Omcial Paper of New Bern and Craven County.

KINGS DAUGHTERS AND STATE July Land REFORMATORY.

At the annual State Convention of the King's Daughters, which met at Rockingham during this week, was

Reformatory.

It is no exaggeration to say that no Southern Ry pf., 824 State need is so urgent today in this U. S. Steel ..... 9 State as a Reformatory, or Training U.S. Steel pf... 54 School, which has for its purpose the reclamation of the youth who may have through various causes started upon the 8t. Paul.... 1404 wrong path in life.

North Carolina liberally grants funds for her public educational institutions, and yet no institution will so greatly and beneficially assist the moral welfare of the State as a School in which the youth ful criminal can find training, which shall divert his attention and desire for evil, to a wish and effort in right liv

It is said the King's Daughters wil canvas the State in the Interest of this Training School or Reformatory, and they should receive the heartlest support in their efforts.

There should be no passing over this matter by the next State Legislature, but sufficient money should be voted to secure and maintain a Training School in North Carolina.

### WINS AGAINST THE TRADING STAMP.

After months of effort, and money contests, the Trading Stamp has gone out of business in Winston. The effort to establish this so-called business venture in Winston has been a notable one, one, involving high tax methods and rt suits, with various endeavors by the opponents of the Stamp, all seeking to discourage its stay in that city.

That the Trading Stamp is of advantage to local trade, has never been succassfully proven, rather [the contrary, and the Merchants Association of New Bern set its face against! it from the very beginning, much to the satisfaction of this paper, which has never seen anything but injury to local trade, as the legitimate outgrowth of the sys-

The Journal is very glad to be able to congratulate its namesake and contemp orary at Winston, in its able antagonism to the Trading Stamp, and the success of its efforts in forcing its exit from

SENTENCE SERMONS.

There is no medt in sacrifice devoid The heart's protest against death is

he promise of life. Your criticism of another is your verdict on yourself.

The great lives have all loved some thing greater than life. Sin is always a greater wrong to the sinner than to any other.

Disappointment is not a sufficient reason for discouragement. Holiness is the reaching after rathe than the arriving at perfection.

There is more in being worthy o great place than there is winning it. The man who is afraid of burning up his wick need not hope to brighten

When a man sets popularity before his eves he is likely to let principle out of his heart.-Chicago Tribune.

ANOTHER WONDER OF SCIENCE

Biology has Proved that Dandruff

Canned by a Germ. Science is donig wonders these days in nedicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no bair preparation has beretofore proved a suc-ceasful cure until Newbro's Hespicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or nourf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally buildness. With-out dandruff hair must grow furnitarity. It is the only destroyer of dandruff Sold by leading druggists. Send 10c. in stamps for sample to The Harpt-cide Co., Detroit, Ities.

C. D. Bradham, Special Agent.

story that is told of Leonard Bacon, who was one of the best known theologians in New England in the later half of the nineteenth century, itlustrates the absurdity of a popular kind of argument. Dr. Bacon was attending a conference in one of the New England cities, and some assertions he made in his address were vebemently objected to by a member of the oppos

"Why." he expostulated, "I never heard of such a thing in all my life!" "Mr. Moderator," rejoined Bacon calmly, "I cannot allow my opponent's ignorance, however wast, to offset my knowledge, however small."—Harpers Weekly.

A Queer Capter Between the mountains of India and Persia is a powerful tribe among whom an extraordinary custom pre-valls. Women's rights have apparently received full recognition, for the ladies of the tribe can choose their own husbands. All a single woman has to do when she wishes to change her state is to send a servant to pin a hand-herchief to the hat of a man on whom her fancy lights, and he is obliged to marry her unless he can show that he is too poor to purchase her at the price her father requires.

Rasy Explanation. "How do you secount for the fact," "How do you secount for the fact,"
asked the doctor, "as shown by actual
investigation, that thirty-two out of
every hundred eximinals in the country
are left handed?"

"That's easily accounted for," said
the professor. "The other sixty-eight
are right handed."—Chiengo Tribuna.

"Does your hosband keep any

hornes?"
"Yes," shawered young Mrs. Tookins.
"He keeps a number of them. But other people own them and manage the races."—Washington Star.

HINTS FOR FARMERS

Products of a Spanish Merias Some years ago James A. Belkusp, rominent chizen of Yates county, N. Y., bought seven Merino ewes from a Vermout dealer for \$700. From one of these ewes a buck land was produc ed which at one year's growth sheared fifty-three pounds, and the same year a fleece was taken from him weigh twelve pounds. The accord year the animal weighed eighty pounds, and a flence was sheared from him weighing eighteen pounds. The third year the animal weighed 104 pounds, and he sheared thirty pounds. The wool was modetion of our traveling people as it he was sheared by the same man. Mr. Loren Thomas, at three successive ferred to surpassed all other sheep of equal age on each occasion.-Stockman

Handling Live Stock. The live stock shippers of the coun Willie Cathrell, the has made many progress has been in the other direction. Vexatious delays of live stock trains have cost the shippers an enor mous amount of money in the past pastor, astended his appointment here three years. Live stock is a perishable last Sunday and delivered a very in- product. It must be moved with rea structive address to the young people sonable celerity or loss will result. Yet many a shipper has had to see his stock suffering and shrinking on a siding while trains loaded with nonper ishable products steamed past. That transportation companies are meeting enormous business with dispatch le ble, without relief, was advised by his evident, but that they are fully awake druggist, Mr Alev Richard, to try a box to the importance of prompt movement

