Teacher.

BETTERMENT PUBLIC SCHOOL HOUSES

Suggested Readings Compiled by
New Bern Association.

If there is a hell for the man who gets drunk and beats his wife, there is surely a hell for the men and women who do not educate their children, but permit them to grow up for the chain-gang and the penitentiary. If folks can build churches, why can't they build school houses? It is a strange proceeding to leave a child just to grow up until it reaches manhood or womanhood and then hold a revival over the lost man or woman.—Supt Charles L. Coon.

READ ALOUD.

Hamilton Mable.
Read aloud. It is a distinct loss that reading is so badly taught and that so few people know anything about the magic of the poets in their use of sound. We read almost exclusively with the eye, although poetry is primarily intended for the ear. Shakespeare wrote almost exclusively for the ear, and we remain unmoved by the wonderful vibration of his passages until we hear them. Poetry ought always to be heard first and read afterwards. If the habit of browsing is sympathetically and intelligently interpreted by the voice, the much-discussed obscurity is not in evidence. Many people find, for instance, a little difficulty in getting the clear and full significance of "The Portrait of the Last Duchess" when they read it for the first time, but it fastens itself instantly on the imagination if it is well read. A good deal of time, now devoted to commentaries and text-books, might profitably be given to reading the text aloud, without note or comment. A work of art slowly discloses its full meaning and familiarity with it is the first condition of comprehension.

National League Games.

PLEHVE'S ASSASSIN.

Refuses To Give His Name. International Plot Suspected.
Rome, July 29.—The Russian government has asked the police of Rome to watch all Russian exiles. The authorities at St. Petersburg suspect a wide international plot.

St. Petersburg, July 29.—The man arrested yesterday for exploding the bomb which killed the minister of interior, Plehve, several others still declining to give his name or tell anything about himself. His only statement is "I performed an act of justice for which I will have glory. I had no accomplices, but if the government perseveres in the same policy Plehve's successor will meet with the same fate as Plehve and his predecessor."

NEW RULES FOR PRIMARIES.

Synopsis of Conditions for Holding of Political Primaries. Rules Adopted By State Executive Committee.

At a meeting of the Executive Committee of the Democratic party this week resolutions involving a new plan of holding primaries were adopted. In brief they were as follows:

1. The Committee shall provide for a primary for the purpose of nominating candidates for county or legislative affairs. The chairman is authorized to appoint a sub-committee which shall make and promulgate the rules under which the primary shall be directed.
2. This plan shall not supersede the old one except in such counties as have adopted the new one.
3. In order to adopt this plan of primary when a nomination is to be made one or two petitions in writing must be made to the chairman of the Committee. One must be signed by three-fourths of the county Executive Committee and if the other is presented it must be signed by 100 Democratic voters, asking that a meeting of the county Executive Committee be held to consider the advisability of holding a primary for this purpose. Said meeting shall be held within ten days to act upon that petition.

If the petition is granted the primary shall be subject to these rules:
3. The time of holding the primary shall not be less than 80 days before the general election. Not less than 15 days shall be given of the time and places of holding the election. Notices giving date, various holding places and the name of persons appointed to hold the same shall be published in the Democratic press, and copies posted at each balloting place such other places as the Democratic Executive Committee may think proper. In each primary the Committee shall designate where the primary shall be held, and as far as possible shall be held where general elections are held, but other places may be selected when it shall be shown that such place is more convenient for the majority of the voters. There shall be at least one voting place in each township.

4. Two well known Democrats shall be appointed to conduct this election. If any person shall become incapacitated, become a candidate or in any other way be legally incompetent for such position the chairman of the committee shall appoint some one in his place. In the absence of the chairman the remaining pollholder or authorized person may designate the second man. And such substituted man shall have the same right and authority as the one originally appointed.

5. Those who have charge of the primary shall have as many boxes for the reception of ballots as may be necessary. There shall be separate boxes for the different candidates to wit: Candidates for the general assembly shall be voted for in one box. All county officers shall be voted for in one box. All township officers shall be voted for in one box. The hours for holding said election shall be from 10 a. m. to 5 p. m. The County Executive power may have power to change these hours. In no case shall the election be held for less than six hours.

6. The Democratic candidate for any office or his representative may attend the primary and be present during the counting of the votes. In case a vote is challenged the man may vote upon presentation of proper credentials unless the challenge is upheld by both pollholders. Every challenge shall be recorded and any candidate dissatisfied with the result may appeal to the county Executive Committee who shall allow or disallow the vote and shall amend the appeal in accord with its judgment.

7. At the close of the election it shall be the duty of the pollholders to begin at once to count the votes, make a list of all candidates and their officers; sign such a list and return it once to chairman. They shall upon request give each ballot date a copy of the list and shall also return to the chairman the number of challenged votes both allowed and disallowed.

Try a bottle of Carbonated Onion Juice. It possesses wonderful tonic properties made from the famous Onion plant and Kola nut.

KIDNEY TROUBLE CURED.

General Health Greatly Improved by Peruna.

MRS. M. J. DANLEY.

Mrs. M. J. Danley, Treasurer of the Rebecca Lodge, I. O. O. F., writes from 124 First street, N., Minneapolis, Minn.: "I was afflicted for several years with kidney trouble which became quite serious and caused me considerable anxiety. I spent hundreds of dollars trying to be cured, but nothing gave me any permanent relief until I tried Peruna. It took less than three months and only ten bottles to effect a permanent cure, but they were worth more than as many hundred dollars to me. I am fully restored to health, know neither pain nor pain and enjoy life."—Mrs. M. J. Danley.
This experience has been repeated many times. We hear of such cases nearly every day.
Mrs. Danley had catarrh of the kidneys. As soon as she took the right remedy she made a quick recovery.
A Prominent Southern Lady's Letter.
Miss Laura Hopkins, of Washington, D. C., niece of Hon. E. O. Hopkins, one of the largest iron manufacturers of Birmingham, Ala., writes the following letter commending Peruna. She says: "I can cheerfully recommend Peruna for indigestion and stomach trouble and as a good tonic."—Laura Hopkins.
Peruna cures catarrh wherever located. Peruna is a specific for the catarrhal derangements of women. Address The Peruna Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

Don't Risk Your Eyes With Dangerous Drugs.
With our means of way of all the necessary optical instruments the danger of using any drug in the eye is done away with, the drugs in common use for testing should they be used in some eyes would produce certain blindness, and the proper eyes not to drop in cannot be told without the instruments to do it with.
We test free of charge, so why pay double to others not having scarcely any instruments, and on account of it have to use drugs, and then the result is uncertain, when we have the instruments with which the chance of any error is almost excluded.
Satisfaction guaranteed, and any glasses not satisfactory are exchanged free of cost.
