Our glasses are properly fitted by the aid of scientific instruments, at about half the price you pay others who have not these necessary instruments, we guarantee satisfaction, you to be the judge, so why pay others more than double our price, especially to those who travel? SHORT PASSING EVENTS.

The weather today, showers. The new opera house will be opened Sept. 15th by AIG Fields famous orchestra.

All changes of advertisement must be in this office by 12 o'clock, (noon) or positively no changes will be made.

Mr Mark Disoway left on the Neuse yesterday for Philadelphia to recuperate his health. Mr Disoway's friends hope to see him speedily restored.

Catfish seemed to be more plentiful on the market yesterday than any other kind, and were in good demand. Thrifty housekeepers of color were glad to buy large sized bunches for five cents the bunch.

The A. M. E. Sunday School of Beaufort came to New Bern yesterday on an excursion. There were three cars of the picknickers and they seemed to enjoy themselves during the day.

At the meeting of the First Ward Committee last night, Mayor Ellis was elected a member of the City Democratic Executive Committee.

It would be an accommodation to the traveling public if the A. & N. O. people would have the trains stop for a moment at South Front street in passing through. Nearly everybody who comes to town from down the road has business down town and one must risk jumping off a moving train or walk nearly a mile to get to the business part of the city.

It looks as though people would learn not to go off and leave their children shut up in a house with fire or lamps burning. Last night a boy nearly eight years old because of the careless habit and another child is said to have been badly burned. A few years ago another case of the same kind happened up on Stanley street. A small child was left alone and the house catching a fire the poor little victim was burned to a coal cinder.

Inquiries have been made concerning the delay in completing the rock wall around Cedar Grove Cemetery. The contract was let more than a year ago, but not a stone has been placed in position yet. The contract was awarded to Mr Henry Brown, Jr., and a lot of rock was quarried and brought to the city, and there the work stopped. It seems that Mr Brown has business interests at Wilmington which has not permitted him to complete the cemetery wall. The time of the contract has been extended twice, the last extension being until September. It looks as though another extension will be needed, and if so the work will not be finished until next year as it cannot be done during the winter months, and it may be years before the wall is finished. It looks so now.

Potatoes Still Coming.

The high water mark on the movement of truck was reached yesterday. The steamer Neuse was loaded to her utmost capacity with barrels of potatoes, baskets of beans, crates of cucumbers, etc., and in spite of all that there was considerable truck left on the dock.

There were 2,000 barrels of potatoes, 1,500 baskets of beans, more than 100 crates of cabbages and cucumbers. Freight cars on the railroad also carried away very large consignments to northern markets.

Merchants testify to the prosperity of the truck season. They say that there has been more money in circulation this week than for several weeks before.

The truck business at Oriental is reported larger than for many years; it requiring an extra steamer to take care of the shipments from that place.

The ruling prices were potatoes \$3 to \$3.50; beans \$1.00 to \$1.25.

Odd Fellows Memorial.

Members of Eureka Lodge No 7 I. O. O. F. are requested to meet at the Lodge room promptly at 4-p m Sunday June 13th to attend Memorial services at Court House All Brothers are requested to bring flowers.

Bold Day Robbery.

Kinston Free Press, 19th. An exceedingly bold robbery was committed yesterday afternoon between 2 and 3 o'clock when the A. & N. O. ticket office in this city was broken into and robbed of \$7.10, the amount of change in the cash box that had not been put into the safe. No effort was made to break open the safe.

The robber gained entrance through the ticket window for the colored waiting room, breaking the pane with a spike hammer which had been left near by the section master.

No clue of much importance is known, farther than two young colored men, strangers, were seen loitering about the waiting room between 2 and 3 o'clock and they have not been seen since the robbery was committed.

Montgomery, Ala. Journal, June 11th. The Rev John Stanley Thomas, recently of Texas, but a native of North Carolina, has accepted the call to the Presbyterian church at Highland Park.

The Rev Mr Thomas preached Sunday at the church, morning and evening and the members were greatly pleased, and Sunday night a meeting was called and the Rev Mr Thomas was welcomed and accepted the pastorate of the church.

