ROBERTS BOOK BOX'S

PUPILS OF PROHIBITION.

Evils Which Follow in the Train of Sumptuary Legislation. A Lament able Showing.

Following is the report of the proceedings at the tenth annual meeting of the Charity Organization Society of the city of Newport, R. I. At the time this report was made Rhode Island was under prohibition:

"A difficulty encountered by our visitors with increasing frequency during the past two years, and one likely to become still greater, is the sale of liquor in dwelling houses. Our policy has been, when the fact is well ascertained, to bring it at once to the attention of the person visited, and to cease visiting unless a promise is given to immediately stop the objectionable and unlawful practice. Of course we endeavor to see that the promise is kept. There are cases now under our care where there are unquestionable and well-founded suspicions that such practices prevail, but where, nevertheless, the evidence is not sufficiently clear to justify the termination of our oversight and care. That the gravity of the situation in this regard may be apparent, some facts of a general nature may be stated.

"During the efficient administration of the office of Mayor for the past three years in this city, the sale of liquor has practically been driven from our public streets. It may fairly be said that there are no open saloons here. Yet the evidence that large quantities of liquor are brought here and sold is unquestioned. By accounts officially kept, it appears that the importation of liquor has largely increased during the past eighteen months; that by the Old Colony Steamboat Company alone, during the past Summer season, from forty to two hundred barrels or kegs, chiefly of malt liquors, arrived here daily. During the nine months of 1903, from February to October inclusive there were in Newport one hundred and twenty-seven searches for and seizure of liquors on warrants in buildings where it was alleged to be sold. Eighty-one of these were in dwelling houses kept by fifty different persons. This shows that there were repeated seizures in several cases. The remaining forty-six searches were in stores and small shops kept by seventy-one different persons, many of which places were immediately adjoining to or connected with the dwelling houses. Eleven of these seventy-one were women.

The reports of police officers, as well as the statements of those whom duty calls to visit such localities, show that these places which have been raided, do not constitute a majority of those where liquor is sold. Indeed, there is good reason to believe that there are streets where liquor has been sold during the past year in nearly every house. Many of these people have never sold before, and the daughters of some of them are in our homes as servants. They are easily led into it. A friend and neighbor has perhaps started in upon the business. The example is contagious here appears to be an opportunity to make a little money in a household where spare pennies are not over abundant; the moral forces are not strong enough to resist the temptation; such scruples as exist against the wretched business go by the board, and soon perhaps the majority in some little neighborhood are engaging to a greater or less extent in this miserable employment and it is the easy for persons removed from pressing want to take up the business, how much easier it is for those upon whom the burden of extreme poverty bears heavily. 'If I don't sell liquor how can I live?' is a question which has been heard more than once in the past year.

"In this city in many homes liquor is sold to men and women in the presence of their children. As one thinks of the influences of such practices not only upon themselves, but upon their children, of the future evils to flow from these lessons so easily learned in the evasion and breaking of the law, of the prohibitions of these young people becoming future drunkards, of the vulgarizing and degradation it forces upon girls resulting from the conversion of a manicure kitchen into a saloon; visited by coarse, drunken, intoxicated men the simple suggestion of what possibilities the future has for them in store is appalling. Of what good are this, and other charitable organizations against the disorganizing, corrupting power of this evil, poisoning the home and the moral tone and life of whole localities?

"Respectfully submitted,

"Edward Tweedy, President; F. W. White, Vice-President; J. T. Burdick, Treasurer; M. S. Burdick, Secretary; Joseph P. Gaines, William P. Sullman, John J. Cornell, Jr., William T Sheffield Jr., Daniel Lewis, Anna P. Hazzer, Andrew J. Peckham, Katherine White, K. P. Wormley, M. Browning, M. T. Barry, Town Sergeant; Lydia Melville Green, Assistant Aid to Agent; F. G. Hammett, Secretary for Primitive Children; Emily F. Capon, from Flower Mission."

In view of the constable state of affairs existing under prohibition as shown in the above report, it is not surprising that the people of Rhode Island voted more than five to one, to do away with prohibition in June, 1903.

Professor Joe Jo and, of Asheville, has been engaged and placed in the band at the Hotel Grove in charge of a select orchestra and band.

GLENN THE LEADER

"While the Lamp Holds out to Burn." Etc.

W W Clark Penitently Returns to Democratic Fold. Intense Enthusiasm Mark the Proceedings at Every Point.

Special to Journal.

Greensboro, N C, June 23.—Every train brought in delegates to seat the Democratic convention today. The weather is perfect; clear and cool. In spite of immense crowds gathered in Banner Warehouse where convention met, the place is kept perfectly comfortable. Electric fans kept air circulating, while great blocks of ice cooled the atmosphere. Ice water, lemonade and cigars were carried to delegates as wanted.

At the meeting of the Third Congressional District this morning, W W Clark made an eloquent appeal. He acknowledged previous political errors, and claimed he was a Democrat and would aid the party to the best of his ability henceforth and would vote the straight party ticket from constable to president.

