## ON TO NEW BERN!

The A. & N C Lease Question All Absorbing Event.

No One Knows What is Coming. New Cotton. Good Tobacco Counties. Congressman Small on Election Outlook.

Raleigh, Aug 31.—There was a very decided movement this morning in New Bern of all the people interested in securing the lease of the Atlantic & North Carolina railway. Tomorrow will settle the question. Nobody seems to know what will be done. Mr R S Howland, a bidder, was asked his opinion and replied; Nobody knows is going to happen. Ex-Governor Jarvis, who is also interested, as an advisor of the Governor said; "Nobody knows." It remains with the private stockholders. I think the Governor will be governed very much by their wish. I think this the proper thing to do. They are the owners of the property. When said to Ex-Governor Jarvis, that the Board of Internal Improvement thought it had supreme control of the matter, he said he would not argue that question. B O Beckwith of that board, renewed his statement, first made to your correspondent that the board had the power of exercising supreme control of the matter; that it controls the State proxy and can over-rule other actions. The Board of Internal Improvement went down today. Theodore F. Davidson, as attorney for Mr Howland declared very full statements of the latter's bid, to be laid before the stockholders.

The first bale of cotton arrived here today and was raised in Panther Branch township, this county by H S Whitley. It was sold at once.

Commissioner of Agriculture Patterson says the attendance at the Farmer's Institutes of Farmers now being held is very good. The interest in these Institutes is great and growing.

Secretary Taylor of the Tobacco Growers Mutual Hall Insurance Company has returned here after a ten days trip in a buggy through Stokes and Surry counties, where he says there is a big tobacco crop. In fact growers told him there had never been a better one. Hall has done damage in places in that section.

A Raleigh man who mailed a box in the postoffice and who wanted to ladies here and elsewhere literature which it was charged was obscene has been held in \$500 bond by U. S. Commissioner to appear for trial at the December term of court.

The factional feeling between the two wings of the Republican party in this district appears to be pretty bitter. So far they have done nothing in regard to settling their disputes and it is said they will be tried before the State committee, including the matter of a congressional candidate etc.

Mr Stringfield, from Manteo, Dare county, was here today and said an artist from Indiana had been there, and has made a painting of Old Fort Raleigh this it is said will be used as an advertisement for some new brand of tobacco.

Congressman John E. Small, when asked his view as to the chances as between Parker and Roosevelt said; It is anybody's guess as to the election. There are too many doubtful States to permit one to make a positive guess, but the outlook is just as bright as it was in 1894. I believe we will carry New York West Virginia and Maryland. It seems to me that Indiana is the pivotal State.

President H B Varner of the State Press Association says 35 North Carolina editors will go to Exopus September 6th and will be at the banquet and reception there at which they will meet Judge Parker. He hopes many more will go.

## KILLS GERMS OF CATARRH.

Hymel Goes To The Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hymel is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and eventually drives from the system all traces of catarrhal poison.

Thousands of testimonials have been given us to the astonishing cures made by this remedy. J S Nugent, treasurer of the American Union Life Insurance Co., of New York city, writes: "Hymel has completely cured my daughter of catarrh from which she has been suffering for years."

Probably the strongest evidence that can be offered as to the powers of Hymel to cure catarrh is the fact that F S Duffy will agree to refund the money if you say that Hymel has not cured you.

The complete Hymel cure costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hymel. The inhaler lasts a life time, and if one bottle does not cure, an extra bottle of Hymel can be obtained for 50 cents.

Now is a good time to cure your catarrh.

## 65-BID

For A & N C Stock On Lease Prospects.

Why Governor Aycock Must Attend Stockholders Meeting At New Bern. Beckwith's Position Makes it Necessary.

Special to Journal.

Raleigh, Aug 31.—It is the position taken by B O Beckwith of the State Board of Internal Improvements in opposing any lease of the Atlantic and North Carolina railway which makes it necessary for Governor Aycock to go to New Bern tomorrow, and vote as a member of the board.

He favors the lease and so does B W Ballard, the other member of board. It is the first time a member of the Board has ever gone counter to the views of the Governor.

Beckwith is deeply satisfied with his position in the matter, while he contends that the State proxy is absolutely under the discretion of that board there are other State officials who do not hold their view. They say that while of course the board elects the proxy, it does not control him. That he is an officer of State and can vote as he pleases on all questions, that is for or against the lease.

The Atlantic & North Carolina stock made a further advance here today, on confident belief that lease will be made. One holder refused 65 for his stock, and a business man asked the bank to buy him stock at that figure if possible Governor Aycock leaves for New Bern at 8 o'clock tomorrow morning.

## Old Engineer Dead.

Special to Journal.

Raleigh, Aug 31.—Joel V. Wilson, father of City clerk W W Wilson died at his home here, aged 75. He was a machinist and engineer on Seaboard Air Line over fifty years, except in 1869 and 1874, when he was master machinist of A & N O Railway.

## Colored Man Dies Suddenly.

Yesterday afternoon about six o'clock a very pitiful death occurred on the market wharf.

Austin Mourning, a very old colored man who lives in James City was brought over in a boat by a young boy, and on reaching the wharf he was found to be in a helpless condition. The boy stated that the old man before leaving home complained of feeling unwell and asked him to row his boat over to town so he could get some medicine. The boy complied with the old man's wishes but before the boat reached here he collapsed and fell helpless and well nigh senseless in the bottom of the boat.

Help was called and ready hands lifted the stricken man from the boat to the wharf.

A pillow was placed under his head, his clothing was loosened, and a doctor called, but it was evident from the way the poor old creature was suffering that the end was near. Ten minutes of the most intense agony and death came to his relief.

Dr Charles Duffy arrived just a moment after life was extinct, pronounced the man dead, and with a very close examination gave the opinion that death was caused by apoplexy, and stated that an incision was unnecessary, then closed the eyes, composed the features, adjusted the limbs and it was all over.

Austin was well known around New Bern, has been a fisherman and grabber for many years and although well advanced in years, his industry would not allow him to give up. He was a strict member of the church, and in his dying agony, although in a semi-unconscious state did not forget to commend his soul to his God.
