months have been built, and old homes improved.

As the Horticulturist would say, we have quite a social addition in our burg in the persons of Mr. and Mrs. Jeffe Simpson. We are ready to give the hand-shake to all good citizens who may wish to become our neighbors.

The farmers are moving slow with their work, but it will be an exception if a crop is not made this year on our rich lands.

Although we are in proximity to the waters which are said to produce the finest oysters found, with fish are as seldom seen on our table as tropical fruits. Too cold for the watermen.

We have church service every 2nd Sunday at Holly Grove. Rev. Ears of Ann St. M. E. Church, Beaufort, holds fourth. Other denominations have their services likewise. So we are not outside the pale of Christian influences.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of this disease. Mrs. M. L. Bedford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by all Druggists.

Corbin Enjoyed It.

Last summer Major General Corbin went out to the reunion of his old regiment, the Seventy-ninth Ohio, and there mingled with the men who knew him as a second lieutenant. It was quite a remarkable fact that the captain, first and second lieutenants who were the first officers of the company in which Corbin first served were still alive and present at the reunion. "Every man there," said the general to a Washington correspondent, "except one who knew me in Washington and called me 'general,' called me 'lieutenant.' It was funny. I haven't enjoyed anything so much in a long time."

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all Druggists.

SO DIFFERENT.

Lots of Claims Like This But so Different—Local Proof is What New Bern People Want.

There are a great many of them. Every paper has its share. Statements hard to believe, harder to prove. Statements from far-away places. What people say in Florida. Public expressions from California. Oftentimes good endorsements there. But of little service here at home. New Bern people want local proof. The sayings of neighbors, friends and acquaintances.

Home endorsements count. It clears the skeptic's beyond dispute. This is the looking that stands behind every box of Deane's Kidney Pills. Here is a case of it: Charles F. Hargett, a car painter at the A. H. O. R. shop, residing at 41 Bern street, says: "I have found great relief by using Deane's Kidney Pills. My back had been hurting me for a long time, of no use but that I could not work. The kidney sometimes were very dark and sticky. Since using Deane's Kidney Pills the secretions have remained clear, natural color and I do not suffer from the pain in my back at all. I can do all the work as usual. I have been cured by using Deane's Kidney Pills and give them a trial. They will not be disappointed."

HARD TO UNDERSTAND.

The commonest vocabulary was possible in the streets.

He was a scholarly looking Englishman, with the abstracted appearance of a student about him, and he wanted to take a ride to a suburban locality and back. "What will be your charge?" he asked the cabman.

"Two pinks," replied the cabman. "Two pinks?" "Pink—honey—cash, ain't you on?" "Oh," smiled the other in bewilderment. "But until I know how much it is to cost me for the trip. That is what I am asking you."

"That's what I'm telling you. Two pinks, honey." "I beg pardon. That is equally mysterious. Either I have failed to make you understand me or I am singularly deficient in apprehending the vocabulary of commerce. May I ask you to make one more effort to tell me what my fare will be for the proposed trip?" "Told you five or six times. Two pinks; two cent wheels."

A light seemed to dawn upon the befogged mind of the scholarly person. "Could you," he said, "by any possibility mean \$2?" "Sure. That's what I've been telling you all along, but you don't seem to understand English."

A few moments later one might have seen a cab making its way toward the suburbs. At the driver's seat was a brisk looking personage with his "plug" hat tilted back on his head, and on the inside was a passenger who was industriously jotting down something in his notebook.—Youth's Companion.
