Cotton is Almost King Again.

At the price in prospect you can afford to fertilize it well. If you want the BEST—

Use Meadows Great Cotton Guano.

Insist on having that kind, as you will not be disappointed in your crop.

For Tobacco—

Use Meadows Gold Leaf Tobacco Guano

It makes good, slick, tough Tobacco. November 1903 one planter sold 1,463 pounds of tobacco for \$511.00. He used Gold Leaf.

Special High Grade Fertilizers for all crops

KING'S BLOCK

REPORTED FALLER.

From Two Sources Rumors of Port Arthur Taken.

They Tell of Desperate Fighting. Rallied Out by Mongols. A Chinese Viceroy Seized.

Special to Journal.

London, March 1.—It is reported that the Russian garrison at Port Arthur was surprised by the Japanese. The Russian vessels that could navigate nearly blocked the entrance to the harbor fighting desperately in the face of the enemy against the combined land and sea attack of the Japanese army and navy. The guns from the disabled Russian ships were mounted in forts and naval ammunition used as the supply for the guns there was nearly exhausted. Food in the town is reported scarce, all on short rations. It is reported that the Japanese forces have occupied the line of the railroad.

St. Petersburg, March 1.—No news has been received here from Port Arthur for eight days and it is believed that the fortress has fallen. When last reports were received there was a terrific fire from the whole Japanese fleet. The Russian Cruiser Akoid was wrecked.

It is reported that the Japanese are attempting to land in force at Pigeon Bay under a heavy fire.

Consternation is caused here by the report that the Manchurian railroad between Port Arthur and Mukden has been destroyed by Mongolian brigands in Japanese pay. Viceroy Alexieff reported north of the east and his train cannot reach Port Arthur.

It is reported that Alexieff has made a prisoner of Sen Lee of Shen King and is holding the Chinese Viceroy as a hostage.

London, March 1.—Twenty-five thousand Russians are reported across the Yalu river and others march seaward into Korea. Along the main roads several thousand more are acting as scouts.

It is believed that any advance the Japanese may attempt to make looking to an invasion of the Yalu district will be a failure, so thorough has been the Russian preparation in northern Korea. Apparently the Russians do not fear that Japan may send troops up the Yalu river as it is frozen from the head of the Korean gulf, as are all the boys there.

Supreme Court Opinions.

Special to Journal.

Raleigh, Mich 1.—Supreme court filed following opinions today:

Miller vs the State, dismissed.

State vs Patterson, from Durham, reversed.

Woodard vs Banks from Wilson, no error.

Wetherington vs Williams from Craven, no error.

Hooker vs Worthington from Pitt no error.

Avery vs Stegert from Craven new trial.

Davis vs S. L. Ry from Bertie affirmed.

Blizner vs Terry from Perquimans, affirmed.

State vs Capps from Beaufort, no error.

Dawson vs Burns from Vance, per curiam affirmed.

Brown vs Dorch from Greene the court being evenly divided in opinion, (Docher not sitting) the judgment below is affirmed per curiam.

Jug Law Decided.

Special to Journal. Raleigh March 1.—

The Supreme court has filed a decision in the very notable case of the State against Patterson from Durham known as the "Jug law" case. The court holds that the law making the place of delivery of liquor the place of sale, applies to the entire State. It reverses the decision of the lower courts. The first section of the law makes it apply to only four counties, but the others apply it to the entire State.

Proof is Truth

What makes a wheel run hard? Ans. Friction.

What makes friction? Ans. Pressure.

Therefore, anything that reduces the pressure on the crank bearings, reduces the friction and makes the wheel push easier.

Accurate TESTS PROVE that by use of large sprockets the Racycle reduces the chain strain on bearings 30 to 40 per cent. The construction of the Racycle Crank Hanger is so near mechanical perfection that the pressure on the right bearing is reduced 40 per cent, and on the left bearing 70 per cent; consequently the RACYCLE is bound to push easier than any other style bicycle ever built.

THERE ARE NO OTHER RACYCLES.
