What the Papers Say, THE CHRISTIAN UNION.

'It has been once tried in Massac and ignominiously failed, it is, ding to all accounts, a failure in ode Island. In Ohio, a similar proon in the Constitution, prohibit license, gave ever the state for years to free liquor, and made Cincinnati's by-word and a represent. Is it wise for temperance men, who desire to abolish the saloon altogether: if they can and to restrict it where abolition is impossible, to incorporate in the Constitution of the State ne doubtful .qu experiment? We can give but one answer to that que-tion—as answer in the negative."

St. Louis Republic (Dem.). "Only the impractical destrinaire exany system of laws can be devised to prevent intexication and its results of legradation and crime. The only comunity in which it would be possible to inforce such laws is the prison. In ou penitentiaries men are kept from drinking, as they can be kept under prison
regimen. Rothing else will do it. The
community has no right to attempt to
restrict liberty in such fashion to any
such end, except where liberty has been
forfeited for crime committed."

Detroit Tribune (Rep.). "We know that 'prohibition does no robibit in places where public sentisent is not in favor of it. In Bango and Portland, in the old prohibition State of Maine, are many grogshops which could be wiped out by a high-tax law. If this west done, don't you be lieve it would be better for the cause of

New York Tribune (Rep.). "There is more liberty, more freedom from espionage in Moscow or St Petersourgh during a Nihilist panic than in the elties and villages of lows under the prohibition regime. Domiciliary visits, legalized house-breaking, intrusion into the family avactuary and the infliction of insults and outrages such as even the Austrians in Italy never dared to yet ture upon have been the out-come of the statutes intended to suppress the drink

New York Times (Ind.). "Probibition is at present the greatest hindrance to temperance legislation, and if it is set to one side and confined to the actual believers in it, without any attempts at conciliation or compromise the prospect of a realy efficacious public policy will be much improved."

New Orleans Picayune (Dem.). "The grank does not seem to under stand that a man may oppose probibl tion without having a deep-seated aftion for rum.

"Prohibition has declined visibly and sparably. In the States where it has been enacted into law or incorporated in the Constitution it is less popular than ever before. People openly admit its impotence in enforcement."

Cincinnett Enquirer (Dem.). "What some are pleased to misnam 'prohibition' is only another name to cowardies, one of the inherent vices of class of mon who are anxious to save the world by proxy. SUMMER COLDS

Produce Chronic Catarrh.

Madame Isabella Ellen Bayeas, Life Sovernor Grand Lodge of Free Masons of England, in a letter from Hotel Sara-

toga, Chicago, Ill., says: "This summer while traveling I contracted a most persistent and annoying cold. My head ached, my eyes and nose seemed constantly running my lungs were sore and I lost my appetite, health and good spirits. Docpills and powders, but all to no

or purpose.

"I advised with a druggist and he spoke so highly of a medicine called Peruna, that he induced me to try my first bottle of patent medicine. However, it proved such a help to me that purchased another bottle and kept on until I was entirely well." - -Madame Isabelia Ellen Baveas.

Summer colds require prompt treatment. They are always grave, and sometimes dangerous. The prompt-ness and surety with which Peruna acts in these cases has saved many lives A large dose of Peruna should be taken at the first appearance of a cold in summer, followed by small and oftrepeated doses. There is no other remedy that medical science can furnish, so reliable and quick in its action as Peruna. Address The Peruna Medicine Com pany, Columbus, Ohio, for a free book entitled "Summer Catarrh," which treats of the catarrhal diseases peculiar

wires that it is stated in military circles there that Gen. Kuropatkin has recently become convinced he needs more men to meet the Japanese and has asked for two hundred and fifty thousand more soldiers. His application was refused owing to the burden already on the country and the internal condition of affairs. He was informed he would be given such troops as could be raised, but not the number specified.

In the discussion of pure food in the United States Senate. Senator Mason of flifools declares that an investigating 15th. McSORLEY'S.

BARLEY is one of the cldest cereals known in history. But the barley grown today is the product of centuries of cultivation. Although it is a hardy certal, and can be grown in any temperate climate, it is best cultivated is our Northern States, where the soil is peculiarly adapted to produce the most autritious species.

Milwaukee, the home of the Pabst Brewing Company, is located on the edge of a vast barley district, where the best barley in America is grown. Pabst has his own buyers, who have had years experience in selecting barley, and whose exclusive employment is to purchase the two million bushels of this grain needed e ery year.

Every bushel of barley used by the Pabet Brewing Company is the best the land affords, and this insures the greatland affords, and this insures the great-est possible nutrition in the malt from est possible nutrition in the malt from which Pabst beer is made. The hops, likewise are obtained by special employes whose office it is to inspect the crops of this flower cach year, and their purchase is governed by their practical knowledge of the best localities of growth, and also the quality which pessesses the correct amount of aroma and "hop principle" necessary to product good heer. Fabst Beer is a ways pure good beer. Tabst Beer is a ways pure because it is brewed from only the choicest materials.

Before any vat, brew-kettle, keg or bottle is used a second time, vast corps of men and women wash, cleanse and scour these receptacles until they are sweet and clean and free from all con

amination.

Bystem, the best labor and the latest scientific machinery are used throughout the great Pabst plant. Cleanliness and quality are above all else observed to the

extreme.
The doors of the Pabst plant arc always open to visitors, who may inspect for themselves the superior methods employed in the manufacture of Pabst Beer which could not be made better if double its price were offered
