POLITICAL GOODNESS AND FIT-NESS.

BROOKS Political parties, assume, each for it-Amr.Sugar..... 127 self, certain attributes which each will Amr. Copper.... 49} claim make it the party deserving the Atchison 734 majority of the votes of the people, these Southern Ry ... 211 votes placing the party in control of a Southern Ry pf.. 8) U. S. Steel 104 State or the Nation. U. S. Steel pf ... 58}

But party goodness and fitness in o'-Penn. R R. 117] platform utterances which are issued by Louisville&Nash the political parties when they assemble St. Paul. 145 in conventions, for too often the party N.Y Central..... N. & W atterance in a convention is meant to Va. C Chemical. 294 serve as a vote catcher for today, with no lasting principle in it which shall serve for the betterment of the people Reserves, increase both today and tomorrow.

Party principle and party morality are no better than the principle and morality of those who control the action of the party, and it is this desire of those in party control, to perpetuate themselves, both in supremacy of party dictation and continuance in office which causes a rottenness to form, that leads to party ruin and overthrow.

It is not the rank and file of a political party which leads to its defeat at the polls. It is not the falsity in party principles which breaks up a political party, but it is the action of party leaders who willfally pervert the party's principles to make them individually applicable, not party applicable, which means that the leaders make a political oligarchy for themselves at the expense of the mass of the voters of their par-

The regulation campaign oratory will soon be heard in every town, city and cross roads meeting place, and the voter will be appealed to "to stick by his old party," with a string of adjectives declaring the goodness and fitness of the party to be put in office, or continued in office, as the case may be.

Never in the history of the Democratlo party of North Carolina has it needed to be so conservative as is demanded

Are You a Dyspeptic?

If you are a dyspeptic you owe it to yourself and your friends to get well. Dyspepsis annoys the dyspeptic's friend because his disease sours his disposition

as well as his stomach. Kodol Dyspepsia Cure will not only cure dyspepsia, indigestion and sour stomach, but this palatable, reconstructive tonic digestant trengthens the whole digestive apparatus, and swestens the life as well as the stomach. When you take Kodol Dyspepsia Cure the food you eat is en-joyed. It is digested, assimilated and its nutrient properties appropriated by the blood and tissues. Health is the result. Bold by FS Duffy. ed in its endeavor.

War Against Mosquitoes. N. C. Bullotin,

Owing to the short time required for the complete development of the mcsquito from the egg to maturity, there is time in cur long summer for the production of several generations. As each female lays a great many eggs, it is easy to understand how millions could come in August and September from hundreds at the beginning of the season. So the proper thing to do is to force the fighting "from the jump" and practically exterminate them before myriads of rein-

forcements come in. As is already well known, mosquitoes breed only in still waters-preferably

tribes of Indians are generally looked of Broadway, along the Hudson river upon as sacred, but when the gods befront, because they owned that imnuisance it is time to put an end to them; at least, that is what a In the olden time Queen Anne of certain tribe along the Zabari river think. They worship the ignana and England owned what was known as the Queen's farm, which covered the land confinencing at St. Paul's church monkey, but as soon as the iguana started eating chickens they thought and extending to what is now Twentyit time to stop worshiping him and third street, bounded by Broadway on to eat him in place of the chickens he the east and the Hudson river on the had eaten. This they do, and they pre-fer iguana stew to chicken fricassee.

Robbed The Grave.

A startling i facident, is asrrated by wich streets. Church street was so called because it bounded the west John Oliver of Philadelphia. as follows: "I was in an awful condition. My skin side of St. Paul's churchyard, Bector was almost yellow, eyes sunken, tongue street was honored by the residence of coated, pain continually in back and the rector of Trinity. Barclay and Vesey streets were named after two clersides, no appetite, growing weaker day gymen of the church. by day. Three physicians had given me Trinity's officers determined that the up. Then I was advised to use Electric Bitters; to my great joy, the first bottle main artery of the city should run through its land, and, grounded in their made a decided improvement. I conbelief in their ability to carry out their tinued their use for three weeks, and intention, Hudson street was laid out. St. John's park and many other improvements were offered as inducenents to purchasers of land, and St. John's chapel was erected and finished in 1803, one of the handsomest pieces drug stor-.

The arrogance of the church fretted The Way the Piece of Paper Worrled Thomas A. Edison

the story of his first acquaintance with way was nearer the center of the city Broadway acquired the preference, and any big sum of money. It was when the glory of Hudson street departed. he was struggling with his earlier in-

