# There's Room For Success

Southwest In

Have you ever considered the great advantage of this feature of the Southwest—pleuty of elbow room—where three, five, even ten acres may be had at the price of a single acre in your home section? It's worth considering, especially when the great productive worth of the land is taken in account. It's a wonderfully fertile section. There is no betagricultural section in this country, and farms are cheap out there-in Arkansas, Oklahoma and Texas simply because there are more farms than farmers. Can you afford to overlook an opportunity of this kind? Our illustrated booklets will give you the particulare in detail. It not interested yourself write for them anyways in behalf of your less favored relatives and neighbors.
