DISASTER COMES THROUGH OVER SUCCESS.

It can hardly be thought the remotest probability, that the State Democratic ticket to be named at Greensboro next week, could fail of being successful at the polls next November.

In the State ticket, with no contests outside the gubernatorial, the fight has become rather bitter between the friends of the two leading candidates, which does the party no good, and such bitterness before this has led to disastrous results to the candidates most concerned.

In the Congressional districts there are no signs of strife among Democrats, and the fight for success is one against the political enemy, not within the party ranks.

Democratic weakness in North Carolino lies in the ponderousness of its successes, and this is not surprising, for continued fifty and sixty thousand majorities is certain to breed over confidence, and with it a party depotism, a domineering and dominating party leadership, which feels secure in its position because it reckons upon an assured big majority following to support and do its bidding.

Such a political condition rapidly creates part dissensions. It develops aspirants seeking the sure things. It provokes personal enimities at the primary, which increases until open revolt follows at the polls.

There is nothing new in this. It is but a repetition in our political history. It is the proven answer certain in the party problem—Given an overwhelming majority, and the result is party disatisfaction, political corruption, and internal disaster.

There is no fault in Democratic principles, which need cause fear. It is the failure to remember that such principles exist, and that their carrying out is the basis upon which a party can succeed, upon which it has a right to expect to secure a following and to win at the polls.

But when principles are given secondary consideration, and previous party majorities are solely relied upon to continue a party in office, there is an end in sight which means disaster to the party.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional decease and therefore required constitutional treatment. Hall's Catarrh Cure, manufactured by F J Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses fron 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to curs. Send for circulars and testimonials.

Japan in the Eighth Century.

As early as the eighth century a university had already been established in Japan that included such modern divisions as schools of medicine, ethics, mathematics and history, and some of the text books employed at that remote period dealt with such subjects as the diseases of women, materia medica and veterinary surgery, types of text books which appear to have been unknown in European countries until about 1,000 years later.

Unreasonable Conductor.

Conductor—You ought to have known better than to get off the car in that way. You should always step forward in leaving a car. Passenger (who has picked himself up)—But, my dear sir, I wasn't going that way; I live on the street we have just passed.—Boston Transcript.

"I have been troubled for some time with indigestion and sore stomach," says Mrs Sarah W Curtis, of Lee, Mass. "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach why not take these Tablets and get well. For sale by all Druggists.

Thrown From A Wagon

Mr George K Babcock was thrown from his wagon and severely bruised He applied Chamberlain's Pain Balm freely and says it is the best liniment he ever used. Mr Babcock is a well known citizen of North Plain, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. Burrus & Co Cotton Letter.

New York June 15th.

From the action of the cotton market it looks as if the trade was waiting either for something in the way of crop news or watching the attitude of the trading interests before starting any important operations. As far as the weather is concerned it could not be more favorable. Since last Friday the weather has been all that could be desired throughout the cotton belt. With good weather and much better crop accounts than were received last year, or in fact, for two or three years, there is not much incentive to buy for higher prices, especially when there is no demand from spinners. Liverpool continues to show weakness, and to give evidence of the fact that consumption in Great Britain is much less than any one expected even at higher prices. As American spinners are pretty well supplied, there seems to be more than enough cotton to go around and operators are not disposed to work for a bull market as long as weather condition favor a good yield.

An Alarm Clock For 25c

If you want to get up early and feel good all day take a Little Early Riser or two at bed time. These famous little pills relax the nerves, give quiet rest and refreshing sleep with a gentle movement of the bowels about breakfast time W H Howell Houston Tex., says "Early Risers are the best pills made for constipation, sick headache, billiousness, etc." Sold by F S Duffy.

Ant Celestes.

An ant nest or colony arises from eggs laid by one or more "queens." The developing young are tended by the sexless neuters, or "workers." The maggots, or larval ants, are fed by them, often nourished out of the nurses' mouths, and are as carefully watched in respect of the temperature and other conditions of the nurseries as are infantile human beings. When full development occurs the pupes change into ants, which are either winged or wingless. The latter are the "neuters," or workers. They may develop big jaws and appear as the "soldiers" of the colony. Those which are winged are the founders of new colonies. They are of both sexes and they produce the eggs whence the new generations will be evolved.

Purchase of Wives.

Wives are still obtained by purchase in some parts of Russia. In the district of Kamyshin, on the Volga, for example, this is practically the only way in which marriages are brought about. The price of a pretty girl from a well to do family ranges from $100 to $200, and in special cases a much higher sum is obtained. In the villages the lowest price is about $25. It is customary for the fathers of the intending bride and bridegroom to haggle for a long time over the price to be paid for the lady. A young farmer whose father cannot afford to pay for a wife for him need not think of getting married.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was astonishing. I improved at once and am now completely recovered. For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It is guaranteed by C D Bradham's druggist.

"Was in Poor Health"

And we were greatly worried about him.