ventions, and he had about as clear never to return. It has been remarked that the streets an idea of the value of a bank check as the man in the moon. He had finallaid out by Trinity on the farm are all perfectly straight, while many in the ly sold his patent on the gold and stock ower part of the city are wonderfully indicator to the Western Union Telecrooked. The explanation of this lies graph company and had called at its in the fact that scarcely a small hill office to close the deal. After a few existed on the farm, while below there preliminaries he was given a check for \$40,000. He eyed it curiously and apcrooked lanes and byways, to say nothpeared to be puzzled what to do with ing of cow paths, were turned into It. Observing his perplexity. General streets, which ran in devious ways Lefferts, then president of the Western around hills, valleys and swamps Union, told him that if he would go to Many streets were named after the owners of property adjacent to or the Bank of America, in Wall street, through which the ways were laid. he could get the cash on his check "So I started." said Edison, "after Moore street was originally the line of the first wharf erected in the city, carefully folding up the check; and Colonel Moore was formerly a large went toward Wall street. So uncerowner of the lots when first built upon. tain was I in regard to that way of doing business that I thought whil John street was named after John Harpending, who resided in Broadway,] on the way that if any man should and John street when first laid out come up to me and offer me two crisp \$1,000 bills for that piece of paper passed through his garden. Cortlandt, would give him the check very quick Dey and Beekman streets were carried through the property of the men after On his arrival at the Bank of Amer whom they were named. Ann stree ica he half tremblingly shoved his was named after Ann Beekman, Vancheck out to the cashier. The latter dewater, Roosevelt, Rutgers, Gouver neur, Harrison, Lispenard, Bayard, De scrutinized it closely, gave him a Lancey, Rivington and Willett streets piercing glance and said something which Edison, being hard of heating, failed to understand. That was were so designated because they passed through the property of people enough. He was fully convinced that ing these names. his check was not worth \$40,000 and Hester street was named after one of again thought as he rushed out of the the Bayard family and Catharine after bank that any man who would give Catharine Rutgers, Henry street was him \$2,000 for it could have it. He named after a son of the Rutgers family, and Jacob street bounded the Ja-cob Leisler estate. Frankfort street hurried back to the office of the Western Union and said he could not get any money. A clerk was sent to the bank with him to identify him. was also a boundary of the same estate. Leisler yeas a native of Frank-furt. James street was named after a

日日湯 (月下 (8名))さ BLOOD PURIFIERS S

No remedy ever yet discovered has met with such popular favor as S. S. S. The people everywhere indorse it, and there are few homes where S. S. S. for the blood is not known and used. It is superior in many ways to the ordi-nary blood medicines. In the first place S. S. S. is a guaranteed purely vegetable compound, made exclusively of medicinal roots selected for their wonderful purifying and tonic properties that act upon the blood, purging it of impurities and restoring it to a healthy, natural condition. At the same time, under its tonic effects the general system improves, the sluggish organs are toned up, and renewed strength and vigor and better health is the result. No bad after-effects follow the use of S. S. S., as so often happens with blood medicines containing strong minerals, which derange the stomach and digestion and in other ways damage the system. For diseases of the blood, such as Chronic Sores, Rheumatism, Catarrh, Scrofula, Boils and Pimples, Eczema, Tetter.

ALWAYS KEEPS S. S. S. ON HAND.

C. WHITTINGTON. ily remedy. predisposition to disease, S. S. S will search out and remove from the blood the fixed poison and

build up the health ; it enriches and purifies weak, thin blood and stimulates the circulation. Pure blood is essential to health. You can exist without good blood, but can never be robust and strong ; for every organ, tissue and nerve in the body looks to the blood for nourishment. and unless this vital fluid is kept in a pure, healthy state, the rest of the body suffers and the system soon breaks down. Nature has provided in S. S. S. a remedy for diseases of the blood which long experience and a thorough test have proven superior to all others, and the acknowledged "King of Blood Purifiers."

came a cough.

of it this year, for this year is one in which personal liberty of the masses of the voters has its full political away. when the East is not calling upon the West for help to elect its men to office, and the West is looking fearfully to the East, lost there be a colored vote which shall put into power men who will threaten the stability of the financial and moral fabric of the State government.

With the political freedom which is to be felt in this State during the coming campaign, there is demanded new political methods, new standards for party action, new political battle cries, on the side of the Democratic party.

Political freedom in the sense it is now being felt is something different from that of previous years. Party appeals must be practical, sensible, honset and not have sentiment as the chief ingredient, with a hurrah as a chincher in argument.

The danger which threatens Demo-Cratic stability in North Carolina, is the misconception on the part of the party leaders as to the possibilities in this po-I tical freedom of the manses of the veturs, and the lack of knowledge where to apply the right methods which shall control this freedom and bring it to strengthen the party, and not make it a noose which will strangle the party, and put it out of power, when it has still so much to do in the way of making go x its party promises to the people, and falfilling those things which it has already begun.

"The Cleet of Boston. I can re tender when it was locone. ly said of some families of Mesanwits limt they claimed to have had, in the time of Nosh's deluge, a bost to themselves, and I can recall,on the other hand, when a social aspirant in Boston asked, "Who belong to the really old families, grandmamms?" and when that relative allook her weary head and asid, "Mostly no one, my dear."-Thomas Wentworth Hig-ginson in Atlantic.

small stagnant pools protected by grass and undergrowth from the wind, and free from fish, which prey upon the larvae. It is now also pretty generally known that a thin film of oil upon the autface of such waters will prevent the laying of the eggs there, and effectually destroy any larvae that may have hatched therein. The problem, therefore, is a very simple one theoretically, and in most instances practically also. It is summed up in this one sentence; Drain, fill up or oil (every ten days or two

weeks) every body of stagnant water, no matter how small. Empty all old discarded fruit cans, buckets and barrels about the premises, and put them under helter or turn them upside down; drain, f porsible (If not, fill up or oil) a'l natural pools; open the ditches and small wetweather streams, to permit the running off and prevent the re-formation of the pools so often found al mg their courses. Larger pond stocked with fish are not so favorable as breeding places, for reasons given above, provided no shallows

protected by grava, bullrushes, est-talts, ets , are permitted on their borders. The banks of such ponds should be made as clean and abrupt as possible, so as to ex pose the entire pond to the wind and fish. But some man will say: Why take this troutle, when there is a swamp within a mile or half a mile of my house? For the reason that fortunately mosquitoes rarely over fly a mile or even half a mile. If instead of laying the mosquitees on the distant swamp the householder would make a care'ul inspection of als immediate environment, he would nearly always flud the source of supply to be within a radius of two or three hundred jatds of his house—as is pointed out in Dr. Howard's book on and the page