Dr. BYATT CORING.

FATAL RESULTS.

Of The Harriet First Last Thursday Night The Boy Is Dead.

Winsford Hallett, the boy who was so tragically burned in the fire caused by the explosion of a lamp Thursday night died at 4:30 yesterday morning. It is said that there was scarcely a place on the boy's body that was not blistered and in some places the flesh was almost separated from the bones.

Another child was in the house but he escaped with only a few bruises and burns. Hallett and his wife had just closed the house for the evening when the boy had gone to bed. An candle lamp was left burning on the table near the bed. It is not known whether the lamp was placed from accident or whether it was knocked off the table by the boy playing and smoking.

She became very prominent in the calling but failing health coming upon her she was compelled to seek a different climate.

Her remains will reach New Bern Sunday, the notice of the funeral will be announced later.

A Disgraceful Scene.

There was some little excitement at a certain Hebrew's store on Middle street yesterday.

A negro who was one of the excursion party from Beaufort was passing and was induced to go into the store to buy something. He was not disposed to do so and left the store when a great cry was raised that he had stolen a watch.

Some persons seized upon him and the man declared he had not stolen anything. They began to search him but he would allow no one to search him but an officer.

A lawyer happened by and the negro consented to have the lawyer make a search of his pockets. Nothing of the stolen watch was found and the man was given his liberty.

The negro was perfectly calm and orderly through the ordeal but the incident reflected in no agreeable manner on the impetuous trade policy.

THE NEW WOMAN.

Mrs. EMMA MITCHELL.

Mrs. Emma Mitchell, 620 Louisiana street, Indianapolis, Ind., writes:

"For the past five years I have rarely been without pain, but Fernum has relieved all that and in a very short time. I think I had taken only two bottles before I began to recuperate very quickly, and even bottles made me well. I do not have headache or backache any more, and have some interest in life."

—Emma Mitchell.

The coming of what is known as the "new woman" in our country is not denied by anyone as if she were a great blessing. But there is another very woman whom everybody is glad to see. Every day some invalid woman is testifying, "I have been made a new woman by Dr. Hartman's home treatment." It is only necessary to send name, address, symptoms, duration of sickness and treatment already received to Dr. Hartman, Columbus, Ohio, and directions for one month's treatment will be promptly forwarded.

If you do not derive prompt and satisfactory results from the use of Fernum, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

AN UNPLEASANT EXPERIENCE.

Mr. J. B. Dawson Dragg'd, By the Mail train, From the Pollock Street Crossing to Above Broad Street.

Mr. J. B. Dawson had a very narrow escape yesterday from a serious and possibly a fatal accident.

In the future he will either take so other mode, of transportation or will measure the speed of a moving train with better eyes.

Being desirous of going to the depot to mail some letters he found he was too late for a transfer and therefore went to the Pollock street crossing and endeavored to get on the train there. It was moving faster than he thought—too fast for him to attempt to board. He grabbed both rails but his hands slipped down giving him no opportunity to get onto the car steps nor to change his position. With great presence of mind he held on to the rails with a vice like grip and kept his feet from contact with the wheels.

The conductor and a passenger got hold of his arms and did all in their power to help him seeing it was impossible to get him on the train. He was dragged for a distance of ten or fifteen feet above Broad street.

On account of some truck cars being on the train the air whistle was discontinued, consequently the engineer could not be signaled to stop the train.

Fortunately Mr. Dawson did not suffer any bruises or lacerations on account of his experience and he did not think he was in an extra hazardous position as long as he kept his feet out side of the train.

When the train stopped he boarded the train as lively as if nothing of the kind had happened.

Anyway we are glad that we don't have to write an obituary for the general file.

VOICE OF THE PEOPLE.

At Journal.

In the general rank of the patriots to serve the people there is a noticeable difference among those to procure these without pay.

There is the position of county commissioner. His duties the honor he is provided. It is important to have good men on the board and for one of them I respectfully suggest W. A. Hartsfield who among many other good qualities possess the ability to manage his own business successfully.
