Seismic Disturbances.

Boston, March 21.—An earthquake this morning caused a tremor throughout the entire eastern section of New England. Beginning at St John N B, the seismic vibrations traversed the State of Maine, causing some slight damage to buildings in Augusta, Bangor and Portland. The shock was felt plainly as far south as Taunton, in this State. Reports from Manchester N H, and Springfield Mass, state that the vibrations were felt distinctly in those two cities.

Observers at Harvard University astronomical observatory in Cambridge felt the shock.

At Augusta, Me, lamp chimneys were broken and crockery was smashed. The vibrations lasted several seconds and in nearly every instance occurred about four minutes after 1 o'clock.

LIGHTNING'S STRANGE FREAK.

Cuts the Visor of Man's Cap and Leaves Him Uninjured.

The eccentricity of the electrical fluid was demonstrated at Atlantic, a small place near Morehead City last Friday. We doubt not that the prank it played was one of the strangest things that has happened in this vicinity for some time.

Mr E I Street, travelling salesman for O S Hollister wholesale grocer and a Mr Reed who travels for a rubber boot firm in Baltimore had chartered the gasoline launch Georgia at Morehead City to visit places along the sound.

While the boat was tied to the dock at Atlantic a severe thunder storm arose. A bolt of lightning struck the boat, broke the lights, glasses and mirrors, tore up the cabin and played rough house generally. The strangest freak of all was that it should tear away the front piece of Captain Sam Wade's cap and never injure him in the least except to give him a bad scare.

The fact that there was more or less electricity around the machinery and in the air is given as a theory as to why the lightning's stroke was not being more concentrated. It being diffused was the means of saving the boat and probably the captain's life.

Mr Street had left the boat and was talking business with some merchants in the town, Mr Reed was near the boat and was very badly frightened.

The boat was not so badly injured but what it could make the trip safely.

Organize A Gun Club.

Gentlemen will be in the City Tonight for that Purpose.

There will be an effort to organize a gun club by which sportsmen may keep up their marksmanship during the close season. The idea is a good one and it is a means of a good deal of pleasure to those who are fond of shooting. Gun Clubs are in existence in a great many cities and large members are being organized.

Mr J W Elgin, representing the Union Metallic Cartridge Co, and Mr C B Adams, Expert marksman will be in the city tonight and will meet, all who are interested in having a gun club at W T Hill's store at 8 o'clock tonight. It is hoped that a large number will assemble there to make the club a success.

On Wednesday it is expected that Mr Adams, will give an exhibition of his marksmanship. The place and time will be announced in tomorrow's Journal. Mr Adams is one of the cleverest marksmen in the country and it will be an interesting sight to witness the shooting.

To the General Public.

I announce that my daughter, Fannie A Sawyer is a graduate of millinery, awarded a diploma by the Browning University of Chicago.

She has now been in business in this city for eighteen months, giving utmost satisfaction to her patrons. And we have not the slightest hesitation in soliciting from the most fastidious dressers.

The latest styles of hats are created by us from the crude materials, tinted, sheared or plaited. We are in constant correspondence with the largest manufacturers millinery house in New York City, and can furnish the latest fashions at short notice.

We have a very complete stock of millinery and trimmings at No. 26 Cypress street, where my daughter will be pleased to serve those who favor her with patronage.

Thanking our friends for past favors, we solicit a continuance of their custom.

Respectfully,

S. SAWYER.

RUSSIA FRIGHTENED

Japanese Will Attack New Chwang By Land and Sea.

Russians Endeavoring to Have Both Sides of Lio River Declared Neutral. Gen Kuropatkin Has Arrived at Harbin.

Special to Journal.

London March 2.—Advices from correspondents say that New Chwang is in imminent danger of bombardment. The Japanese warships have arrived at the mouth of the Lio river a few miles away The ships first appeared Saturday morning and landed scouts who reconnoitered and returned to the ships.

With these vessels so near the fortifications the Russians expect a bombardment by both land and sea forces. In the hope of preventing this attack Russia is urging the Chinese government to ask the Powers to declare both sides of the Lio river from New Chwang to the gulf neutral.

It is the prevailing belief here if bombardment is instituted that the Russians will burn the town.

A strong column of Japanese, commanded by Kodama, which has been moving northward from Ping Yang since Thursday encountered a body of Russians and, compelled them to retreat across the Yalu river. It is believed that the Japanese army is approaching the main body of the Russian army in that section and that a great battle will occur soon.

Gen Korupatkin, the commander in chief of the Czar's forces in the far east has arrived at Harbin.

St Petersburg, Mch 21—It is officially denied here that any battle occurred on the Yalu river last week wherein 1800 Japanese troops were captured by Russians.

All land battles in the nature of skirmishes reported for the past few days are unimportant.
