CLAUD KITCHEN'S GREAT SPEECH.

Great Demand for the Congressmans Speech in Congress Against Teddy.

The following concerning a well known Congressman from this State may be of interest to our readers:

Washington, Aug 2.—Although there have as yet been but few conferences of great importance at the headquarters of the Democratic congressional committee here, work in the shipping and mailing bureau has begun in earnest, and men and women are busy filling franked envelopes with copies of speeches made in congress that are in great demand.

Although directed against the administration, and in many instances more especially against the postoffice department, the government has no other choice than to distribute the free cost. A congressional frank demands official recognition, whether it be the frank of a Republican leader, or of an obscure member of the minority.

The speech in greatest demand is the one delivered at the last session by Congressman K. H. H. of North Carolina, lampooning President Roosevelt, attacking his personality and holding him up to the scrutiny for his criticisms of former presidents in one of his books.

Chairman C. Wheeler, of the commission says that the demand for the speech alone, coming in the main from chairmen of Democratic district committees aggregates 1,500 copies.

The government printing office is being kept busy day and night to supply the demand. Today six hundred bags of speeches were mailed from head quarters, most of them stuffed with Kitchens speeches. They weigh more than two tons and Uncle Sam will see to it that they are distributed in accordance with the wishes of the Democratic managers, even though the result should be the defeat of President Roosevelt.

Fearful Results of War.

London, Aug 3.—The Chee Foo correspondent of the Reuter Telegraph Co. states that junks have arrived here which report the Japanese made a desperate but unsuccessful attack on Port Arthur July 26th and another on the 28th. The Russians lost five thousand men. The Japanese according to the report displayed fanatical bravery. The losses among the Japanese forces are said to be twenty thousand killed and wounded.

Admiral Togo, according to his reports shelled the shore batteries, which returned the fire. On the morning of the 27th the Russian fleet steamed out of the harbor, but did not fire on the Japanese.

Tokio, Aug 3.—General Kuroki reports the Japanese losses in the two-day fight at Yanktulling and Kuhlitz were six officers killed, and sixteen wounded and nine hundred men killed.

St. Petersburg, Aug 3.—General Kuroki reports that the Russian troops retired from Hal Cueng along the road to Aeo Chan. The retreat was in perfect order despite the heat, which caused many sun strokes. He adds that no serious news has been received from the eastern frontiers.

Tokio, Aug 3.—A dispatch today from the front states that the battle of Tomucheng last week the Russians left fifteen hundred dead on the field. The Japanese casualties were four hundred killed and wounded.

Showers Continued.

Special to the Journal.

Washington, Aug 3.—The weather conditions for the South Atlantic Coast and Gulf States tomorrow are showers followed by fair weather. Heavy rains will occur in the central south.

Oh, Horrors!

New York, Aug 2.—Bishop Henry C. Potter delivered the principal address today at the first annual meeting of "The Subway Tavern," a model saloon which was established by a number of leaders in the reform movement in the city. The purpose of the promoters of the enterprise is to serve pure liquor and food at low prices under the best possible moral conditions. In his address Bishop Potter said the keynote had been struck by this attack on the liquor situation. He said he believed in the old village tavern as a meeting place where a long evening could be spent without the necessity of intoxication.

"I belong to a dozen clubs," he said. "If I want to go out to dinner or a social evening I can do so in any one of those clubs. But what of the man who lives in two rooms with five small children? He has no club. To get his glass of beer with his tushion he must go to the saloon."

"This is the greatest social movement New York has ever known. It is a movement every one of you must take into account if you would save the republic."

Bishop Potter concluded by wishing every success to the movement. The formal opening ended by the singing of the Doxology.

Try a bottle of Carbonated Coca Cola. It is a wonderful tonic, purifies the blood, and is the finest Coca plant and Kola nut.

The Weekly Crop Bulletin for the State. Says:

The climatic conditions, taken as a whole over the entire State, have been favorable; and this has been the first week for some time when crop correspondents from all sections report an ample supply of moisture. The temperature was about normal, although there were a few cool days. The rains were general and occurred mostly on the 27th and 28th. A number of correspondents, however, report rains nearly every day during the week. The northeastern south-central and a number of northwestern counties received excessive amounts, and the soil in each of these sections is too wet for cultivation, and is considered entirely too wet for a healthy growth of cotton. In the northeastern and south-central parts of the State there is some complaint of shedding, due to excessive rains; in the latter section, where the rains have been excessive for some time, the cotton is becoming weedy and in a few fields the plant is growing too rapidly. In the other parts of the State it is growing satisfactorily and, as a whole, promises exceptionally good results. It is blooming and fruiting freely, and the squares are well formed and well distributed. The stands of corn are excellent and the crop promises to be the best for years. Tobacco has made satisfactory growth during the week, but on an average is considered only a fair crop; curing is becoming general in the eastern and in a number of counties in the central district. Three-hilling still continues, but the season is nearing completion; the yield is everywhere satisfactory. Peas are growing well, and some fields are being cut for forage. In the extreme western counties, haying is in progress with good results, although the weather has not been favorable for this week. Peanuts in Hertford county are slightly backward and the stands are not satisfactory; no reports have been received from elsewhere. Sweet potatoes, garrets, and all minor crops are doing well. Watermelons are beginning to flood the market in the eastern section, and are beginning to ripen in the western counties; the quality is variable, but generally inferior. Apples continue to fall, and will be a short crop; peaches will be more plentiful; grapes are beginning to ripen, and although there is considerable complaint of rotting, a fair crop is anticipated.

