GOVERNOR CALLS

Meeting A & N C Stockholders to Consider Lease Proposition.

SAMPLED FEED STUFFS.

State Agricultural Department After Food Adulterations. Valuable Work Done.

Raleigh, N. C., Aug 9.—Coburn L. Harris of the State Agricultural Department has come in from a trip to the western part of the State, that is from Raleigh to the Tennessee line, during which he took about a thousand samples of feed stuffs for man and beast. He found very few adulterations and made only three seizures, one of these being of feed stuff for beasts made in Virginia and the other of the same kind of food made in Tennessee. The third seizure was a small one. He says dealers are enquiring which manufacturers put up the best food stuff and that these inquiries are made of the agricultural department.

Mr Harris will be in camp for ten days at Morehead City and will then resume the work of taking samples in the east. The bulletin covering the results is to appear in November, and will be extremely valuable as it will contain the name of every manufacturer who sells such goods in the State, every town in which such goods are found and also the names of all dealers handling these goods. The inspections are having the effect of running out adulterated goods.

For the first six months after the inspection was first begun the adulterations of cattle-feed were as great or even greater than were those of commercial fertilizers before the laws providing for their inspection went into effect. No doubt the next legislature will make the law a little more rigid as there are a few loopholes in it. There are some goods which are not what they should be and yet they practically come up to the requirements of the present law. There are some adulterated goods coming into the state from Georgia. The inspection so far has covered about two thirds of the state.

Grand Camp 100 F

The Annual Grand Encampment of the North Carolina Odd Fellows will assemble in Kinston today.

This encampment is entirely distinct from the meeting of the Grand Lodge, representations only from the different local encampments, attending. There will be thirty-five officers representatives at the Kinston Grand Camp today. The most of the official business will be transacted Thursday.

The Kinston boys will confer the Patriarchal and Golden Rule degrees and New Bern will confer the Royal Purple degree on a real live candidate on Thursday evening.

Including the New Bern visitors and the local camp of 85 members, there will probably be 100 Encampment Odd Fellows here this week.

The local camp will likely take the visitors Friday to Morehead City for a days outing.—Kinston Free Press.

BEST TIME TO CURE DYSPEPSIA.

F. S. DUFFY, Guarantees M-I-o-n. Will Cure if Used Now.

The warm weather months are the best in the whole year for the treatment of dyspepsia and stomach troubles. The out-door life, the fruit and berries which are so liberally eaten, all help to restore tone to the digestive system.

F. S. Duffy stands ready to refund the money if M-I-o-n does not cure indigestion and stomach troubles at any season but urges all who are afflicted with dyspepsia to begin the use of M-I-o-n now, knowing that the cure will be more quickly effected.

If the food you eat gives you pain and discomfort and does not digest readily, a M-I-o-n tablet taken after each meal will soon bring relief and complete freedom from all stomach troubles. M-I-o-n soothes and heals the inflamed stomach lining, mingles with the food, aids digestion, gives tone and strength to the whole system, and makes complete and permanent cures in the worst cases of stomach troubles.

If by chance M-I-o-n should not give you perfect satisfaction and do all that is claimed for it, return the empty box to F. S. Duffy and he will refund your money without question. You see the safe judge. A 50c box contains two weeks' treatment, and this guarantee covers two boxes.

Take advantage of the summer the best time in the whole year to regain good health and to enjoy it.

F. S. Duffy has just prepared a beautiful list of the Distributive Selling Territory. Also a list of Agents. Write for them free.

Mythland.

In his love for story hearing the child repeats the long and well-tried experiences of the world before the age of the alphabet and books. As primitive man reached a glorious elevation in his rise through story-telling to the heights of Athenian culture, so the child should gain his first inspiration, his first love for heroic life, from the story-teller. It is difficult to overestimate the great value of this noble exercise in the inspiration of the younger child—an exercise but poorly utilized in our schools. There is much in the great world of Nature which the child must find out for himself; there is much also which he should gain from the story-teller and later on, through the lecturer. These exercises inspire to great determination, and give oftentimes the larger view that is essential in the proper accomplishment of individualistic endeavor. The story-teller is the children's friend, and their means of getting, by short-cut and in a nutshell, far-reaching glimpses into the world which others have trod. A most useless person in the school-room is the teacher who tells everything. "A consummation devoutly to be wished" is the story-teller of discrimination, who can unlock the portals of the great unknown and inspire to enter without herself gathering the rich fruits and flowers which must be the privilege of the interested child. As in the early history of the race there was a time when the treasures of precious learning were handed down by story-telling, so in the early years of individual life is the period of greatest possibilities for gathering up from mythland and narrative history the elemental keys to a great world of inspiration and investigation.

OBVIOUS TO SURROUNDINGS.

A & N O Management Puts up Train Placards For Public Benefit.

The Atlantic & North Carolina railroad management has recently instituted a new thing at its station in this city, it being signs or placards, which are hung at the car steps of the trains when they stop here, going east or west. This gives ample warning to all passengers, and prevents the mistakes which have occurred, in passengers getting hastily on board trains, without noticing which way they were going, and this mistake is very easy to make at night when both trains are closely scheduled at this place and very often meet here.

An amusing incident of this getting on board of the wrong train, was seen here a few days ago. A couple, very tender towards each other, and devoted, arrived at the station, to go to Morehead City. The train was late and had to take the siding to make room for the Goldsboro train, which drew up and stopped. The couple, conscious only of each other's presence, but sensible to the fact that they were going on a train, boarded the Goldsboro train, and were quickly carried away in the opposite direction, from that which they had started. It is not reported that their return to their surroundings made any difference to the couple.

But with the new signs the A & N C. conductors have every excuse on their side, and it is just up to the passengers, to make the connection, and show tickets.

Don't forget that we are still closing out our summer clothing in mens boys & childrens at cost.