At 12:16 this afternoon State Chairman F M Simmons called convention to order. Rev Dr Battle offered prayer. Chairman Simmons then made his address. Welcoming the delegates, the party for their interest; the convention being the largest ever held in the history of the State. Owing to delegates arriving and other noises in the hall the address could not be heard except by those near the speaker.

Congressman John H Small was nominated temporary chairman of convention and W L Colson, assistant secretary. Chairman Small made an able speech which could not be perfectly heard.

The executive committee presented following plan for convention organization. Adoption of resolutions and platform; election of delegates to St Louis for nomination of presidential candidate.

On amendment, nomination of candidates was made second order of business.

Recess was taken from 2 to 4.

The following persons were named by Executive Committee of Third District as members of the various committees:

Platform, F C Daniels, Wayne.

Organization, Nathan O'Berry, of Wayne.

Credentials, Dr John M Faison, of Duplin.

Committee plan of organization, J A Bryan, N O'Berry, and Dr J M Faison.

For State Executive Committee, J A Bryan, W B Chadwick, S O Middleton, H A Grady.

At 4:35 Governor Aycock came forward and in a magnificent speech spoke for 35 minutes, covering the work of his administration and defending it against attacks made by political enemies. The Governor was constantly applauded and given close attention. It was the greatest exposition of North Carolina Democracy that has ever been heard.

Committee on organization made the following report of permanent organization:

R A Doughton, Chm'n, Secretary, A J Fields; assistants R E Britton, and G P Pell; Reading clerks, W L Cobcon, W W Wilson.

For Spring and Grown Chickens go to the Oaks Market.

5,36 p m.

While waiting report of credential committee motion made for nominating speeches at 8.30, this evening. W S Bryant placed Major Stedman in nomination. W A Self nominated W D Turner Locke Craig nominated Thos F Davidson, J C Buxton nominated R B Glenn.

There were demonstrations for several minutes during nominations of Stedman and Glenn. The speeches seconding the nominations were listened to with impatience, crowd being noisy and speeches could not be heard. At 7.15 convention took recess to 8 p m.

FIRST BALLOT.

The Democratic State Convention re assembled at nine o'clock and upon report of credentials committee presenting all contests within each report was adopted. There were present and the delegates representing the full vote of the State, being the full number of votes in the convention, 1,000 and twenty six votes necessary for a choice.

The roll call for first ballot for Governor was concluded at 11:10 resulting as follows: Glenn 548, Stedman 423, Turner 119.

SECOND BALLOT.

Glenn 547, Steadman 419, Davidson 108, Turner 118, Doughton, fractions.

KICK AND SCREAM

Baby's Awful Suffering from Eczema.

Could Not Hold Her. She Tore Her Face and Arms.

Cuticura Saved Her Life, So Mother Says.

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good, in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table for I could not hold her. She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no trace of the humour left. I can truthfully say that they have saved her life, and any one suffering as she did, I should advise them to give Cuticura a fair trial." MRS. G. A. CONRAD, Lisbon, N. H., Feb. 7, 1903.

Five years later, viz., Feb. 23, 1903, Mrs. Conrad writes:

"It is with pleasure that I can inform you that the cure has been permanent as it is now six years since she was cured, and there has been no return of the disease since, and I have advised a lot of friends to use the Cuticura Remedies in all diseases of the skin."

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure and purest of emollients, to be followed in severe cases by mild doses of Cuticura Resolvent. This is the purest, sweetest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted and pimply skin and scalp humours, eczemas, rashes and irritations.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60). Cuticura Soap, 25c. Ointment, 50c. Depots: F. Newbery & Sons, 1 Edward St., Boston. Potter Drug & Chem. Corp., Sole Proprietors.

Send for "Cuticura Skin Book."

BARLEY is one of the oldest cereals known in history. But the barley grown today is the product of centuries of cultivation. Although it is a hardy cereal, and can be grown in any temperate climate, it is best cultivated in our Northern States, where the soil is peculiarly adapted to produce the most nutritious species.

Milwaukee, the home of the Pabst Brewing Company, is located on the edge of a vast barley district, where the best barley in America is grown. Pabst has his own buyers, who have had years experience in selecting barley, and whose exclusive employment is to purchase the two million bushels of this grain needed every year.

Every bushel of barley used by the Pabst Brewing Company is the best the land affords, and this insures the greatest possible nutrition in the malt from which Pabst beer is made. The hops, likewise are obtained by special employes whose office it is to inspect the crops of this flower each year, and their purchase is governed by their practica knowledge of the best localities of growth, and also the quality which possesses the correct amount of aroma and "hop principle" necessary to product good beer. Pabst Beer is always pure because it is brewed from only the choicest materials.

Before any vat, brew-kettle, keg or bottle is used a second time, vast corps of men and women wash, cleanse and scour these receptacles until they are swept and clean and free from all contamination.

System, the best labor and the latest scientific machinery are used throughout the great Pabst plant. Cleanliness and quality are above all else observed to the extreme.

The doors of the Pabst plant are always open to visitors, who may inspect for themselves the superior methods employed in the manufacture of Pabst Beer which could not be made better if double its price were offered.