Rains (in inches) for the week ending 8 a. m. today: Raleigh, 0.13; Goldsboro, 0.60; Greensboro, 0.44; Weldon, 0.54; Lumberton, 0.48; New Bern, 2.06; Wilmington, 1.00; Hatteras, 1.50; Pantego, 2.43; Charlotte, 1.30; Asheville, 1.90; Lexington, 1.40.

NOT A PATENT MEDICINE.

Hyomel, the Guaranteed Catarrh Cure, Prescribed by Physicians.

No one should confound Hyomel with patent medicines that are advertised to cure catarrh. It is far superior to them all as the diamond is more valuable than cheap glass. Their composition is secret, but Hyomel gives its formula to all reputable physicians.

Its base is the valuable eucalyptus oil, famous for its antiseptic qualities. This is combined with aromatic and healing gums and balsams, making a pure liquid which, when used in the Hyomel pocket inhaler, fills the air you breathe with germ-killing, disease destroying and healing powers that restore health to every part of the throat, nose and lungs.

Is it not foolish to try and cure catarrh by swallowing tablets or liquids? The only natural way to cure this disease and all other diseases of the respiratory organs is to breathe Hyomel.

This treatment has been so successful, curing 99 per cent. of all who have used it, that Hyomel is now sold by F. S. Duffy, under an absolute guarantee to refund the money if it does not cure. You run no risk whatever in buying Hyomel. If it did not possess unusual powers to cure, it could not be sold upon this plan.

The complete Hyomel outfit costs \$1.00 and comprises a hard rubber inhaler, a bottle of Hyomel and a dropper. The inhaler will last a lifetime; and additional bottles of Hyomel can be obtained for 50c.

Essential Elements in Any Consistent Scheme of Education

Freston W. Search, Clark University RELIGION.

The belief in immortality is instinctive in every soul. To primitive man the phenomena of Nature are the visible expression of the Infinite God. Man reaches his first realization of the existence of deity and divine goodness through a creed, but through the manifestations of the beauty, adaptation, and manifold design in the world about him. The immanent God has been, in the history of man in his struggle from infancy unto light, the basic consciousness which has rendered acceptable the doctrines of higher faith. Because of this historic fact of the manner which God deemed best for the development of racial man is there not abundant suggestion for the normal education of the child? It is not a good thing for a child to reach the early development in his religious consciousness through the growing realization of the evidence of his life in all the beauty, correlation, and unity of the world about him, and by living more in the presence of the immanent God? With such grounding of consciousness would not his belief be firmer because of the living "reason for the faith that is in him?" Contemplation of Nature must lead to the evidence of design, and design must presuppose a designer. Contact with superior souls, through their worship, leads to the realization of might and goodness; and in the ground work of might and goodness arise the loftiest ideals of a personal God. No creed ever yet spoke to the souls of men with the convincing power of the voice of Nature, "which cries aloud in all her works." Later on the doctrines of theology may well be taught, but the little child should be led to his fundamental consciousness of God by contact with the manifestations of God. There is that in the heros of the moon (and, in the majesty of the ocean surf, in the peacefulness of graceful landscape and limpid lake, in the eternal query of the stars, in the grandeur of the forests, in the exquisite beauty of the flowers, in the music of the birds, and in the adaptation and perfect unity of all life; which cradles the soul for indubitable belief in God, and for the breathings of the "Peace that passeth all understanding."

FINE Country Hams at Oaks Meat Market.

Examinations for entrance to the Peabody College for Teachers at Nashville, Tennessee, will be held for this congressional district at New Bern, N. C., August 4-5, 1904.

They will be given by S. M. Brinson in the office of the County Superintendent.

Yours truly, A. C. REYNOLDS, Pres. Alumni Association.

Go to the Oaks Meat Market for the best Canned Meats.

Don't forget that we are still closing out our summer clothing in mens boys & childrens at 40c.

J. J. BAXTER

Mc Toot, Says The East.

Halegh, Aug 3.—Mr. A. Cannon the incumbent member of the board of agriculture says the farming prospect in western North Carolina is superb and that taking it all and all the crops are certainly by far the best in ten years past. He says the corn and grass crops could not be better; that the cabbage crop is very large and the quality high and that the Irish potatoes will be the best ever grown in that section. He said that from his potato field he got an early rose potato which weighed one pound and six ounces, this being the largest he ever saw of that variety.

Mc Toot, Says The East.