The accurate value of wool canno be ascertained unless it be sorted and scoured. Then and then only is it re and you are certain to be more than pleased with the result. For sale at 25 cents per box by all druggists. There is no waste in sorting and scour ing wool; it is all worked into its prop er place, each sort or grade found in each fisece is sold separately upon its merit, and the best wool brings the highest price. This is one reason why the mill buyer prefers buying his woo Sanders and wife attended quarterly siready sorted and scoured. He then knows just what he is getting without Mr G N Ennett returned to New Bern any doubt as to shrinkage and development. He can buy his wool on the same basis and with the same confidence that the weaver buys his yaru or

Best Time to Fatten. The best temperature for fattening any animal is when the thermometer ranges from 55 to 70 degrees, or is outside of those points but a little while at a time. They seem to have a better appetite than when it is warmer, and there is not as much of the food required to keep up the heat of the system as when it is colder. The green food, if properly used, aids digestion and a shrewd farmer should fatten cows, sheep or swine at this season, so that he would feel that he had made profit even on the cow beef that sells at a low price. Especially should this "One of Dr King's New Life Pills each be the case with such cows as are unnight for two weeks has put me in my profitable because they put their food into beef instead of milk.-American Cultivator.

Getting Rid of Plant Lice. To kill plant lice on trees dissolve one pound of whale oil soap in eight to ten galions of water. This can be sprayed without injuring the foliage Care should be taken that it reaches the insects, otherwise it will not affect them. The spray is one that kills by contact and must therefore reach the bodies of the insects direct. A pound of tobacco dust, the stems steeped and polled in water for one hour and diluted with four gallons of water, will also destroy plant lice.

British Corn Imports. The "Corn Trade Year Book," jus published in London, estimates that in consequence of the unfavorable summer of 1908 only 3,500,000 quarters of British wheat will reach the mills, making ft necessary to import 27,000,-900 quarters of foreign and colonial wheat. Ten years ago Britain took 70 per cent of her grain from the United States. In 1908 she took only about 40 per cent, Argentina and Russia taking the place of the United States.

The process of hotnogenising milkperfected by Gaulin of Paris complete in forcing the milk, at about 185 degrees F., from a closed drum in vert fine jets against a porcelain plate. The fat globules are broken up into very minute particles. There is no subse-quent tendency for cream to rise, di-gestibility is not affected and when combined with pasteurisation the treated milk keeps a long time unchanged.

Spring Treatment of Old Pasture After the ground settles run a sharp harrow over the old pastures which stock have tramped over throughout the winter. It will loosen up the roots of the grass and pulverise and ecatter the droppings. If a roller is run over timothy and clover meadows it will be of great benefit, as the roots raised by freezing and thawing will be pressed back into the soil.

The Production of Salt.

The United States lends the world in the production of salt, the annual production exceeding 20,000,000 barrois. Michigan and New York each produce about 7,000,000 barrais. The United States produces about 25 per cent of the world's supply. Germany is the second largest producer, France third.

Weekly Crop Bulletin.

For Wesk Ending Monday May 23, 04 Throughout the eastern half of the State the past week was more favorable for crops than any preceeding it because stundant rains fall on the 11th and 18th. in the sections suffering most severely en drought, with great benefit to veg-

station generally. The temperature has continued below sormal es e fally at night, presenting apid growth, and injuring more sensitive crops, such as cotton, considerably he arter part of the week was lair and waimer. On the whole the rainfall this wesk was extreme y benedicial, and placed the soll in good concluton; where he largest amounts occurred far a work was delayed to rome extent, but crops are generally in good condition, clean and well cultivated. .

Much cotton is not yet up on attil s i s in the northern portion; e'sewhere most of the crop is now up, and chopping we'l advanced, with fairly good stands; cool nights are very unfavorable for this crop causing young plants to die out, and secessita ing some replanting; but there are comparative few complaints of poor stands; the crop is backward, but far in

advance of last year. Corn is doing fairly well, though it is smal; it is being cultivated; growth is slow on account of cool nights; a very large number of reports were received of damage to corn by cut worms chiefly in low ground. Betting tebacco is advancng under favorable conditions, and from one-half to two-thirds of the cro bas now been transplanted it is being injured in some counties by flea-bugs and cut worms. Farmers are still planting pesnuts which are coming up slowly. Gardens and truck crops estecially libh otatoes peas and beans are doing nicely Setting out sweet potatoes sprouts is un derway. The shipments of stawberries are nearly over, and the crop was a large

There will be plenty of peaches ! unplanted orchards; cherries are ripening, and grapes are in bloom.

Whooping Cough "In the spring of 1901 my children had whooping cough," says Mrs D W Capps, of Capps, Ala. "I used Chamberlain's Cough Remedy with the most satisfactory results. I think this is the best remedy I have ever seen for whoop cough loose, lessens the reverity and frequency of the coughing spells and coonteracts any tendency toward pneuonia. For sale by all druggists.

Just Worrying. "You appear ill at ease," said the young lady. "Are you ill?"