MASTER FEDOR MICHAELSEN.

In writing of the ailments so common to growing children, it is natural that "loss of appetite" should play a conspicuous part. Even in the smallest infants derangement of digestion is the starting point of almost all their ills, and at any age of life, when nourishment does not keep pace with the demands upon vitality, there is sure to be trouble.

The problem of health is not so difficult of solution when we begin, as the doctor does in his own health, with the kind and quantity of nourishment needed to sustain vitality. And when a growing child, for example, is unable to derive sufficient nourishment from ordinary food, hope in the world can the parent expect a vigorous growth? If the child does not relish food and begins to lose flesh and color, it is time indeed to adopt the following suggestion:—

Jefferson Terrace, Louisville, Ky., December 24, 1903.

Dear Sirs—I desire to speak with heartfelt praise of the merits of Ozomulsion. My boy, Fedor, whose photograph I enclose, has been wonderfully improved by its use. He was in very poor health, had no appetite and we were greatly worried about him. After having taken Ozomulsion, however, he is greatly improved in health in every way, and I take this opportunity to thank you for such a meritorious preparation for growing children.

Very respectfully,
(Signed) Mrs. T. Michaelsen.

Let the reader bear in mind that chronic coughing, wasting of flesh and strength, anaemia, consumption and a host of ailments spring from one source—malnutrition. And there has never yet been discovered a remedial agent so effectual as cod-liver oil. In Ozomulsion you have the best emulsion of cod-liver oil ever yet devised. It is an emulsion which excels not only in its palatability and perfection of its manufacture, but in the ease with which it is absorbed into the blood. It requires almost no digestive effort, and, in fact, has a favorable effect upon appetite and digestion.

In the anaemic conditions usually attending or following serious illness, Ozomulsion is most effectual in enriching the blood with the substances most essential to vitality and strength. Convalescence is made rapid and the danger of relapse averted.

We do not believe you can correctly measure the power of cod-liver oil to do good in the human system until you have given Ozomulsion a fair trial. Its record and its superiority entitles it to your consideration.

Druggists sell Ozomulsion at 50 cents and $1. If your druggist does not keep Ozomulsion in stock he can easily order it for you, or if you desire a small sample, to see what it is like, you can obtain the same by mentioning the name of this paper in which you read this advertisement and sending to THE OZOMULSION CO., 88 Pine St., New York City.

Dutch Roses.

A study of Jan Steen's pictures of Dutch home life some 200 years ago proves to conviction that in his day the noses of his country folk were quite as fantastic as they are now. Without their pendulous, heavy, mirth inspiring organs of smell, the artist's tipsy fiddlers and peasants, quack doctors and housewives would not make one smile half as much as they do. It is well that the average Dutchman is a good natured fellow. No matter whether his amiability be due to his phlegmatic temperament or to the reasoned discipline in his soul, the result is the same to the outer world. If he were naturally disposed to be a prig to his neighbors there would be something horribly discordant in the ludicrous quality of his face.—Chambers' Journal.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Found by Science.

It is the surest thing in the world for a man to be permanently bald. No man whose hair is not dead at the roots need be bald if he will use Newbro's Herpicide, the new parasiticide. Herpicide destroys the germ that cuts the hair off at the root and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth and nature did its work by covering his head with thick hair an inch long. Now he says he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

What Converted Him.

This story regarding a converted bar-barian is told in the English papers: A negro clergyman was entertained at tea by the president of a college. The guest, who came from west Africa, related some particulars of his early life, when a lady asked him how he became a Christian. "The story of Jesus converted me," he answered. "You know, we are told the dogs did not touch the palms of her hands. Well, that convinced me of the truth of the narrative, for we never eat the palms of the hands in my country. They are too tough."

Altitude and Voices.

Generally speaking, races living at high altitudes have weaker and more slightly pitched voices than those living in regions where the supply of oxygen is more plentiful. This is shown among the Indians living on the plateaus between the ranges of the Andes at an elevation of from 10,000 to 14,000 feet the men have voices like women and women like children, and their singing is a shrill monotone.

Smart Alec.

The Vicar—Did you see a pedestrian pass this way a few minutes ago? Farm Hand—No, sir. I've been wrastlin' on this 'ere patch mow'n a mower, and darned nearly have passed, 'cept a solitary hare, as he was trampin' on foot.—London Telegraph.

Driven To Desperation.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident resulting in Burns, Cuts, Wounds Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. Its the best on earth. 25c at C D Bradham's Drug Store.

The Need For Water.

Water constitutes about two-thirds of the weight of the body and enters into the composition of all the tissues and fluids. To keep the necessary proportion, a large quantity needs to be ingested. One of the great dietetic errors is the neglect to take a sufficient quantity. The amount found in foods is insufficient, and about five cupfuls should be taken daily in beverages. A vegetable diet diminishes the need of water, while one composed largely of animal food increases this need.

Considerate Papa.

