There's Room For Success oreat Southwest The

Have you ever conditored the great advantage of this feature of the Soutawest-pleu'y of elbow room-where three, five, even ten acres may be had at the price of a single acre in your home section? It's worth considering, especially when the great productive worth of the land is taken in account. It s a wonderfully fertile se tion. There is no betagric tural section in this country, and farms are cheap out there-in Atkansas, Oktahoms and Texas-simply because there are more firms than firmers. Can you afford to overlook an apportunity of this kind? Our illustrated boo I swill give you the particulars in detail. Concerning the rundamental nature of electricity itself there is still no certainty, but there are several hypotheses, says Electrical World. There are several theories for explaining both electricity and magnetism is terms of the ether. None of these theories seems capable of being submitted to experimental demonstration. It is certain, however that, since the interconnection between electricity and magnetism is known, a demonstration of the nature of the one must, by corollary, include a disclosure of the nature of the other. Moreover, it would not seem likely that the complete unraveling of the nature of electricity would necessarily include a revelation of the nature of both matter and of gravitation.

A READY PREACHER.

"Bow much money does it take to make chains for a quarter?" queried the man whose fad in frenk mathematics. "Twenty five cents," he? You're away out. To change a quarter in the various may it can be done requires a capital of 70 cents. If a fellow wanted plenty of coin for his quarter is de a project of the death of one of his change and picture of twenty five permises. The preacher spened it and found nothing written. He did not, however, lose his presence of mind, but, turning the paper on both sides, be said:

"My brethren, here is nothing, and there is nothing. Gut of nothing God created all things." And he proceeded to deliver a most eloquent discourse on the wonders of the creation.

APPROVED TO HEALTHY MOTHERS.

Mothers should always keep in goo odfly health. They owe it to their children. Yet it is no unusual night to we a mother, with babe to arma, cough-ing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dans crous cendition exist, dangerous alike to mother and child when Dr. Boschee's German Syrup would put a stop to it at once? No moth-er should be without this old and tried temedy in the house—for its timely use will premtly one any long, throat or bron hist trouble in herself or her chil-dien. The worst dough or cold can be speedly cuted by German Syrup; so can hostsepees and congestion of the bron-chial tubes. SPANISH NAMES.

They Came to Se So Freely Scattered Over California. It was the custom of the old Span explorers to name places after the saint for whom was named the day on which they camped there. In this manner a great number of melodious and sonorous Spanish names have been scattered over California, so that been scattered over California, so that the names of a great number of places begin either with "San" or "Santa," In some cases a subtitle, as it were, has been affixed. For instance, we have San Luis Rey and San Luis Obishave San Luis Rey and San Luis Obishave San Luis the King and Saint Of the office acceptably.

GRORGE B-WATERS pistrano. In the case of Los Angeles it was named "Nuestra Senora de los Angeles" (Our Lady of the Angels) This name is altogether too bulky for frequent use, so the early officers shortened it to "Angeles."

One curious name among the saints is that applied to a picturesque little settlement on the divide between the Ban Gabriel and Pomona valleys-San at either side of Jesus-the one who asked to be remembered by the Lord when he should enter into paradise. He is the putron saint of robbers. The way this name came to be given to the San Gabriel valley village was thus: In early days a gang of Mexican horse thieves had their "lair" in a canyon there, which was subsequently referred to as the Robbers' canyon or the canyon of San Dimas. When the Santa Fe rattroad came along and laid out the station there the name of the canyon was adopted; hence San Dimas.—Los Augeles Times.
