Victim of Savage Brute.

The hand of a child lacerated, torn, refused forever by a vicious, worthless dog. That is the news from Sunday.

The little girl Florence Pesche, had just returned with other girl friends from the Sunday school, and as she was standing in the gateway bidding them good bye, a savage dog came along and attacked her without any provocation. The teeth of the animal passed through the hand of the little girl tearing the flesh and exposing in a fearful manner, making an injury, the permanency of which is only limited by the life of the victim.

How long the authorities of New Bern going to allow the citizens children to be the play of these worthless vicious animals?

Can no legal restraint be put on dogs?

Are the people's children to be bitten and mangled because there are a few persons around town who dislike to have their pet dogs restrained?

Better that every dog in the city should be slain than that the little girls and boys should be bitten and subjected to the horrors of hospital life.

It is high time the city authorities took some notice of this dog nuisance, and if they haven't the nerve to tackle it, then must it be justifiable for the people to arm themselves and wage war on the savage animals until they are restrained or exterminated.

This dog nuisance is becoming a serious thing and unless it is abated in some way, a lot of them are going to get killed and no doubt the killing will cause many personal difficulties among the citizens.

HYONET'S SUCCESS IN NEW BERN.

Cared Many Broken Cases of Catarrh.

F. S. Duffy Will Refund Money.

It is well known that no other medicine for catarrh has ever achieved such quick and remarkable success in New Bern as Hyonet. The fact that F. S. Duffy, when he first introduced Hyonet sold it under a positive guarantee to refund the money in case it did not cure contributed largely to his successful introduction. A guarantee from a firm like F. S. Duffy gave people confidence at the start.

Those who obtained a Hyonet outfit found that the treatment did all that was claimed for it; that the first few breaths of Hyonet cleared the air passages and gave an exhilarating and invigorating effect. He continued to feed the system from all catarrhal germs, soothe and heal the mucous membrane, and made a complete and lasting cure.

Compared with the dangerous stomach drugging that had been used heretofore in the treatment of catarrh, the beneficent air of Hyonet created a most favorable impression. And the medicine itself did more than was claimed for it. It gave a new sense of well-being and Hyonet should now be a daily part of our lives in which it is used, for every ounce we consume is a guarantee to refund the money in case it fails.

If it had not passed without merit, an article like this would be omitted in an unimportant publication. F. S. Duffy has given an unerring indication and you will be glad to see the Hyonet outfit.

Grand Excursion

ECZEMA ON LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

CURED BY CUTICURA!

Had Given up All Hope of Ever Making Any Cure.

"My little girl has been suffering for two years or more from eczema, and during that time I could not get a night's sleep, as her ailment was very severe."

"I had tried so many remedies and spent much money, deriving no benefit. I had absolutely given up all hope of making any cure. But as a last resort I was persuaded to try a set of the Cuticura remedies, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of muslin cloth. This I did twice a day, each time following with the Cuticura Ointment, and as she slept peacefully the next evening, according to directions. One box of the Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this for publication if you desire, hoping it will add to your success and assist so many thousands of sufferers in curing themselves." Mrs. L. B. JONES, ANDOVER, N. H.

The first step in the treatment of the chronic form is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment liberally at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent, pills, or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.