At the end of thirty years Hiram had accumulated a fortune. His wife and daughter were delighted. "Pa," said they, with becoming modesty, "we now not only have money enough to cut a splurge, but poor, dear papa is too crushed down to appear among the best people."—Life.

For a Hundred Years

For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remains for E C DeWitt & Co. of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, eczema, boils and piles. The blind, bleeding, itching and protruding piles yield to its healing influence like magic. Beware of worthless counterfeits. Sold by C D Bradham's druggist.

A ROYAL FEATHER CLOAK.

Kalakaua Couldn't Wear It, But the Queen Discovered It.

When King Kalakaua of Hawaii visited Japan many years ago he was very anxious to exhibit to the Japanese his famous royal feather cloak. It did not look well draped over the regular costume of the king, which was based on European military models. It was out of the question to wear it draped over brown cuticle, as was the ancient fashion. Finally it was decided to let Robert, one of his attendants, wear it. William N. Armstrong, the king's attorney general, said: "This additional service delighted Robert, who now, according to a confidential statement made to his Japanese attendant, was 'keeper of the royal standard,' 'groom of the feather cloak' and 'valet in ordinary.' While in the imperial car, on the way to Tokyo, the king's suite had suddenly seen Robert, sitting in state in the luggage car, dressed in a silk hat, white gloves and with the gorgeous royal cloak hanging over his shoulders, the tableau being completed by a group of Japanese attendants who were standing before him lost in admiration." But Robert was scarcely equal to the dignity that was his. In his capacity of valet he preceded the party to the palace assigned to them, and discovered there abundance of wines and spirits, which he consumed until they arrived. He was found asleep in the king's bedchamber with the silk hat far down over his head and the gorgeous cloak askew on his shoulders. He was at once deposed from his office of 'groom of the feather cloak.'"

The Vendee.

Miss Breezy—Well, Mr. Harkaway, now that you have inspected me thoroughly, what have you to say? Mr. H.—All I can say, Miss Breezy, is, "I came, I saw, you conquered."—Brooklyn Life.

An Excellent Memory.

Hicks—He's very charitable, isn't he? Wicks—Who? Pincher? Hicks—Yes. He says he always remembers the poor. Wicks—Well, that's all. It's a matter of memory.—Philadelphia Ledger.

Startling Evidence.

Fresh testimony is great, quanity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequaled. A recent expression from T. J. McFarland Bentonville, Va. serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by C D Bradham, Druggist. Trial bottle free, regular sizes 50c, $1.

PITH AND POINT.

How often the people applaud when you do not approve!

If you fool people even a part of the time you are going to be kept busy.

A man who has a lot of money and no sense is usually a very severe critic.

A man never knows how many steps he takes every day until his foot hurts him.

If you will take care of yourself, young man, it is possible to have fun without getting drunk.

Occasionally you see a man so touchy he reminds every one of an express package marked "Handle With Care."

Say what you please about the women being shielded from the world, when it comes to being carefully guarded what is the matter with the married men?—Atchison Globe.

A Strong Heart.

Is assured by perfect digestion. Indigestion swells the stomach and puffs it up against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures the indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its function naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to the blood and tissues all of the food nutriment. AN ODD PROCESSION.

They Weave Their Nest at Night and Keep Moving.

The sciara, or the gnat tipula, a tiny wormlike creature which is found in the forests of Norway and Hungary during the month of July or early in August, gather in huge numbers preparatory to migrating in search of food or for a change of conditions. When setting out on this journey, they stick themselves together by means of some glutinous matter and form a huge serpentlike mass, often reaching a length of between forty and fifty feet and several inches in thickness. As the sciara is only on an average of about three thirty-seconds of an inch in length, with no appreciable breadth whatever, the number required to form a continuous line of the size above mentioned is incalculable.

Their pace is of course very slow and upon meeting an obstacle, such as a stick or stone, they either writhe over or around it, sometimes breaking into two bodies for the purpose. A celebrated French naturalist says that if the rear portion of this snakelike procession be brought into contact with the front part the insects will keep moving round in that circle for hours, never seeming to realize that they are getting no farther on their journey. If the portions be broken in two, the procession will unite in a short time. When the peasant meets one of these processions, he will lay some obstacle in front of it. If it passes over it, it is a good omen.

The Japanese Sleeve Dog.

The Japs have a quaint standard of perfection by which they assess canine merits. Thus the sleeve dog has or ought to have five cardinal "points"—the "butterfly head," in which the color marking represents a butterfly, the white blaze on nose and forehead forming the body, and the rest of the face and ears the wings; the sacred "V" found in the wedge shape of the blaze running up the forehead; in the center of this sacred V an isolated circle of color, which typifies the "bump of knowledge;" the "vulture feet" requiring ample feathering, as the fringing hair is technically called, and lastly the tightly curled, profusely feathered tail symbolical of the sacred flower of Japan, the chrysanthemum.
